

Essential Learning Outcomes

1. What do students need to know?

Why is this beneficial for students?

- Focuses instruction on SCOS

- Framework for students' strengths/weaknesses

- Students will articulate where they are with the data

- Define what the SCOS actually is on each grade level

How does it help enhance teachers' classroom practices?

- Be more focused- know where they've been & where to go

- Define strategies to use in classroom

- Study & Use data (interpret) to plan instruction

How does leadership support & coach?

- Involved in data discussions

- Involved in classroom conversations with students

- Monitor in classrooms as to SCOS being taught on grade level

2. Use of Research-Based Best Practices

Why? Proven, Data Supported, Track Record, etc

How? Gives confidence to the teacher to know what they are using has a proven track record. It helps the teacher to be efficient and focused. Provides scenarios that a classroom teacher may be able to identify with for specific issues.

Leadership?? Collaboration-Circle of Support

- a) Student Needs- Identify
- b) Teacher Seeks-Research based
- c) Principal-IF's-Support Research Based Support
- d) CO Support-Research Based Provides

3. Providing systemic direct and timely intervention/ enrichment

Allows us to be reflective practitioners

Provides a non-threatening view of current teaching practices and helps chart the course of action

Through PLC's, Dialogue & Conversations, Resources & Coaching

Students:

Strengths / weaknesses

Involves parents-support strategies

Ownership in own progress

Teachers:

Target essential curriculum (prioritize)

Spiraling

Remediation / enrichment

Facilitates best practices conversation / collaboration

Align individual student assessment data with prediction (EVAAS)

Leadership:

Monitoring

Data Analysis-collaborative conversations

Provide resources needed

1. Beneficial Because-
 - Ideas are shared
 - Students will have the best strategies
 - All students will be able to learn due to increased strategies
2. Enhance Classroom Practice-
 - Learn to trust
 - Creates openness
 - Everyone takes ownership (No blame game)
 - Increases morale which will enhance classroom
3. Leadership support & coach
 - Monitor
 - Ensures openness and honesty
