

The board directs the superintendent to implement a system-wide loss prevention/safety program with the goal of maintaining a safe working environment for employees and a safe learning environment for students. The program must be consistent with the requirements for school safety established in policy 1510/4200/7270, School Safety, and with applicable state and federal rules related to workplace safety and other safety issues in the school environment.

The superintendent shall establish a system-wide health and safety leadership team to oversee the school system's injury and loss prevention efforts. These efforts will include (1) accident and injury prevention and investigation; (2) hazard investigation and control; and (3) promotion of safe practices and safety awareness in the school environment. The team shall be responsible for developing processes for accident investigation and for the identification, reporting, and correction of hazards and other unsafe conditions within the school environment, as described below. The superintendent or designee shall lead the health and safety leadership team in carrying out its responsibilities.

A. ACCIDENT INVESTIGATION AND CORRECTION OF HAZARDS

The health and safety leadership team shall develop an accident investigation protocol, or improve existing protocols, for investigating all employee work-related injuries. The protocol may also address investigation of accidental injuries to students or visitors, as well as incidents of violence in the school environment.

The accident investigation protocol must include steps to identify in a timely manner the cause(s) of the accident and any underlying factors that may have contributed to it. It must also require the identification and implementation of actions to address unsafe conditions to prevent recurrence of the incident. Investigation steps may include, but are not limited to, interviews of the injured employee(s) and witnesses, examination of physical evidence, examination of the workplace, and data collection.

The protocol must provide for recording the findings of cause, recommendations for correction, and actions taken.

The health and safety leadership team shall develop additional protocols, or improve existing protocols, as necessary to investigate reports of hazards and other unsafe conditions within the school environment.

B. PREVENTATIVE MEASURES: IDENTIFICATION, EVALUATION, AND CONTROL OF HAZARDS

The health and safety leadership team shall establish or improve processes and

strategies for the identification, investigation, and control of hazards and other unsafe conditions in the school environment, including those arising from safety hazards (e.g., slippery floors, cluttered work areas, overloaded electrical outlets); chemical and biological hazards (e.g., solvents, pesticides, lab chemicals, bloodborne pathogens); other health hazards (e.g., allergens and other indoor air pollution, noise), and ergonomic risk factors (e.g., repetition, use of excessive force, awkward posture).

The processes for identification, investigation, and control may include periodic worksite inspections to identify potential or actual safety hazards; job task safety analysis; employee safety surveys; analysis of ergonomic risk factors; review of injury data, accident reports, and workers' compensation records; hazard control analysis; and/or other standard means of hazard identification and control that are consistent with the goal of improving safety in the school environment. The superintendent or designee may appoint site-based safety teams to conduct these activities at each school system site that houses employees. If site-based teams are utilized, they shall report to the health and safety leadership team on a schedule to be established by the superintendent or designee.

C. CORRECTION OF IDENTIFIED HAZARDS

The processes and strategies for improving safety in the school environment required by this policy must include a system for correcting identified hazards and must require the immediate removal of employees from an area where there is an imminent danger that cannot be immediately corrected (e.g., a chemical spill).

The system for correcting hazards must give priority to solutions that actually remove the hazard. If the hazard cannot be removed altogether, procedures that limit exposure to the hazard should be implemented when practicable. In addition, personal protective equipment may be provided to protect the individual(s) from direct exposure to a hazard that cannot be eliminated. A combination of these methods should be used if needed to address the hazardous condition.

D. REPORTING HAZARDS OR OTHER UNSAFE CONDITIONS

The health and safety leadership team shall establish or improve processes for employees and others to report hazards and other unsafe conditions to supervisory or administrative personnel without fear of reprisal.

E. DEVELOPMENT OF SAFE WORK PRACTICES

The health and safety leadership team shall assist the superintendent or designee in the development of safety standards for facilities, equipment, machinery, tools, and work practices. The standards must be consistent with all

applicable federal and state standards.

F. SAFETY EDUCATION AND TRAINING

The health and safety leadership team shall coordinate a system-wide safety education program to educate individuals in the school environment on safety practices. The program of education and training must be documented and must include instruction on workplace-related safety practices, relevant job- or activity-specific safety practices, and site-specific safety and emergency procedures. It must also include instruction on measures for reporting any unsafe conditions, work practices, or injuries.

G. RECORDKEEPING

The health and safety leadership team shall establish uniform processes for recordkeeping that comply with the requirements of federal and state law.

H. EMPLOYEE RESPONSIBILITY FOR SAFETY

All employees are expected to follow safe work practices, use appropriate personal protective equipment as instructed by their supervisors, and attend safety education programs as assigned. Employees must report unsafe conditions or work practices, accidents, or injuries as soon as practicable, in accordance with established procedures.

The board recognizes the importance of establishing a clear contractual relationship with its deputy/associate/assistant superintendents. The board, upon the recommendation of the superintendent, may choose to elect deputy/associate/assistant superintendents. Any individuals hired into these positions will be hired pursuant to an explicit written contractual agreement that meets the requirements of state law. Any such contract will be voted upon by the board in open session at a duly called meeting after the members of the board have had an opportunity to review the final written document. If the contract is approved, the open session minutes of the board will reflect that the board voted to approve the contract and will include the executed written documents as an attachment.

Any subsequent revisions to or extensions of the deputy/associate/assistant superintendent's contract, including any additional compensation, will likewise be voted upon by the board in open session at a duly called meeting of the board after the board members have had an opportunity to review the written amended document. The board recognizes that an effective staff is critical to the smooth operations of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers and other licensed professionals, excel in their performance. For the purposes of this policy, the term “school administrator” is defined as a principal, assistant principal, supervisor or director whose major function includes the supervision of teaching or any other part of the instructional program.

A. STANDARD FOR INITIAL, EXTENDED, OR RENEWED CONTRACTS

School administrator contracts will be granted, extended or renewed only for individuals of proven ability who strive for excellence. School administrators should be able to facilitate student learning, and effectively carry out the responsibilities of providing for school safety, and enforcing student discipline. The superintendent is expected to be able to substantiate any recommendation for granting a new contract, extending a current contract or renewing a contract with evaluation data, as described in-policy 7810, Evaluation of Licensed Employees, or with regard to applicants, with data from the selection process as provided in policy 7100, Recruitment and Selection of Personnel. If the board is not satisfied that an applicant or employee has met the standards established by the board, employment will be denied, following statutorily prescribed procedures and other applicable legal requirements.

B. TERM OF CONTRACT

1. Initial Contracts

Initial contracts between a school administrator and the board will be for a term of two to four years. Four-year contracts will be granted only to exemplary school administrators. Absent unusual circumstances, two-year initial contracts will be granted for individuals who do not have experience as school administrators. In addition, one-year contracts may be granted to individuals who hold a provisional assistant principal’s license.

2. Subsequent Contracts

Subsequent contracts between a principal or assistant principal and the board will be granted for a term of four years.

C. PERFORMANCE EXPECTATIONS

An employee who has a school administrator contract with the school system is expected to continue to strive for excellence, meet all performance standards established by the board, and pursue professional development as provided in policy 1610/7800, Professional and Staff Development. Any employee who is unable or unwilling to meet reasonable standards of the board may be subject to demotion or dismissal, as provided in policy 7930, Professional Employees: Demotion and Dismissal, and in accordance with statutorily prescribed procedures.

D. PROCEDURE FOR NEW, RENEWED, OR EXTENDED CONTRACTS

1. Decisions of the superintendent and board with regard to recommendations and offers and decisions not to recommend or offer new, renewed, or extended contracts will be made in accordance with G.S. 115C-287.1.
2. If the superintendent decides not to recommend that the board offer a school administrator a new, renewed or extended contract, the employee has all procedural rights accorded by G.S. 115C-287.1.
3. In considering a recommendation of the superintendent to offer a school administrator a new, renewed, or extended contract, the board may review any information that was in the employee's personnel file at the time of the superintendent's recommendation. If the board determines that it needs additional information to reach a decision, it will notify the administrator of the board's concerns and of the additional information that it is considering and provide an opportunity for the employee to respond to the additional information.

The board of education believes that it is important for employees to have leave available to attend to personal, civic and professional matters as well as to meet family commitments. This need for leave is to be balanced with the need to provide an effective instructional program for students. No employee will be discharged, demoted or otherwise subjected to adverse employment action for taking leave in accordance with board policies and administrative procedures.

All requests for leave, with or without pay, must be addressed in accordance with state and federal law, as well as policies promulgated by the State Board of Education including those specified in the most current edition of the *North Carolina Public Schools Benefits and Employment Manual*, available at <http://www.ncpublicschools.org/district-humanresources/key-information>

In addition to applicable laws and regulations, the following board policies will apply to leave requests. The superintendent is directed to develop administrative procedures and make them available to any employee upon request.

A. MINIMUM LEAVE TIME

An employee may take any type of leave increments of hours unless otherwise specified in this policy. Any ten-month employee requiring a substitute who is absent less than one-half day will be charged with the use of one-half day of leave. If an absence is more than one-half day but less than one full day, one day of leave will be charged. Leave that is designated as eligible for leave under the Family and Medical Leave Act, defined in board policy 7410, may be taken in increments of hours.

B. CONTINUOUS LEAVE OF MORE THAN TEN DAYS

An employee must comply with the notice and verification requirements as provided in policy 7520, Family and Medical Leave, for continuous leave of more than 10 days if: (1) the leave also is eligible for leave under the Family and Medical Leave Act (FMLA), defined in policy 7520, and (2) the leave is designated as FMLA-eligible at the time leave is taken or as soon as is feasible thereafter.

C. SICK LEAVE

The superintendent or designee may require a statement from a medical doctor or other acceptable proof that the employee was unable to work due to illness. Employees who anticipate using sick leave for more than a single day must

inform the principal or immediate supervisor in advance, so that arrangements may be made to reassign the employee's duties during the period of absence.

D. PERSONAL LEAVE

Teachers earn personal leave at a rate of .20 days for each full month of employment, not to exceed two days per year. Unused personal leave may be carried forward from one year to another and may be accumulated without limitation until June 30 of each year. On June 30, personal leave in excess five days shall be converted to sick leave so that a maximum of five days of personal leave is carried forward to July 1. At the time of his or her retirement, a teacher may also convert accumulated personal leave to sick leave for creditable service towards retirement.

Personal leave must be used in half or whole day units. Personal leave may be requested by application in accordance with the policies of the State Board of Education and may be used only upon the authorization of the teacher's immediate supervisor. A teacher shall not take personal leave on the first day he or she is required to report for the school year, on a required teacher workday, on days scheduled for State testing, or on the day before or the day after a holiday or scheduled vacation day, unless the request is approved by the principal. On all other days, if the request is made at least five days in advance, the request will be automatically granted subject to the availability of a substitute teacher. The teacher cannot be required to provide a reason for the request.

E. VACATION LEAVE

The superintendent or designee has the authority to approve the vacation schedules of all personnel. To promote the efficient operation of the schools, the superintendent may designate certain periods during the nonacademic year as preferred vacation periods for 12-month employees. Vacation is earned by 12-month teachers during the two months of "extended employment" will be taken only upon the authorization of the employee's immediate supervisor and in accordance with procedures established by the superintendent. Vacation earned by teachers and other 10-month employees during the 10-month school-year employment will be taken as outlined in the school-year calendar. If a teacher schedules vacation leave in accordance with the school calendar, the board and/or principal must give the teacher at least 14 calendar days notice before requiring the teacher to work on the scheduled day(s), unless the teacher waives the notice requirement.

Annual vacation leave may be accumulated without any applicable maximum until June 30 of each calendar year. On June 30, accumulated annual vacation

leave in excess of 30 days will be converted to sick leave so that only 30 workdays of annual vacation leave are carried forward.

An employee who has unused vacation from another school system in North Carolina may have the vacation time transferred to this school system.

Instructional personnel who must be replaced by a substitute may not take earned vacation on days when school is in session for students unless the employee's absence is due to the employee's own catastrophic illness and the employee has exhausted all of his or her sick leave or unless the employee qualifies as a new parent. In such instances, the employee will not be required to pay the substitute.

Within any given year, instructional personnel who do not require a substitute may be granted a maximum of five vacation days when students are in attendance. Such days may not be consecutive. Leave will not be granted for days immediately before or immediately following days when students are out of school. Leave will not be granted on mandatory staff development days. An exception to these restrictions may be made when an employee is absent due to a catastrophic illness and the employee has exhausted all of his or her sick leave.

The superintendent shall establish procedures for reviewing requests for the use of vacation leave for catastrophic illness by instructional personnel ~~and bus drivers~~.

F. CHILD-SCHOOL INVOLVEMENT LEAVE

All employees may take up to four hours of leave per year to attend or otherwise be involved in the school of a child for whom the employee is a parent, guardian or person standing in loco parentis. Employees must contact finance department prior to taking leave.

G. COMPENSATORY LEAVE

Because professional employees are expected to fulfill all job duties, compensatory leave should only apply in extraordinary circumstances.

Employees who are not exempt from the provisions of the Fair Labor Standards Act may accrue compensatory time (comp time) at a rate of one and one-half hours for every 4 one hour worked in lieu of receiving overtime pay for each hours worked beyond 40 in a given workweek. For the purposes of compliance

with the Fair Labor Standards Act, the workweek for school system employees will be from 12:00 a.m. Saturday until 11:59 p.m. Friday. Supervisors shall arrange for employees to take comp time within one pay period following the time it is earned if possible. The superintendent or designee may exempt certain employees or categories of employees from this comp time provision when deemed necessary for the proper administration of the school system.

All employees must obtain approval from his or her immediate supervisors before taking compensatory leave.

H. MILITARY LEAVE

Employees may take up to 15 workdays of paid military leave during the federal fiscal year, which runs from October 1 through September 30. Paid military leave may be used for: (1) active duty training in the Reserve Components of the U.S. Armed Forces, including the National Guard, the Army Reserve, the Naval Reserve, the Marine Corps Reserve, the Air Force Reserve and the Coast Guard Reserve; (2) required physical examinations relating to membership in a reserve component; and (3) regularly scheduled unit assemblies, also referred to as drills. For infrequent special activities in the interest of the state when authorized by the Governor or designee, members of the National Guard may be paid for up to 30 days in addition to the 15 days allowed for training.

I. LEAVE OF ABSENCE WITHOUT PAY

An employee may be granted a leave of absence without pay for the following reasons and for a period of time of up to one calendar year, renewable at the discretion of the superintendent with approval from the board:

1. military leave (see also policies 7520, Family and Medical Leave, and 7530 Military Leave);
2. personal illness in excess of sick leave;
3. family leave (see also policy 7520);
4. professional leave; and
5. other reasons at the discretion of the superintendent with the approval of the board.

An employee seeking leave is responsible for making necessary arrangements as provided in the administrative procedures. Except in the case of an Emergency, an employee who desires a leave of absence without pay shall provide at least 30 days' notice and shall submit a request in writing to the board stating the beginning and ending dates of the desired leave of absence. The employee is expected to consult with the principal or his or her immediate

supervisor. The superintendent may request documentation from the employee in support of his or her request. In determining the length of absence without pay that will be approved, with the exception of military and family leave, due and proper consideration must be given to the welfare of the students as well as the employee. The superintendent may require the employee to give notice of his or her intent to return to work at reasonable time intervals during the leave.

Once a leave of absence without pay has been requested by an employee and approved by the board, the dates are binding unless both parties agree to a change.

The board supports the practice of bringing employees back to work after a work-related injury or illness as soon as they are medically able in order to enhance the employees' recovery while minimizing the impact of work-related injuries on school system operations.

The superintendent is directed to establish a return to work program that is consistent with federal and state law, board policy, and State Board of Education requirements. The objectives of the program will be to:

1. assist employees who are recovering from a work-related temporary injury or illness to safely return to full duty without restrictions at the earliest possible time;
2. assist recovering employees who have temporary work restrictions to return to a temporary, time-limited transitional work assignment of modified or alternate duties approved by the authorized health care provider, when practicable and in the best interests of the school system to do so;
3. assist employees with permanent work restrictions to find suitable employment; and
4. maintain close communication, coordination, and cooperation between the employee, school system representatives, and others working to expedite the employee's recovery and return to work.

The superintendent shall provide specific procedures to guide all employees in carrying out the return-to-work program. All supervisory employees are expected to fully comply with the program procedures and to assist in meeting the program's objectives. Employees experiencing work-related injuries or illnesses shall fulfill all responsibilities assigned to them under the return-to-work program and shall fully comply with the applicable requirements of the North Carolina Workers Compensation Act.

If an employee refuses an approved transitional duty assignment or other suitable employment offered under this policy or under the return-to-work program required by this policy, the superintendent or designee shall direct the workers' compensation administrator to apply to terminate the employee's workers' compensation benefit payments in accordance with the North Carolina Workers' Compensation Act. In addition, the employee will be subject to disciplinary action to the extent consistent with law.

This policy and any procedures developed by the superintendent to implement this policy are not intended to, and do not, confer any additional employment rights on any employee, including any right to a transitional duty assignment, nor will they be construed as recognition by the school system that any employee who participates in the return-to-work program has a disability as defined by the Americans with Disabilities

Act of 1990, the Rehabilitation Act of 1973, or the North Carolina Persons with Disabilities Protection Act.

The superintendent shall have overall responsibility for granting or denying access to personnel records consistent with this policy.

A. RECORDS MAINTAINED

The following records must be maintained in the personnel file:

1. evaluation reports made by the administration;

2. Criminal Record Check

The superintendent shall designate which school officials have a need to know the results of the criminal history check. Only those officials so designated may obtain access to the records.

3. the employee has received a copy of the evaluation, commendation, complaint or suggestion five days before it is placed in the file.

All written complaints that are signed and dated must be submitted regardless of whether the supervisor considers the complaint to be resolved.

The supervisor is expected to use good judgment in determining when documents should be submitted to the file immediately and when a delay is justified, such as when there exists a plan of improvement that is frequently revised. However, all evaluations, commendations, complaints or suggestions for correction or improvement should be submitted by the end of the school year or in time to be considered in an evaluation process, whichever is sooner. The supervisor or principal should seek clarification from the director of human resources as necessary to comply with this policy.

The employee may offer a denial or explanation of the evaluation, commendation, complaint or suggestion, and any such denial or explanation shall become part of his or her personnel file provided that it is signed and dated.

The superintendent may exercise statutory authority not to place in an employee's file a letter of complaint that contains invalid, irrelevant, outdated or false information or a letter of complaint ~~in situations~~ when there is no documentation of an attempt to resolve the issue.

As provided in policy 7900, Resignation, if a career employee who has been recommended for dismissal under the applicable state law resigns without the written consent of the superintendent, then (1) the superintendent shall report the matter to the State Board of Education; (2) the employee shall be deemed to have consented to the placement of the written notice of the superintendent's intention to recommend dismissal in the employee's personnel file; and (3) the employee shall be deemed to have consented to the release to prospective employers, upon request, of the fact that the superintendent has reported this employee to the State Board of Education. For purposes of this provision, "career employee" means (1) a teacher or an administrator with career status, or (2) an administrator or a non-career status teacher during the term of his or her contract.

NON- CAREER STATUS TEACHERS: NONRENEWAL

Policy Code: **7950**

The board may refuse to renew the contract of any non-career status teacher for any cause it deems sufficient, so long as the cause is not arbitrary, capricious, and discriminatory or for personal or political reasons.

If the superintendent decides to recommend nonrenewal of a non-career status teacher, the superintendent shall provide written notice of the recommendation no later than June 1. The teacher may, within 10 days of receipt of the superintendent's recommendation, request written notice of the reasons for the superintendent's recommendation for nonrenewal and the information that the superintendent may share with the board to support the recommendation for nonrenewal. If a teacher files a timely request, the superintendent shall provide the requested information, and the teacher will be permitted to submit supplemental information to the superintendent and board prior to the board's decision.

A non-career status teacher has the right to petition the board for a hearing regarding the superintendent's recommendation for nonrenewal. If the teacher requests a hearing, the board chair and vice chair will confer and determine whether such a hearing will be granted. If the chair and vice chair cannot agree, a hearing will be granted. (Note: It is within the board's discretion to determine how it will decide whether to grant a discretionary hearing. This method is a suggestion, and it may be modified to incorporate the board's current practice.

In considering a recommendation of the superintendent to offer a teacher a new, renewed, or extended contract, the board may review any information that was in the teacher's personnel file at the time of the superintendent's recommendation. If the board determines that it needs additional information to reach a decision, it will notify the teacher of the board's concerns and of the additional information that it is considering and provide an opportunity for the teacher to respond to the additional information.

The board will notify the teacher if a decision is made to grant a hearing.

The board will notify the non-career status teacher whose contract will not be renewed for the next school year of its decision by June 15. If, however, a teacher is granted a hearing, the board will provide the nonrenewal notification within 10 days of the hearing or such later date upon the written consent of the superintendent and teacher.

Non-career status teachers may be demoted or dismissed during the terms of their contracts only in accordance with policy 7930, Professional Employees:

Demotion and Dismissal.

The board is committed to designing new facilities and renovating existing facilities in a manner that maximizes the use of space, conserves environmental resources and produces structurally sound and safe buildings. All school buildings should be designed to create safe, orderly and inviting learning environments where students can succeed. School buildings also will be planned to the extent feasible for maximum use by the community and for providing extended services to students.

The superintendent is responsible for overseeing the design of facilities that have been identified in the long-range facility needs plan and been approved for funding. New or renovated facilities must be designed to meet all legal requirements, including legal standards for accessibility and use of facilities by persons with disabilities. Plans also must take into consideration the facilities guidelines developed by the North Carolina Department of Public Instruction. The superintendent will utilize services of outside professionals, including architects and other consultants, in the facility design and construction. Any contract for professional services must be reviewed by the board attorney, approved by the board, and must meet any applicable board policies. (See policy 9110, Selection and Use of Architects and Engineers.) The superintendent also may involve school staff, parents and students in the design of school buildings.

Before investing any money in the construction of any new building, or when using any state money for the erection, repair, or equipping of any building, the superintendent must submit the plans to the State Board for review and comment and must review the plans based upon a consideration of the comments received.

Plans for science facilities in new middle and high schools are subject to approval by the State Board of Education in accordance with G.S. 115C-521 (cl) and State Board of Education policy.

The superintendent will report periodically to the board on the development of facility plans. The superintendent also will report on the State Board's review of facility plans conducted pursuant to G.S. 115C-521(c) and this policy and must specifically address any concerns noted by the State Board. The board will give final approval of facility plans before investing money into new buildings or renovations.

PREQUALIFICATION OF BIDDERS FOR CONSTRUCTION PROJECTS

Policy Code: 9115

A. GENERAL

1. The purpose of this prequalification process is to impartially evaluate a contractor, and to properly determine by its responsible business practices, work experience, manpower, and equipment that it is qualified to bid on a board construction project, including prime contracts awarded by construction managers pursuant to the Construction Manager at Risk ("CM at Risk") process. The award of contracts should be the result of open competition in bidding; impartiality in the selection of contractors; integrity in business practices; and skillful performance of public contracts.
2. The administration shall be responsible for prequalifying individual contractors to bid on board construction projects when the administration believes prequalification is preferred. The administration is not required to prequalify contractors for any particular project or projects. However, a contractor shall not be allowed to submit a bid on a construction project subject to prequalification, unless it has been prequalified in accordance with board policy.
3. The construction manager and the administration shall jointly develop the assessment tool and criteria for each CM at Risk project, including the prequalification scoring values and minimum requirement score. The construction manager shall use the process outlined in this policy for the prequalification of contractors on CM at Risk projects.
4. Notwithstanding the fact that a contractor was prequalified, the board, administration, and construction manager reserve the right to reject a contractor's bid if it is determined that the contractor has not submitted the lowest responsible and responsive bid. The prequalification of the contractor shall not preclude the board, administration, or construction manager from subsequently concluding that the contractor is not a responsible bidder pursuant to G.S. 143-129. The prequalification of a contract for a project shall only apply to the individual project. All construction and repair contracts shall be awarded to the lowest responsive and responsible bidder, taking into consideration quality, performance, and the time specified in the proposals for the performance of the contract.

B. APPLICATION PROCESS

1. The superintendent or designee shall designate a school official to oversee the prequalification process for each individual project ("School Prequalification Official").
2. Each prospective bidder on contracts identified for prequalification by the administration and all CM at Risk projects shall submit an application on the approved prequalification application form in order to become prequalified. The approved prequalification application form will require information to be provided on the ownership of the firm, experience of the firm's personnel, any affiliations with other construction firms, bonding capacity, financial resources, the type of work performed by the firm, and other objective criteria rationally related to the contract to be awarded.
3. The administration shall ensure that applications prepared for the projects comply with this policy and State law. The application is to be submitted by the deadline established in the notice of prequalification. The act of submitting the application does not permit the firm to submit a bid. Incomplete applications will be rejected or returned for further detail or correction in the sole discretion of the school system or construction manager.

C. APPLICATION

1. The application used by the school system or the construction manager must be approved by the School Prequalification Official and shall, at a minimum, address the following items:
 - a. **Organizational Structure** – The firm shall provide a list of all owners, officers, partners, or individuals authorized to represent or conduct business for or sign legal documents for the firm. This list must include the full legal name, typed or printed in a clear legible form. Firms experiencing changes in ownership, organizational structure, or material changes in assets must inform the school system prior to the award of a contract. Failure of the firm to comply with this requirement may result in the termination of any contract awarded by the school system or construction manager.
 - b. **Classification** – The firm shall indicate the type(s) of work the firm's workforce and equipment normally perform, licensure, and other pertinent information. The firm shall provide its MWSBE (Minority, Women, Small Business Enterprise) status.
 - c. **Experience** – The firm shall furnish information that documents the ability of the firm to undertake a project involving the type(s) of work for which prequalification is requested.

- d. Financial – Firms will be required to provide a complete current annual financial statement (current within the previous 12-month period).
- e. Litigation/Claims – Firms must provide information on its success at completing projects on time, including the payment of liquidated damages. The firm will be required to submit information regarding its litigation history, including litigation with owners.
- f. Capacity – Firms shall demonstrate sufficient bonding capacity, insurance, and resources for the project. Firms must provide relevant information on the personnel that will be directly responsible for the work, including the location of the office that will be primarily responsible for work. Firms shall also demonstrate an acceptable safety history for construction projects.
- g. Legal Authorization – All firms must show that they are legally authorized to conduct business in the State of North Carolina and have all required licensure for the work to be performed.

D. REVIEW OF APPLICATION – SCHOOL SYSTEM BID PROJECTS

- 1. Prequalification Committee – The School Prequalification Official shall establish a committee to review and score applications, including approving and denying prequalification (“Prequalification Committee”). The superintendent or designee shall not be a member of the Prequalification Committee.
- 2. Review of Applications – The school system’s Prequalification Committee shall use the school system’s objective assessment process. The prequalification criteria shall not require the firm to have previously been awarded a construction or repair project by the school system. The prequalification criteria used by the Prequalification Committee shall include prequalification scoring values and the minimum required score to be prequalified for the project. The school system’s Prequalification Committee shall approve or deny the applications in accordance with the prequalification criteria and scoring system.
- 3. Notice of Decision – The firms shall be promptly notified of the school system’s Prequalification Committee’s decision, including the reason for denial, via e-mail. Notice shall be provided prior to the opening of bids for the project and with sufficient time for the firm to appeal the denial of prequalification.

E. REVIEW OF APPLICATION – CM AT RISK PROJECTS

1. Prequalification Committee – The construction manager and the School Prequalification Official shall agree upon the members of the construction manager's Prequalification Committee. The superintendent or designee shall not be on the Prequalification Committee. The construction manager's Prequalification Committee will review prequalification applications submitted by the firms and will determine the firm's prequalification eligibility for the CM at Risk project.
2. Review of Applications – The construction manager's Prequalification Committee and the School Prequalification Official shall agree upon an objective assessment process. The construction manager and the School Prequalification Official shall develop prequalification criteria, including prequalification scoring values and the minimum required score to be prequalified for the project. The prequalification criteria shall not require the firm to have previously been awarded a construction or repair project by the construction manager or the school system. The construction manager's Prequalification Committee shall approve or deny the applications in accordance with the prequalification criteria and scoring system.
3. Notice of Decision – The firms shall be promptly notified of the construction manager's Prequalification Committee's decision, including the reason for denial, via e-mail. Notice shall be provided prior to the opening of bids for the project and with sufficient time for the firm to appeal the denial of prequalification.

F. APPEALS PROCEDURE

1. The firm may appeal from the denial of prequalification as noted below:
 - a. Written Appeal – A written appeal may be filed via hand-delivery or e-mail to the applicable Prequalification Committee within three business days of receipt of notice that the firm has been denied prequalification. The written appeal shall clearly articulate the reasons why the firm is contesting the denial and attach all documents and additional information supporting the firm's position. The Prequalification Committee may contact the firm regarding the information provided prior to ruling on the appeal. If the Prequalification Committee is satisfied that the firm should be prequalified, the firm shall be notified that it is prequalified to bid on the project and allowed to participate in the bid process. If the Prequalification Committee upholds its denial, the firm shall be promptly notified in writing via e-mail.
 - b. Hearing – The firm may appeal the Prequalification Committee's decision on the written appeal by requesting a hearing before the

superintendent or designee via hand-delivery or e-mail within three (3) business days of the receipt of the Prequalification Committee's decision. The hearing shall be held within five (5) business days. The firm shall not be allowed to submit additional information without the written consent of the superintendent or designee. The firm shall be allowed thirty (30) minutes for the hearing. In the event the superintendent or designee is unable to hold a hearing in a timely manner, he/she may designate a school official to handle the appeal.

- c. Decision – For projects bid by the school system, the decision of the superintendent or designee or designee shall be final, and the firm shall be promptly notified of the decision via e-mail. For CM at Risk projects, the superintendent or designee shall notify the construction manager of its recommended decision. The construction manager shall review the recommended decision and issue a final decision to the school system and firm. In the event the construction manager rejects a recommendation from the superintendent or designee to prequalify the firm, the construction manager shall provide a written explanation of the denial to both the superintendent or designee and the firm.
- d. General Rules for Appeals – Firms submitting applications shall be provided an e-mail address for communication with the construction manager or school system during the appeal process. The firm shall provide at least two e-mail addresses for use by the school system or construction manager in communicating with the firm. All appeals shall be completed prior to the date and time for the receipt and opening of bids.

The board strives to obtain high quality services at a reasonable price through the bidding process employed by the school system.

A. STANDARDS FOR PARTICIPATION IN CONSTRUCTION CONTRACTS

All contracts formally or informally bid will be awarded to the lowest responsible bidder, taking into consideration quality, performance, reliability and the time specified in the bids for performance of the contract. To be eligible for an award of a contract subject to G.S. 143-129, the contractor and its subcontractors, if any, must demonstrate compliance with all applicable provisions of S.S. Chapter 64, Article 2, including the responsibility to use E-Verify. Prior to bidding, contractors may be required to prequalify if the board has elected to use this process.

The board prohibits discrimination against any person or business on the basis of race, color, ethnic origin, sex, disability or religion. In addition, in accordance with G.S. 143-133.5, the board prohibits discrimination against a bidder or contractor for being party to, refusing to be party to, adhering to, or refusing to adhere to an agreement with a labor organization. The superintendent is required to conduct contracting and purchasing programs so as to prevent such discrimination.

The superintendent on behalf of the board, must certify that good faith efforts have been made to increase the participation in construction contracts by minority-owned and female-owned businesses, as required by policy 9125, Participation by Women and Minority- Owned Businesses.

The board will grant a North Carolina resident firm providing architectural, engineering, surveying, construction management at risk service, design-build services, or public-private construction services preference over a nonresident firm, if the home state of the nonresident firm has a practice of granting a preference to its resident firms over North Carolina resident firms. Any preference granted to a resident firm will be in the same manner, on the same basis and to the same extent as the preference granted by the nonresident firm's home state. The school system's bid documents will require that nonresident firms disclose and describe any construction contract preferences granted by the firm's home state.

B. BIDDING METHODS

The board may request bids for contracts for building projects using either single

prime, multiprime (separate prime), construction management at-risk, dual bidding methods, design-build, design-build bridging, and public-private partnership as permitted by law. The superintendent shall make a recommendation to the board as to the method(s) that should be used for a particular project.

If the superintendent believes the project cannot be reasonably completed under the methods authorized by G.S. 143-128, the superintendent shall so inform the board and make the recommendations to the board that it approve the use of alternative methods. Upon board approval, the superintendent shall submit to the State Building Commission a request to use an alternative contracting method along with supporting documentation.

C. FORMAL BIDDING

Construction and repair work requiring the estimated expenditure of \$500,000 or more will be advertised for bid and will be awarded through formal bidding procedures. Dividing contracts to lower the expenditure amounts so as to evade these requirements is prohibited. The board authorizes the use of newspaper advertisement, electronic advertisement, or both for formal bids; however, the superintendent has the authority to determine which method will be used for a specific purchase or categories of purchases. The superintendent shall establish formal bidding procedures consistent with this policy and applicable law and make the procedures available to all bidders or potential bidders.

D. INFORMAL BIDDING

Informal bids will be obtained for construction and repair contracts between \$30,000 and \$500,000. Quotations from contractors may be solicited by telephone or in writing. Informal bids are recommended, but not required, for construction and repair work costing less than \$30,000.

Dividing contracts to lower the expenditure amounts so as to evade the informal bidding requirements is prohibited. The superintendent shall develop informal bidding procedures consistent with this policy and applicable law and make the procedures available to all bidders and all potential bidders.

E. APPROVAL

All formally bid construction contracts must be reviewed by the board attorney

and submitted by the superintendent to the board for approval.

The superintendent shall consult with the board attorney in developing standard form contracts for informally bid construction projects. Board approval of informally bid projects is not required, unless otherwise directed by the board on specific projects.

F. RECORDS AND REPORTING REQUIREMENTS

Records of all informal or formal bids received will be maintained and will be available for public inspection. Such records should include the date the bid is received, from whom it is received, and what project it is for. The records will document why the selected contractor was the lowest responsive, responsible bidder if the contractor was not the low bidder.

The superintendent must submit required reports to the State and provide reports to the board on the progress being made towards reaching the board's goals.

G DISPUTE RESOLUTION PROCESS

The board establishes the following dispute resolution process to resolve issues arising out of construction and repair projects or contracts related to such projects. The dispute resolution process may be used by any party involved in the construction project for those disputes in which the amount in controversy is at least \$15,000.

Prior to initiating litigation concerning a dispute, parties to the dispute must do the following: (1) submit the dispute for review by the superintendent or other designated school official and the project architect, as appropriate, and (2) participate in mediation, if the matter cannot be resolved by school officials and the architect. The cost of the dispute resolution process will be divided between the parties to the dispute. If the board is a party to the dispute, the board will pay at least one-third of the cost.

The superintendent or designee shall develop and implement programs or procedures as necessary to meet, at a minimum, the following board requirements for security of facilities.

1. All school system buildings must use a security control system that will limit access to keys or other building entry devices to authorized personnel and will safeguard against unauthorized individuals gaining entry to buildings.
2. The superintendent is responsible for determining the need for and responsibilities of security personnel and will make recommendations as appropriate to the board for funding security personnel positions or contracts.
3. The superintendent must provide the Department of Public Safety's Division of Emergency Management (Division) with emergency response information it requests for the School Risk Management Plan and the School Emergency Response Plan. The superintendent must also provide the Division and local law enforcement with schematic diagrams, including digital schematic diagrams, of all school facilities and updates of the schematic diagrams when the school system makes substantial facility modifications, such as the addition of new facilities or modifications to doors or windows. Schematic diagrams must meet any standards established by the Department of Public Instruction for the preparation and content of the diagrams. In addition, The superintendent must provide local law enforcement with emergency access to key storage devices for all school buildings and with updated access to school building key storage devices when changes are made to the devices.
4. Principals will make reasonable efforts to secure buildings and other valuable property on school grounds when the school is closed or vacated.
5. Teachers will make reasonable efforts to secure their assigned classrooms or other designated space when the school is closed or vacated or when the classroom or other designated space is not in use.
6. Principals are encouraged to involve teachers, other school staff, parents, students and law enforcement in identifying the security needs of the school.
7. Principals will implement programs or make recommendations to the superintendent and board as appropriate to address the security needs of the school.

Other board policies regarding the maintenance of facilities, safety and visitors to the school also are important to maintaining the security of the school environment. All professional employees and other employees with job duties related to the security of the facilities are responsible for being familiar with these policies and carrying out duties specified by board policies or the superintendent or his or her designee.
