To the Board of Education – Montgomery County
Troy, North Carolina

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Montgomery County Board of Education (the "Board") for the year ended June 30, 2012, and have issued our report thereon dated September 17, 2012. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing described in our engagement letter dated November 22, 2011.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Board are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2012. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The financial statements include no overly sensitive estimates.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We noted no such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 17, 2012.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of members of the Montgomery County Board of Education and management of the Board and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

INDEPENDENT AUDITORS' REPORT

To the Montgomery County Board of Education
Troy, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Montgomery County Board of Education, as of and for the year ended June 30, 2012, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Montgomery County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Montgomery County Board of Education as of June 30, 2012, and the respective changes in financial position and its cash flows, where applicable, thereof and the respective budgetary comparison for the General, State Public School, Other Special Revenue and Federal Grants funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 17, 2012 on our consideration of the Montgomery County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting

for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Montgomery County Board of Education's basic financial statements. The individual nonmajor fund schedule, budgetary schedules and the accompanying schedule of expenditures of federal and State awards as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the State Single Audit Implementation Act are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The individual nonmajor fund schedule, budgetary schedules and the accompanying schedule of expenditures of federal and State awards have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual nonmajor fund schedule, budgetary schedules and the accompanying schedule of expenditures of federal and State awards are fairly stated in all material respects in relation to the financial statements taken as a whole.

MONTGOMERY COUNTY BOARD OF EDUCATION MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Montgomery County Board of Education's (the "Board") financial report represents our discussion and analysis of the financial performance of the Board for the year ended June 30, 2012. This information should be read in conjunction with the audited financial statements included in this report.

Financial Highlights

- The Board examined all programs and personnel closely this year due to significant reductions in local and State funding. The Board spent all of the remaining federal funding through the American Recovery and Reinvestment Act (ARRA) for the 2011-2012 fiscal year which helped to offset some of the local and state funding reductions. The other funding reductions were absorbed through attrition.
- The Board made adjustments to school level funding based on a continued decrease in average daily membership. Every effort was made to minimize the impact on classroom instruction.
- Average Daily Membership increased slightly from 4,104 students in the 2010-2011 year to 4,137 students in the 2011-2012 year.
- The Board received several million dollars of American Recovery and Reinvestment Act (ARRA) revenue over the past few years. Virtually all ARRA funding has now expired. Management and the Board of Education are working diligently to maintain a balanced budget and find ways to absorb these lost revenues.
- Financial reporting awards from Association of School Business Officials International and the Government Finance Officers Association were received for the second consecutive year.

Overview of the Financial Statements

The audited financial statements of the Montgomery County Board of Education consist of four components. They are as follows:

- *Independent Auditors' Report*
- *Management's Discussion and Analysis (required supplementary information)*
- *Basic Financial Statements*
- *Supplementary section that presents a nonmajor fund schedule and budgetary schedules for governmental and enterprise funds*

The *Basic Financial Statements* include two types of statements that present different views of the Board's finances. The first is the *Government-wide Statements*. The government-wide statements are presented on the full accrual basis of accounting and include the statement of net assets and the statement of activities. The statement of net assets includes all of the Board's assets and liabilities. Assets and liabilities are classified in the order of relative liquidity for assets and due date for liabilities. This statement provides a summary of the Board's investment in assets and obligations to creditors. Liquidity and financial flexibility can be evaluated using the information contained in this statement. The statement of activities summarizes the Board's revenues and expenses for the current year. A net (expense) revenue format is used to indicate to what extent each function is self-sufficient.

The second set of statements included in the basic financial statements is the *Fund Financial Statements*, which are presented for the Board's governmental funds and proprietary funds. These statements present the governmental funds on the modified accrual basis of accounting, measuring the near term inflows and outflows of financial resources and what is available at year-end to spend in the next fiscal year. The proprietary funds are presented on the full accrual basis of accounting.

MONTGOMERY COUNTY BOARD OF EDUCATION MANAGEMENT'S DISCUSSION AND ANALYSIS

The fund financial statements focus on the Board's most significant funds. Because a different basis of accounting is used in the government-wide statements, reconciliation from the governmental fund financial statements to the government-wide statements is required. The government-wide statements provide information about the Board as an economic unit while the fund financial statements provide information on each of the financial resources of each of the Board's major funds.

Government-wide Statements

The government-wide statements report information about the unit as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Board's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Board's net assets and how they have changed. Net assets are the difference between the Board's assets and liabilities. This is one way to measure the unit's financial health or position.

- Over time, increases or decreases in the Board's net assets are an indicator of whether its financial position is improving or deteriorating.
- To assess the Board's overall health, you need to consider additional non-financial factors such as changes in the County's property tax base and the condition of its school buildings and other physical assets.

The unit's activities are divided into two categories in the government-wide statements:

- *Governmental activities:* Most of the Board's basic services are included here, such as regular and special education, transportation, and administration. County funding and State and federal aid finance most of these activities.
- *Business-type activities:* The Board charges fees to help it cover the costs of certain services it provides. School food service is included here.

The government-wide statements are shown as Exhibits 1 and 2 of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the Board's funds, focusing on its most significant or "major" funds - not the unit as a whole. Funds are accounting devices the Board uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by State law, such as the State Public School Fund.
- The Board has established other funds to control and manage money for a particular purpose or to show that it is properly using certain revenues, such as in the Federal Grants Fund.

Montgomery County Board of Education has two types of funds:

Governmental funds: Most of the Board's basic services are included in the governmental funds, which generally focus on two things – 1) how cash and other assets that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. As a result of this focus, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the coming year to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental fund statements, in the form of a reconciliation, explains the relationship (or differences) between the government-wide

**MONTGOMERY COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS**

and the fund financial statements. The Board has several governmental funds: the General Fund, the State Public School Fund, the Individual Schools Fund, the Capital Outlay Fund, the Other Special Revenue Fund and the Federal Grants Fund.

The governmental fund statements are shown as Exhibits 3, 4, 5 and 6 of this report.

Proprietary fund: Services for which the Board charges a fee are generally reported in the proprietary funds. The proprietary fund statements are reported on the same full accrual basis of accounting as the government-wide statements. The Montgomery County Board of Education's only proprietary fund is an enterprise fund, the School Food Service Fund.

The proprietary fund statements are shown as Exhibits 7, 8, and 9 of this report.

Financial Analysis of the Board as a Whole

Net assets are an indicator of the fiscal health of the Board. Assets exceeded liabilities by \$45.3 million as of June 30, 2012 as compared to \$46.5 million as of June 30, 2011, a decrease of \$1.2 million. The largest component of net assets is invested in capital assets of \$42.0 million, which comprises 92.5% of the total net assets. Following is a summary of the Statement of Net Assets at June 30, 2012 and 2011:

**Table 1
Condensed Statement of Net Assets
As of June 30, 2012 and 2011**

	Governmental Activities		Business-type Activities		Total Primary Government

The net assets of the Board's governmental activities decreased \$1.2 million during the year, from \$45.7 million at June 30, 2011 to \$44.5 million at June 30, 2012, indicating a decline in the financial condition of the Board. Restricted net assets increased by \$136,000 while unrestricted net assets reported a slight decrease of \$39,000 from the prior year. Net assets invested in capital assets decreased \$1.3 million due to an excess of depreciation expense over capital additions for the year.

The net assets of the Board's business-type activities increased \$85,000 from \$760,000 at June 30, 2011 to \$845,000 at June 30, 2012. This increase of \$85,000 is the net profit generated by our school food service operations during the 2012 fiscal year.

Total governmental activities generated revenues of \$36.3 million while expenses in this category totaled \$37.4 million for the year ended June 30, 2012, resulting in the aforementioned decrease in net assets of \$1.2 million (including transfers to business-type activities of \$83,000). Comparatively, revenues were \$37.7 million, expenses totaled \$37.8 million and transfers out were \$82,000 for the year ended June 30, 2011, resulting in a decrease in net assets of \$179,000.

MONTGOMERY COUNTY BOARD OF EDUCATION MANAGEMENT'S DISCUSSION AND ANALYSIS

In comparing the two years, revenues decreased \$1.5 million while expenses decreased by \$420,000. The decrease in revenues is primarily attributable to a decrease in funding from operating grants and contributions. Revenues from federal ARRA (American Recovery and Reinvestment Act) grant contributions decreased significantly due to the expiration of the majority of these grants during the year. The decline in expenses was primarily in instructional services. Due to the expiration of the ARRA funding, the Board cut its budgets accordingly to absorb these reduced funding levels.

The Board's primary sources of revenues were funding from the State of North Carolina, Montgomery County, and the United States Government, which respectively comprised 68.9%, 13.2% and 11.1% of our total revenues. As would be expected, the major component of our expenditures was instructional services which accounted for 78.6% of our total expenditures during the most recent fiscal year. Of the remaining 21.4% of our total expenditures, 18.1% was attributable to system-wide support services.

Our business-type activities generated revenues of \$2.9 million while expenses in this category also totaled \$2.9 million for the year ended June 30, 2012. For the year, net assets increased by \$85,000 (including transfers in of \$83,000). Comparatively, revenues and expenses were both \$2.8 million for the year ended June 30, 2011, resulting in an increase in net assets of \$121,000 (including transfers in of \$82,000). In comparing the two years, the year-over-year decline in profitability of \$36,000 was primarily attributable to increased food costs, offset slightly by decreased salaries and benefits and an increase in federal reimbursements revenue.

Financial Analysis of the Board's Funds

Governmental Funds: The focus of Montgomery County Board of Education's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Board's financing requirements.

The Board's governmental funds reported a combined fund balance of \$5.1 million at June 30, 2012, an increase of \$187,000 over the \$4.9 million reported at June 30, 2011. The Board's Other Special Revenue and Capital Outlay funds each reported increases in fund balance for the year ended June 30, 2012 of \$454,000, \$5,000, respectively, while the General Fund reported a decrease of \$272,000 (including the increase in reserve for inventories). The Individual Schools Fund reported a slight increase in fund balance of \$1,000. Overall, total governmental fund revenues decreased by \$1.5 million while total expenditures decreased by \$132,000 from the prior year. As noted previously, the decrease in revenues is primarily attributable to the expiration of federal ARRA funding. Revenues in the Federal Grants Fund decreased by \$787,000 from the prior year, due almost entirely to a reduction in ARRA funding. Funding from the County decreased by approximately \$200,000 compared to the prior year due to efforts by the County to decrease expenditures and improve its financial condition.

**MONTGOMERY COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Proprietary Fund: The Board's business-type fund, the School Food Service Fund, reported an increase in net assets of \$85,000 for the fiscal year ended June 30, 2012 compared to an increase of \$121,000 for the same 2011 period, a decline of \$36,000. See the section above titled *Financial Analysis of the Board as a Whole* for a detailed explanation of the reasons for this year-over-year improvement.

General Fund Budgetary Highlights

Over the course of the year, the Board revised the budget several times to account for changes in revenue expectations and program allocations. The effect of these revisions was to increase fund balance appropriated over the original budget by \$644,000 and increase budgeted expenditures for instructional services. Since expenditure expectations and revenue sources can be unknown or uncertain at the beginning of the fiscal year when the original budget is adopted, budget revisions are necessary throughout the year to recognize these adjustments. The Board's expenditures in the General Fund were \$3.1 million under budget for the year. During the 2011-2012 fiscal year, the Board established the Other Special Revenue Fund to account for certain State, federal and private grant revenues, reimbursements, indirect costs and other miscellaneous revenues. Certain expenditures originally budgeted for from the General Fund were budgeted and paid from this newly established fund. In addition, the State allots positions to the Board for teachers and various other staff and pays the full cost of those positions rather than giving the Board a specific dollar allotment to use. Through the effective utilization of these position allotments, management was able to shift higher-paid employee salary and related benefit expenditures to the State Public School Fund and pay lower-paid individuals from the General Fund and other dollar allotment revenue sources. Through this process, the Board was able to generate significant savings which are reflected in the favorable budget variance in the General Fund for the year.

For the year, the Board's General Fund reported a decrease in fund balance of \$272,000 compared to an increase in the prior year of \$1.5 million. As mentioned previously, federal ARRA funding expired during the year, resulting in the Board receiving approximately \$800,000 less in Federal Grants Fund revenues. In addition, funding flexibility allowed by the State in the 2010-2011 fiscal year was limited in the current year. This flexibility allowed the Board to convert position allotments to dollar allotments that could be used to meet other budgetary needs of the district. The Board established the Other Special Revenue Fund during the year, which reported an increase in fund balance of \$454,000. The activity reported in this newly created fund was included in the General Fund prior to the 2011-2012 fiscal year.

Capital Assets

Total primary government capital assets were \$42.0 million at June 30, 2012 compared to \$43.4 million at June 30, 2011, a decline of 3.2%. More detailed information about the Board's capital assets is contained in Note 2.A.4 to the financial statements. The following is a summary of the Board's capital assets, net of depreciation, at June 30, 2012 and 2011:

MANAGEMENT'S DISCUSSION AND ANALYSIS**

Economic Factors

County funding is a major source of income for the Board; therefore the County's economic outlook directly affects the school district. The following factors have affected the economic outlook of Montgomery County:

- As of June 30, 2012, Montgomery County experienced an unemployment rate of approximately 12.5% as compared to an unemployment rate of approximately 12.7% at June 30, 2011. Montgomery County's unemployment rate is well above the June 30, 2012 State of N.C. and national unemployment rates of 9.9% and 8.4%, respectively.
- Due to limited regional growth, the Board expects enrollment to remain consistent for the next year.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2012

Exhibit 5

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ 146,289
---	------------

Change in fund balance due to change in reserve for inventory	40,884
---	--------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

	(1,340,096)
--	-------------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Montgomery County Board of Education conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Montgomery County Board of Education (Board) is a Local Education Agency empowered by State law [Chapter 115C of the North Carolina General Statutes] with the responsibility to oversee and control all activities related to public school education in Montgomery County, North Carolina. The Board receives State, local, and federal government funding and must adhere to the legal requirements of each funding entity. The Board has no component units.

B. Basis of Presentation

Government-wide Statements: The statement of net assets and the statement of activities display information about the Board. These statements include the financial activities of the overall government. Eliminations have been made to minimize the effect of internal activities upon revenues and expenses. These statements distinguish between the *governmental* and *business-type activities* of the Board. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the Board and for each function of the Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Board's funds. Separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. All expenses are considered to be operating expenses.

The Board reports the following major governmental funds:

General Fund. The General Fund is the general operating fund of the Board. The General Fund accounts for all financial resources except those that are required to be accounted for in another fund. This fund is the "Local Current Expense Fund," which is mandated by State law [G.S. 115C-426].

State Public School Fund. The State Public School Fund includes appropriations from the Department of Public Instruction for the current operating expenditures of the public school system.

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

Federal Grants Fund. The Federal Grants Fund includes appropriations from the U.S. Government for the current operating expenditures of the public school system.

Other Special Revenue Fund. The Other Special Revenue Fund is used to account for revenues from reimbursements, including indirect costs, fees for actual costs, tuition, sales tax refunds, gifts and grants restricted as to use, federal and State grants restricted as to use, federal and State appropriations made directly to local school administrative units, funds received for prekindergarten programs and special programs.

Capital Outlay Fund. The Capital Outlay Fund accounts for financial resources to be used for the acquisition and construction of major capital facilities (other than those financed by proprietary funds and trust funds). It is mandated by State law [G.S.115C-426]. Capital projects are funded by Montgomery County appropriations, restricted sales tax moneys, proceeds of county debt issued for public school construction, lottery proceeds as well as certain State assistance.

The Board reports the following nonmajor governmental funds:

Individual Schools Fund. The Individual Schools Fund includes revenues and expenditures of the activity funds of the individual schools. The primary revenue sources include funds held on the behalf of various clubs and organizations, receipts from athletic events, and proceeds from various fund raising activities. The primary expenditures are for athletic teams, club programs, activity buses, and instructional needs.

The Board reports the following major enterprise fund:

School Food Service Fund. The School Food Service Fund is used to account for the food service program within the school system.

C. Measurement Focus and Basis of Accounting

Government-wide and Proprietary Fund Financial Statements. The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Board gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Board considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. These could include federal, State, and county grants, and some charges for services. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Board funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Board's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

All governmental and business-type activities and enterprise funds of the Board follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

D. Budgetary Data

The Board's budgets are adopted as required by the North Carolina General Statutes. Annual budgets are adopted for all funds, except for the individual schools special revenue funds, as required by the North Carolina General Statutes. No budget is required by State law for individual school funds. All appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the purpose level for all annually budgeted funds. Any revisions that alter the total expenditures of any fund or require a transfer between purpose codes within a fund must be approved by the Board of Education prior to any expenditures being made. During the year, several amendments to the original budget were necessary. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, and Fund Equity

1. Deposits and Investments

All deposits of the Board are made in board-designated official depositories and are secured as required by State law [G.S. 115C-444]. The Board may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Board may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit. The Board also has money credited in its name with the State Treasurer and may issue State warrants against these funds.

State law [G.S. 115C-443] authorizes the Board to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances; the North Carolina Capital Management Trust (NCCMT), an SEC-registered (2a-7) money market mutual fund; and the North Carolina State Treasurer's Short Term Investment Fund (STIF). The STIF is managed by the staff of the Department of State Treasurer and operated in accordance with State laws and regulations. It is not registered with the SEC. It consists of an internal portion and an external portion in which the Board participates. Investments are restricted to those enumerated in G.S. 147-69.1.

The Board's investments are reported at fair value as determined by quoted market prices. The NCCMT Cash Portfolio's securities are valued at fair value, which is the NCCMT's share price. The STIF securities are reported at cost and maintain a constant \$1 per share value. Under the authority of G.S. 147-69.3, no unrealized gains or losses of the STIF are distributed to external participants of the fund.

2. Cash and Cash Equivalents

The Board pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

3. Inventories

The inventories of the Board are valued at cost and the Board uses the first-in, first-out (FIFO) flow assumption in determining cost. The inventories of the Board's General Fund consist of expendable

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

materials and supplies which are recorded as expenditures when purchased. The General Fund inventories do not reflect current appropriable resources and, thus, an equivalent portion of fund balance is classified as nonspendable. Proprietary Fund inventories consist of food and supplies and are recorded as expenses when consumed.

4. Capital Assets

The Board's capital assets are recorded at original cost. Donated assets are listed at their estimated fair value at the date of donation or forfeiture. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets. Certain items acquired before July 1, 1990 are recorded at an estimated original historical cost. The total of these estimates is not considered large enough that any errors would be material when capital assets are considered as a whole.

For capital assets utilized in governmental activities, it is the policy of the Board to capitalize those assets costing more than \$5,000 with an estimated useful life of two or more years, while for capital assets utilized in business-type activities, it is the policy of the Board to capitalize those assets costing more than \$500 with an estimated useful life of two or more years. The cost of normal repairs and maintenance that do not add to the value of the asset or materially extend asset lives is not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	20 - 50
Equipment and furniture	3 - 10
Vehicles	6

Depreciation for assets that serve multiple purposes cannot be allocated ratably and is therefore reported as "unallocated depreciation" on the Statement of Activities.

5. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

6. Compensated Absences

The Board follows the State's policy for vacation and sick leave. Employees may accumulate up to thirty (30) days earned vacation leave with such leave being fully vested when earned. For the Board, the current portion of the accumulated vacation pay is not considered to be material. The Board's liability for accumulated earned vacation and the salary-related payments as of June 30, 2012 is recorded in the government-wide and proprietary fund financial statements on a FIFO basis. An estimate has been made based on prior years' records of the current portion of compensated absences.

The sick leave policy of the Board provides for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the Board has no obligation for accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

7. Net Assets/Fund Balances

Net Assets

Net assets in the government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through State statute.

Fund Balances

In the governmental fund financial statements, fund balance is composed of three classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable fund balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories - portion of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

Restricted fund balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State statute - portion of fund balance that is restricted by State Statute [G.S. 115C-425(a)].

Restricted for school capital outlay - portion of fund balance that can only be used for school capital outlay. [G.S. 159-18 through 22]

Restricted for instructional services – grant and other revenues restricted for expenditure for various instructional services, as allowable by the funding source.

Restricted for Individual Schools – revenue sources restricted for expenditures for the various clubs and organizations, athletic events, and various fund raising activities for which they were collected.

Assigned fund balance – portion of fund balance that the Board of Education intends to use for specific purposes.

Subsequent year's expenditures – portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted. The Board of Education approves the appropriation.

Special revenues – portion of fund balance that represents the residual amount of revenues from certain grants, reimbursements, indirect costs and other financial resources in excess of related expenditures that the Board of Education has assigned to be expended for educational services. This amount can be expended on instructional services, system-wide support services, ancillary services or non-programmed charges.

The Board of Education has a management policy for revenue spending that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-board of education funds, board of education funds. For purposes of fund balance classification, expenditures are to be spent from

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Board of Education.

8. Reconciliation of Government-wide and Fund Financial Statements

a. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental funds* and *net assets - governmental activities* as reported in the government-wide statement of net assets. The net adjustment of \$39,411,518 consists of several elements as follows:

<u>Description</u>	<u>Amount</u>
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds (total capital assets on government-wide statement in governmental activities column)	\$ 71,069,274
Less accumulated depreciation	<u>(29,415,619)</u>
Net capital assets	41,653,655
Liabilities that, because they are not due and payable in the current period, do not require current resources to pay and are therefore not recorded in the fund statements:	
Compensated absences	<u>(2,242,137)</u>
Total adjustment	<u>\$ 39,411,518</u>

b. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. There are several elements of that total adjustment of (\$1,389,716) as follows:

<u>Description</u>	<u>Amount</u>
Capital outlay expenditures recorded in the fund statements but capitalized as assets in the statement of activities	\$ 38,703
Change in fund balance due to change in reserve for inventory	40,884
Depreciation expense, the allocation of those assets over their useful lives, that is recorded on the statement of activities but not in the fund statements	(1,378,799)
Expenses reported in the statement of activities that do not require the use of current resources to pay are not recorded as expenditures in the fund statements:	
Compensated absences are accrued in the government-wide statements but not in the fund statements because they do not use current resources	<u>(90,504)</u>
Total adjustment	<u>\$ (1,389,716)</u>

NOTE 2 - DETAIL NOTES ON ALL FUNDS

A. Assets

1. Deposits

All of the Board's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the Board's agents in the unit's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Board, these deposits are considered to be held by the agent in the entity's name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the Board or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the Board under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Board has no policy regarding custodial credit risk for deposits.

At June 30, 2012, the Board had deposits with banks and savings and loans with a carrying amount of \$2,792,390 and with the State Treasurer of \$20,766. The bank balances with the financial institutions and the State Treasurer were \$2,899,794 and \$210,360, respectively. Of these balances, \$886,059 was covered by federal depository insurance and \$2,224,095 was covered by collateral held by authorized escrow agents in the name of the State Treasurer.

2. Investments

At June 30 2012, the Board had \$2,513,247 invested with the State Treasurer in the Short Term Investment Fund (STIF). The STIF is unrated and had a weighted average maturity of 1.5 years at June 30, 2012. The Board has no policy for managing interest rate risk or credit risk.

3. Accounts Receivable

Receivables at the government-wide level at June 30, 2012 are as follows:

B. Liabilities

1. Pension Plan and Other Postemployment Obligations

a. Teachers' and State Employees' Retirement System

Plan Description. Montgomery County Board of Education contributes to the statewide Teachers' and State Employees' Retirement System (TSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. TSERS provides retirement benefits to plan members and beneficiaries. Article 1 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Teachers' and State Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for TSERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

Funding Policy. Plan members are required to contribute six percent of their annual covered salary and the Board is required to contribute at an actuarially determined rate. The current rate is 7.44% of annual covered payroll. The contribution requirements of plan members and Montgomery County Board of Education are established and may be amended by the North Carolina General Assembly. The Board's contributions to TSERS for the years ended June 30, 2012, 2011, and 2010 were \$1,697,040, \$1,157,514, and \$876,232, respectively, equal to the required contributions for each year.

b. Other Postemployment Benefits

Healthcare Benefits

Plan Description. The postemployment healthcare benefits are provided through a cost-sharing multiple-employer defined benefit plan administered by the Executive Administrator and the Board of Trustees of the Comprehensive Major Medical Plan (the Plan). The Executive Administrator and the Board of Trustees of the Plan establishes premium rates except as may be established by the General Assembly in an appropriation act. The Plan's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3 of the General Statutes and may be amended only by the North Carolina General Assembly. By General Statute, the Plan accumulates contributions from employers and any earnings on those contributions in the Retiree Health Benefit Fund. These assets shall be used to provide health benefits to retired and disabled employees and their applicable beneficiaries. These contributions are irrevocable. Also by law, these assets are not subject to the claims of creditors of the employers making contributions to the Plan.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the State's Comprehensive Major Medical Plan (also, referred to as the State Health Plan). An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page <http://www.ncosc.net/> and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454.

Funding Policy. The Comprehensive Major Medical Plan is administered by the Executive Administrator and Board of Trustees of the Plan, which establish premium rates except as may be established by the General Assembly in an appropriation act. The healthcare benefits for retired and disabled employees are the same as for active employees, except that the coverage becomes secondary when former employees become eligible for Medicare. For employees first hired on and after October 1, 2006, future coverage as retired employees is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on and after October 1, 2006 with 10 but less than 20 years of retirement service credit are eligible

MONTGOMERY COUNTY BOARD OF EDUCATION
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2012

for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium. For employees hired before October 1, 2006, healthcare benefits are provided to retirees (at no charge to the retirees) who have at least five years of contributing retirement membership prior to disability or retirement. In addition, persons who became surviving spouses of retirees prior to October 1, 1986, receive the same coverage as retirees at the State's expense.

Contributions are determined as a percentage of covered monthly payroll. Annually, the monthly contribution rates to the Plan, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the General Assembly in the Appropriations Bill. For the fiscal years ended June 30, 2012, 2011, and 2010, the School Board paid all annual required contributions to the Plan for postemployment healthcare benefits of \$1,140,484, \$1,150,470, and \$1,104,494, respectively. These contributions represented 5.00%, 4.90%, and 4.50% of covered payroll, respectively.

Long-term Disability Benefits

Plan Description. Short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan. The DIPNC is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System. Long-term disability benefits are payable as another postemployment benefit from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The Plan accumulates contributions from employers and any earnings on those contributions in the Disability Income Plan Trust Fund. The plan does not provide for automatic post-retirement benefit increases.

The State of North Carolina issues a publicly available financial report that includes financial statements and required supplementary information for the DIPNC. An electronic version of this report is available by accessing the North Carolina Office of the State Controller's Internet home page <http://www.ncosc.net/> and clicking on "Financial Reports", or by calling the State Controller's Financial Reporting Section at (919) 981-5454.

Funding Policy. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in the Teachers' and State Employees' Retirement System of North Carolina, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from the Retirement System; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from the Retirement System after (1) reaching the age of 65 and completing five years of creditable service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of creditable service, at any age.

For members with five or more years of membership service as of July 31, 2007, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last

payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one twelfth of the annual longevity payment to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled. The monthly benefit shall be further reduced by the amount of any monthly payments from the Department of Veterans Affairs, any other federal agency or any payments made under the provisions of G.S.127A-108, to which the participant or beneficiary may be entitled on account of the same disability. Provided in any event, the benefits payable shall be no less than \$10 a month. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS. For members who obtain five years of membership service on or after August 1, 2007, the monthly long-term disability benefit is reduced by the primary Social Security retirement benefit to which the member might be entitled should the member become age 62 during the first 36 months. After 36 months of long-term disability, there will be no further payments from the DIPNC unless the member is approved for and is in receipt of primary Social Security disability benefits. It is payable so long as the member remains disabled and is in receipt of a primary Social Security disability benefit until eligible for an unreduced service retirement benefit. When an employee qualifies for an unreduced service retirement allowance from the Retirement System, the benefits payable from DIPNC will cease, and the employee will commence retirement under the TSERS.

The Board's contributions are established in the Appropriations Bill by the General Assembly. Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The contributions cannot be separated between the amounts that relate to other postemployment benefits and employment benefits for active employees. Those individuals who are receiving extended short-term disability benefit payments cannot be separated from the number of members currently eligible to receive disability benefits as an other postemployment benefit. For the fiscal years ended June 30, 2012, 2011, and 2010, the Board paid all annual required contributions to the DIPNC for disability benefits of \$118,610, \$122,091, and \$127,630 respectively. These contributions represented 0.52% of covered payroll for each of the three fiscal years.

4. Risk Management

The Board is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board participates in the North Carolina School Boards Trust (the Trust), a member funded risk management program administered by the North Carolina School Boards Association. Through the Trust, the Board maintains general liability and errors and omissions coverage of \$1 million per claim. The Trust has an annual aggregate limit for both general liability and errors and omissions of \$3,150,000 each. The Trust is reinsured through commercial companies for losses in excess of \$150,000 per claim for errors and omissions and general liability coverage. Statutory workers' compensation coverage is purchased through a private insurer for employees to the extent they are paid from federal and local funds. Workers' compensation coverage is provided by the State of North Carolina through a self-insured fund, to the extent employees are paid from State funds. Business property insurance is purchased through a private insurer. The policy coverage insures the tangible property assets of the Board. Buildings and contents are insured on an agreed value basis. A limit of \$5 million per occurrence is provided on flood and earthquake expense and a limit of \$1 million per occurrence is provided on business interruption and extra expense. \$1 million per occurrence is provided on increased cost of construction.

The Board also participates in the Teachers' and State Employees' Comprehensive Major Medical Plan, a self-funded risk financing pool of the State administered by Blue Cross and Blue Shield of North Carolina. Through the Plan, permanent full-time employees of the Board are eligible to receive health care benefits up to a \$5 million lifetime limit. The Board pays the full cost of coverage for employees enrolled in the Comprehensive Major Medical Plan.

In accordance with G.S. 115C-442, the Board's employees who have custody of the Board's monies at any given time are performance bonded through a commercial surety bond. The finance officer is bonded for \$50,000. The remaining employees that have access to funds are bonded under a blanket bond for \$175,000.

The Board carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year, and claims have not exceeded coverage in any of the past three fiscal years.

5. Long-Term Obligations

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance
with *Government Auditing Standards*

To the Montgomery County Board of Education
Troy, North Carolina

We have audited the basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Montgomery County Board of Education, North Carolina, as of and for the year ended June 30, 2012, which collectively comprise the Montgomery County Board of Education, North Carolina's basic financial statements and have issued our report thereon dated September 17, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Montgomery County Board of Education is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Montgomery County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Montgomery County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an

opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, members of the Board, and federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report On Compliance with Requirements Applicable to Each Major Federal
Program and Internal Control Over Compliance in Accordance with OMB
Circular A-133 and the State Single Audit Implementation Act

To the Montgomery County Board of Education
Troy, North Carolina

Compliance

We have audited Montgomery County Board of Education, North Carolina's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of the Board's major federal programs for the year ended June 30, 2012. The Montgomery County Board of Education's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of the Montgomery County Board of Education, North Carolina's management. Our responsibility is to express an opinion on the Montgomery County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the State Single Audit Implementation Act. Those standards, OMB Circular A-133, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Montgomery County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Montgomery County Board of Education's compliance with those requirements.

In our opinion, the Montgomery County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the Montgomery County Board of Education is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Montgomery County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on

the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Montgomery County Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the entity, members of the Board, and federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
