AIG Plan

The board is being asked to approve the 2016-2019 AIG plan. The plan is a three-year improvement plan that covers six standards:

- I. Student Identification
- II. Differentiated Curriculum and Instruction
- III. Personnel and Professional Development
- IV. Comprehensive Programming Within a Total School
- V. Partnerships
- VI. Program Accountability

Under each standard there are several action steps that will help strengthen the standard. Some highlights include continual enhancement of Honors portfolios at the middle and high school level, continued coaching and professional development in the area of differentiation, development of an AIG wiki to house resources and redesign of the district AIG website to include resources for parents, students and teachers.

A link to the plan can be found on the current AIG website:

<http://www.montgomery.k12.nc.us/page/445>

It is listed as 2016-2019 AIG Plan.

I will be available to answer any questions that you have.
