

Budget planning and preparation are critical to the development of a budget likely to further the educational goals of the board and the State and to provide for the smooth operation of the school system.

**A. ELEMENTS OF BUDGET PLANNING**

The budget planning for the board and administration will include:

1. establishing the priorities of the school system, recognizing that providing students the opportunity to receive a sound basic education and improving student success will always be of paramount concern;
2. considering long-range facilities plans, goals, and objectives as established by the board and school system staff when assessing the needs of the school system;
3. integrating budget planning into program planning so that the budget may effectively support and implement all programs and activities of the school system;
4. seeking opportunities to communicate with the county commissioners about needs on a regular basis, especially with regard to capital outlay;
5. seeking broad participation by administrators, teachers, and other school system personnel and citizens;
6. exploring all practical and legal sources of income;
7. continually assessing the needs, revenues, and expenses of the school system; and
8. identifying the most cost-effective means of meeting the school system's needs.
