The board of education recognizes the value of family engagement in a child's academic success and believes that the education of children is an ongoing cooperative partnership between the home and the school. Parents and other family members are their children's first teachers; therefore, the continued involvement of parents and family members in the educational process is most important in fostering and improving educational achievement. School system officials shall strive to support parents and provide parents and family members with meaningful opportunities to become involved in the programs offered by the Title I schools. The board encourages parents and family members to participate in the design and implementation of the programs and activities in order to increase the effectiveness of the school system's Title I program in helping students meet state and local achievement standards.

A. DEFINITION OF PARENTAL AND FAMILY ENGAGEMENT

For the purposes of this policy, the term "parent and family engagement" means the participation of parents, guardians and other family members in regular, two-way and meaningful communication involving student learning and other school activities, including ensuring the following:

2. that parents and family members are encouraged to be actively involved in their child's education at school;
3. that parents are full partners in their child's education and parents and family members are included, as appropriate, in decision making and on advisory committees to assist in the education of their child; and
4. that the school system utilizes activities to support parent and family engagement in the Title I programs.

B. PURPOSE AND OPERATION OF TITLE I PROGRAM

The Title I program is a federally supported program that offers assistance to educationally and economically disadvantaged children to help ensure they receive an equitable, high-quality, well-rounded education and meet the school system's challenging academic standards. The Title I program is to provide instructional activities and supportive services to eligible students over and above those provided by the regular school program.

Qualified Title I schools shall operate as school-wide programs or targeted assistance programs based upon federal eligibility criteria. School-wide programs shall provide comprehensive support to offer improved opportunities for all students in the school to meet the school system's academic standards. Targeted assisted programs shall provide services to eligible most in need of assistance in the school, as determined by objective criteria established by the superintendent or designee. Eligibility criteria may include, for example, standardized test scores, teacher judgement, and results of preschool screening and home-school surveys.

Both school-wide and targeted assistance programs shall be based on effective means of

improving student achievement and shall include evidence based strategies to support parent and family engagement.

C. ANNUAL MEETING AND PROGRAM EVALUATION

Each year, school officials must invite parents of students participating in Title I programs to a meeting to explain, parental rights, discuss the programs and activities to be provided with Title I funds, and solicit input on the Title I program and this policy. In addition, school officials must provide parents and family members a meaningful opportunity annually to evaluate the content and effectiveness of the Title I programs and the parent and family engagement policies and plans. Information collected from these proceedings will be used to revise Title I programs and parent and family engagement plans.

The Title I staff and all school system personnel shall strive to conduct outreach to parents and family members and involve them in activities throughout the school year.

The superintendent shall ensure that this system-level parental and family engagement policy and plan is developed with, agreed upon with and annually distributed to parents and family members of participating students. In addition to the system-level parental and family engagement policy, each school participating in the Title I program shall jointly develop and annually distribute to parents and family members a school-level written parent and family engagement plan that describes the means for carrying out school-level policy, sharing responsibility for student academic achievement, building the capacity of school staff and parents and family members for involvement, and increasing accessibility for participation of all parents, including parents and family members with limited English proficiency, parents with disabilities, and parents and family members of children participating in Title I programs, including parents and family members who have limited English proficiency, who have disabilities, or who are migratory. School-level plans must involve parents in the planning and improvement of Title I activities and must provide for the distribution to parents of information on expected student achievement levels and the school's academic performance.

School officials shall invite appropriate school personnel from private schools to consult on the design and development of it programs in order to provide equitable services to students enrolled in private schools. The superintendent or designee shall establish any additional procedures necessary to achieve timely and meaningful consultation with private school officials in accordance with federal law.

In addition, school system officials and Title I school personnel shall do the following:

The board recognizes the importance of setting rigorous graduation requirements to help ensure that students are receiving an education that will prepare them to be productive members of society.

In order to graduate from high school, students must meet the following requirements:

1. successful completion of all course unit requirements mandated by the State Board of Education (see Section A);
2. successful completion of cardiopulmonary resuscitation instruction; and
3. successful completion of all other requirements mandated by the board as provided in this policy.

The principal shall ensure that students and parents are aware of all graduation requirements. Guidance program staff shall assist students in selecting their high school courses to ensure that students are taking all of the required units and selecting electives consistent with their post-graduation plans. For students who have transferred to the school system during high school, or who for other reasons have completed course work outside of the school system, the principal shall determine what course work will be applied as credit for graduation. The principal shall consider the requirements of the Interstate Compact on Educational Opportunities for Military Children (G.S. 115C-407.5) and the requirements of subsection D.3 of this policy in determining the graduation requirements for children of military families.

A. COURSE UNITS REQUIRED

All students must fulfill the course unit requirement of the Future-Ready Core Course of Study, unless they are approved for the Future-Ready Occupational Course of Study. The table in subsection A.1 lists the course unit requirements for the Future-Ready Core Course of Study applicable to students who entered ninth grade for the first time during the 2013-2014 school year or thereafter. Students who entered the ninth grade for the first time before 2013-2014 school year should consult their guidance counselor to determine applicable course unit requirements for graduation.

In accordance with policy 3101, Dual Enrollment, and State Board of Education requirements, students may earn high school credit for college courses completed. In addition, students may earn credit for certain high school courses in the Future Ready Core Course of Study completed while in middle school, as authorized by the State Board of Education. Students also have the opportunity to meet course unit requirements without completing the regular period of classroom instruction by demonstrating mastery of the course material in accordance with policy 3420, Student Promotion and Accountability, and State Board of Education requirements.

All awards of high school course credit must be consistent with State Board of Education requirements. Any inconsistency between board policy and State Board graduation requirements will be resolved by following the State Board requirements. While the board endeavors to keep its policy up to date with current state Board of Education graduation requirements, students should verify current requirements with their guidance counselors when planning course schedules or making other decisions based on graduation requirements.

Specific course work required for graduation will be waived if similar course work has been satisfactorily completed in another school system. If a waiver is not granted, school administrators shall provide the student with reasonable justification for the denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the superintendent or designee shall provide the student with an alternative means of acquiring the required coursework so that graduation may occur on time.

b. Testing Requirements for Graduation

The superintendent shall accept the following in lieu of any local testing requirements for graduation: (1) the end-of-course exams required for graduation from the sending state; (2) national norm-referenced achievement tests or (3) alternative testing. If these alternatives are not feasible for a student who has transferred in his or her senior year, subsection c below will apply.

c. Transfers During Senior Year

If a child of a military family who has transferred at the beginning or during his or her senior year is ineligible to graduate from the school system after all the alternatives listed above have been considered and the student meets the graduation requirements at his or her sending school, then school officials from the school system shall collaborate with the sending school system to ensure that the student will receive a diploma from the sending board of education.

EXTRACURRICULAR ACTIVITIES AND STUDENT ORGANIZATIONS

Policy Code: 3620

The board recognizes the value of interscholastic athletics and extracurricular activities in promoting leadership and team skills, practicing democratic principles, and encouraging the lifelong learning process. Students are encouraged to participate in opportunities available at the school, including interscholastic athletics and student organizations. All activities are open to all students enrolled in Montgomery County Schools and attending that school unless a restriction is justified and has been approved by the principal. The principal shall ensure that students and parents are notified of the various opportunities for participation in extracurricular activities. The principal shall establish any rules necessary for school- and student-initiated extracurricular activities.

A. EXTRACURRICULAR ACTIVITY REQUIREMENTS

Participation in extracurricular activities, including student organizations and interscholastic athletics, is a privilege, not a right, and may be reserved for students enrolled in Montgomery County Schools who are in good academic standing who meet behavior standards established by the board and the school. Participation in extracurricular activities may be restricted if a student (1) is not performing at grade level as provided in policy 3400, Evaluation of Student Progress; (2) has exceeded the number of absences allowed by policy 4400, Attendance; (3) has violated the student conduct standards found in the 4300 series of policies; or (4) has violated school rules for conduct. In addition, in order to be eligible for interscholastic athletics participation, the student athlete must meet all applicable eligibility standards of the North Carolina High School Athletic Association, the North Carolina Department of Public Instruction, and any locally established requirements for interscholastic athletics participation. Students in the sixth grade are [eligible to participate in all interscholastic athletics except football].

School administrators choosing to exercise the authority to restrict participation based upon any of the reasons provided in the previous paragraph shall provide this policy and any additional rules developed by the superintendent or the principal to all parents or guardians and students. The grievance procedure provided in policy 1740/4010, Student and Parent Grievance Procedure, may be utilized by parents or students who believe that a student has been aggrieved by a decision made pursuant to this policy.

B. SPECIAL CIRCUMSTANCES

1. Students with disabilities must be accorded the legal rights required by federal and state law.
2. School administrators shall facilitate the inclusion and participation of transitioning military children in extracurricular activities, to the extent they are otherwise qualified, by:

- a. providing information about extracurricular activities to transitioning military children; and
- b. waiving application deadlines.

TRANSLATING POLICIES FOR STUDENTS AND PARENTS

Policy Code:

4003

The board recognizes that there are many students and parents in the school system whose language is not English. The board further recognizes the importance of communicating the policies of the school system to all students and parents. As funds permit, to the extent practicable, and as otherwise required by law, the school system will provide translations of pertinent school system information and policies to those students and parents whose primary language is not English during non-instructional times, staff in the English Learners Services Department may assist schools in providing such translations. The superintendent may explore additional options for providing translations or interpretations of student and parent policies.

The board expects all employees to maintain the highest professional, moral, and ethical standards in their interactions with students. Employees are required to provide an atmosphere conducive to learning through consistently and fairly applied discipline and established and maintained professional boundaries. Employees are expected to motivate each student to perform to his or her capacity while modeling the behavior expected of students in staff-student relationships.

The interactions and relationships between staff and students must be based upon cooperation, mutual respect, and an understanding of the appropriate boundaries between adults and students inside and outside of the educational setting. Employees are expected to demonstrate good judgment and to avoid the appearance of impropriety in their interactions with students. Employees must consult their supervisor any time they suspect or are unsure whether conduct is inappropriate or otherwise constitutes a violation of this or other board policy.

For the purposes of this policy, the terms “staff” and “employees” include independent contractors and school safety officers, but do not include student employees.

A. ROMANTIC RELATIONSHIPS AND SEXUAL CONTACT PROHIBITED

All employees are prohibited from dating, courting or entering into a romantic relationship or having sexual contact with any student enrolled in the school system regardless of the student's age. Employees engaging in such inappropriate conduct shall be subject to disciplinary action, up to and including dismissal, and may be subject to criminal action as provided in G.S. 14-202.4 and 14-27.7. Further, school system personnel shall provide no assistance to an employee in finding another job, beyond the routine transmittal of personnel or administrative files, if the employee engaged in sexual misconduct with a minor or a student in violation of the law.

B. RESTRICTIONS ON ELECTRONIC COMMUNICATIONS

1. In accordance with policy 7335, Employee Use of Social Media, employees are prohibited from communicating with current students through non-school-controlled social media without parental permission except to the extent that the employee and student have an appropriate relationship which originated outside of the school setting. Any communication through social media authorized under policy 7335 must meet the professional standards established in this policy and must otherwise be consistent with law and all other board policy
2. Instant messages will be treated as a form of communication through social media subject to the terms of policy 7335 and subsection B.1 above, regardless of whether the messaging service is actually provided through a social media service or otherwise.
3. Employees are prohibited from engaging in other forms of one-to-one electronic communications (e.g., voice, voice mail, email, texting, and photo or video transmission) with the students without prior approval of the employee's supervisor and the student's

parent. This rule shall not apply, however, if one or more of the following circumstances exist:

- a. The communication (1) is for an educational purpose, (2) is conducted through a school system-provided platform which archives all such communications for a period of at least three years, (this requirement does not apply to telephone or voice mail communications), and (3) occurs after the employee has given prior notice to his or her supervision or designee that such communications will occur;
- b. The communication serves an educational purpose and is simultaneously copied or transmitted to the employee's supervisor or designee and, upon request, to the parent or guardian;
- c. The communication is necessary in a bona fide emergency, provided the communication is disclosed to the supervisor and parent or guardian as soon as reasonably possible; or
- d. The communication derives from a relationship or association outside of the school setting and occurs with the consent of the parent or guardian, provided such communication does not otherwise violate this or other board policy.

Any one-to-one electronic communication permitted by this subsection must meet the professional standards established in this policy and must otherwise be consistent with law and all other board policies.

4. It is the duty of every employee to notify his or her supervisor on any unsolicited one-to-one communication, in any form, electronic or otherwise, received from a student when the communication lacks a clear educational purpose. School counselors are excluded from this requirement only to the extent that it conflicts with their professional duties.
5. Violations of this section will be considered unprofessional behavior subject to discipline, up to and including dismissal. Factors that may be relevant to the determination of an appropriate disciplinary response to unauthorized communications with students include, but are not limited to:
 - a. The content, frequency, subject, and timing of the communication(s);
 - b. Whether the communication(s) was appropriate to the student's age and maturity level;
 - c. Whether the communication(s) could reasonably be viewed as a solicitation of sexual contact or the courting of a romantic relationship, including sexual grooming;
 - d. Whether there was an attempt to conceal the communication(s) from the employee's supervisor and/or the student's parent or guardian;
 - e. Whether the communication(s) created a disruption of the educational environment; and
 - f. Whether the communication(s) harmed the student in any manner.

C. REPORTING INAPPROPRIATE CONDUCT

1. Reporting by Employees

Any employee, who has reason to believe any of the following shall immediately report that information to the superintendent or designee:

- a. that another employee is involved in a romantic or other inappropriate relationship or has had sexual contact with a student;
- b. that another employee has engaged in other behavior prohibited by this policy; or
- c. that the employee has witnessed behavior by another employee that has the appearance of impropriety, whether or not the behavior may have a valid purpose.

An employee who fails to inform the superintendent or designee as provided in this section may be subject to disciplinary action, up to and including dismissal.

2. Reporting by Students

Any student who believes that he or she or another student has been subject to misconduct that violates this policy should immediately report the situation to the principal, school counselor, or the Title IX coordinator designated in policy 1720/4015/7225, Discrimination, Harassment, and Bullying Complaint Procedure.

AGE REQUIREMENTS FOR INITIAL ENTRY

Policy Code: 4100

The board of education requires all students to meet the eligibility requirements for school admission established by the state and the board, including age. Any parent or guardian who is unclear whether a child meets the age requirements is encouraged to contact the superintendent's office or the elementary school that the child is likely to attend.

A. ENTITLEMENT TO INITIAL ENTRY

A child who is presented for enrollment at any time during the first 120 days of a school year will be considered eligible for initial entry in any of the following circumstances:

1. The child reaches or reached the age of 5 on or before August 31 of that school year;
2. The child resided in another state and was attending school during that school year in accordance with that state's laws or rules prior to moving to North Carolina. (The child does not need to reach the age of 5 on or before August 31 in this circumstance.)
3. The child did not reach the age of five on or before August 31 of that school year, but would be eligible to attend school during that school year in another state in accordance with the laws or rules of that state, if all of the following apply:
 - a. the child's parent is a legal resident of North Carolina who is an active member of the uniformed services assigned to a permanent duty station in another state;
 - b. the child's parent is the sole legal custodian of the child;
 - c. the child's parent is deployed for duty away from the permanent duty station; and
 - d. the child resides with an adult who is a domiciliary of a local school administrative unit in North Carolina as a result of the parent's deployment away from the permanent duty station.

B. DISCRETIONARY ENROLLMENTS

The board may allow a child to be enrolled in either of the following circumstances:

1. The child is presented for enrollment after the first 120 days of a school year and meets one of the circumstances specified above for entitlement to initial entry;

2. The child reached the age of four (4) on or before April 16; the child is presented for enrollment no later than the end of the first month of the school year; and the principal of the school finds, based on information submitted by the child's parent or guardian, that the child is gifted and has the maturity to justify admission to school. The board regards admission of a four year old child to be an extraordinary measure that should not be used merely because the child is developmentally advanced. In making such a determination, the principal shall follow guidelines established by the State Board of Education.

C. GRADE LEVEL OF INITIAL ENTRY

The initial point of entry will be the kindergarten level. After initial entry, a principal may move the child to the first grade if the principal determines that the child may be served more appropriately in the first grade.

D. EVIDENCE OF AGE

When a child is present for admission for the first time, the principal shall require the parent or guardian of the child to furnish a certified copy of the child's birth certificate or other competent and verifiable evidence of the child's date of birth. Such evidence may include, but is not limited to: (1) a certified copy of any medical record of the child's birth issued by the treating physician or the hospital in which the child was born; or (2) a certified copy of a birth certificate issued by a church, mosque, temple or other religious institution that maintains birth records of its members.

A birth certificate or other satisfactory proof of age issued by a foreign country or institution will be accepted and treated in the same manner as comparable documents issued in the United States. School officials shall use documents only for the purpose of establishing the age of the child and not to inquire about the citizenship of the child, parent or guardian.

For a student who is in foster care or considered homeless, the inability to provide documentation will not prevent immediate enrollment of the student. School officials, or in the case of a homeless student. Homeless liaison, shall immediately contact the last school the student attended to obtain relevant enrollment records or other information needed for enrollment. These officials shall work with the student, the parent or guardian, school personnel and other agencies as necessary to obtain enrollment information in a timely manner.

The principal or designee shall, at the time of enrollment, notify the parent, guardian or person standing *in loco parentis* that the completed health assessment form is needed on or before the child's first day of attendance. The date the student's health assessment form is received will be recorded in the student's official record, and the form will be maintained on file in the school.

The assessment must include a medical history and physical examination with screening for vision and hearing and, if appropriate, testing for anemia and tuberculosis. The health assessment must be conducted no more than 12 months prior to the date of school entry.

The assessment must include a medical history and physical examination with screening for vision and hearing and, if appropriate, testing for anemia and tuberculosis. The health assessment must be conducted no more than 12 months prior to the date of school entry. Exceptions to the health assessment requirements will be made only for religious reasons.

Children who receive and fail to pass the required vision screening must obtain a comprehensive eye exam conducted by a duly licensed optometrist or ophthalmologist. The provider of the exam must present to the parent a signed transmittal form, which the parent must submit to the school. If a member of the school staff has reason to believe that a child enrolled in kindergarten through the third grade is having problems with vision, the staff member may recommend to the child's parent that the child have a comprehensive eye examination.

No child will be excluded from attending school solely for a parent's failure to obtain a comprehensive eye exam. If a parent fails or refuses to obtain a comprehensive eye exam or to provide the certification or a comprehensive eye exam, school officials shall send a written reminder to the parent of required eye exams

Upon request, the teacher(s) of a student subject to an absence from school for failure to provide the health assessment form required by this section shall provide to the student all missed assignments, and to the extent practicable, the materials distributed to students in connection with the assignments. The principal or designee shall arrange for the student to take home textbooks and school-furnished digital devices for the duration of the absence and shall permit the student to take any quarterly, semester, or grading period examinations missed during the absence period.

C. HOMELESS STUDENTS

Notwithstanding the provisions of this policy, admissions for homeless students will not be prohibited or delayed due to the student's inability to provide documentation of immunizations or health assessments. The homeless liaison shall work with the student, parent/guardian, school personnel or other agencies to obtain documentation of immunization and/or the health assessment or to arrange for such immunizations and/or assessments in a timely manner

D. FOSTER CHILDREN

Notwithstanding the provisions of this policy, admissions for students in foster care will not be prohibited or delayed due to the student's inability to provide documentation of immunizations or health assessments. The enrolling school will immediately contact the school last attended by the foster child to obtain any relevant documentation.

A student who is domiciled within the geographic area served by the school system, who is under age 21, (22 for students entitled to special education services), who has not completed the prescribed courses for high school graduation, and who otherwise qualifies for admission is entitled to be admitted without payment of tuition. Under certain circumstances specified by law, a student who resides in the area served by the school system and who otherwise qualifies for admission to its schools also is entitled to be admitted without payment of tuition. In addition, students who are homeless or in foster care may be entitled to continue attending their school of origin without payment of tuition regardless of a change in their domicile or residency status.

Children with disabilities are required to meet state domicile requirements to be entitled to admission to school without payment of tuition unless they are “grandfathered” into the system under subsection C.5 below, or unless they otherwise meet one of the circumstances that entitle them to admission without payment of tuition. (See section C, below.)

A. DOMICILE AND RESIDENCE DEFINED

Domicile requires the intent to abandon one's prior home and remain in the new location as a permanent home for an indefinite period. In contrast, a residence need not be one's exclusive home and does not require an intention that the residence be the permanent home.

B. MEETING DOMICILE REQUIREMENTS

1. Domicile of Students **Generally**

The domicile of a student under 18 years of age is presumed to be the domicile of his or her parents, legal guardian or legal custodian as defined by the General Statutes of North Carolina.

2. Domicile of Emancipated Students

If a student is at least 18 years of age or married or has been abandoned by his or her parents, or if the court declares a student to be emancipated, the student may establish a domicile independent from that of his or her parents, legal guardian or legal custodian. A student who establishes domicile as a result of being emancipated is a domiciliary of the school system and will be entitled to the same rights and privileges of other students domiciled in the school district.

3. Domicile of Students with Divorced or Separated Parents

Domicile for the purpose of school attendance will be determined by the following criteria:

- a. In the event that the parents are divorced or separated and physical custody has been given to only one parent, the **student's domicile follows that of the parent who has been granted physical custody.**
- b. If physical custody has not been determined or has been granted jointly to both parents, or if the custodial parent wishes the student to attend school in the non-custodial parent's district of residence, then **the parents must jointly agree on which residence will be used to determine the child's domicile. The selected residence must be submitted in writing to the principal**
- c. **THE SELECTION MAY NOT BE CHANGED DURING THE SCHOOL YEAR UNLESS THE PARENTS SATISFY THE BOARD'S POLICIES ON TRANSFERS AND RELEASES.**

In the event the parents cannot agree on which residence will be used to determine the child's domicile for school attendance purposes, the residence of the parent with physical custody of the child at the beginning of the school year will prevail.

C. MEETING RESIDENCE REQUIREMENTS

A student who resides in the district in any of the following circumstances will be admitted without payment of tuition.

1. The student is homeless as defined in state and federal law and policy 4125, Homeless Students. A student living with a friend or relative is not a homeless student unless he or she lives there due to conditions that constitute homelessness under state and federal statutes. A homeless student will be assigned in accordance with policy 4125, Homeless Students.
2. The parent, guardian or legal custodian residing in the school district attendance area is a student, employee or faculty member of a college or university, or is a visiting scholar at the National Humanities Center.
3. The student resides in a group home, foster home or other similar facility or institution.

4. The student resides in a pre-adoptive home following placement by a county department of social services or a licensed child-placing agency.
5. The student is considered a child with a disability by the General Statutes and the North Carolina *Policies Governing Services for Children with Disabilities*; and the child was (a) enrolled in the school system on the last day of school for the 2006-2007 school year or (b) enrolled in and attending a school in the school system on August 1, 2007, for the 2007-2008 school year, so long as the child lives within and is continuously enrolled in the system.
6. The student resides with an adult, who is a domiciliary of the school system, as a result of any of the following:
 - a. The death, serious illness, or incarceration of the child's parent or legal guardian;
 - b. The the abandonment by the child's parent or legal guardian of the complete control of the student as evidenced by the failure to provide substantial financial support and parental guidance;
 - c. Abuse or neglect by the parent or legal guardian;
 - d. The physical or mental condition of the parent or legal guardian is such that he or she cannot provide adequate care and supervision of the student;
 - e. The relinquishment of physical custody and control of the student by the student's parent or legal guardian upon the recommendation of the department of social services or the Division of Mental Health;
 - f. The loss or inhabitability of the student's home as a result of a natural disaster;
 - g. The parent or legal guardian is one of the following: (1) on active military duty and is deployed out of the local school administrative unit in which the student resides; (2) a member or veteran of the uniformed services who is severely injured and medically discharged or retired (but only for a period of one year after the medical discharge or retirement of the parent or guardian); or (3) a member of the uniformed services who has died while on active duty or as a result of injuries sustained on active duty, but only for a period of one year after the death of the parent or guardian. For purposes of this subsection, the term "active duty" does not include

periods of active duty for training for less than 30 days. Assignment under this subsection is only available if some evidence of the deployment is tendered with affidavits required under G.S. 115C-366.

In order to be admitted under this provision, the student may not be currently under a term of suspension or expulsion from a school for conduct that could have led to a suspension or an expulsion from the local school administrative unit. The adult with whom the student resides and the student's parent, guardian, or legal custodian, if available, must complete and sign separate affidavits available through the superintendent's office attesting to information required by G.S. 115C-366(a3). If it is found that a person willfully and knowingly provided false information in the affidavit, the maker of the affidavit will be guilty of a Class 1 misdemeanor and will pay to the board an amount equal to the cost of educating the student during the period of enrollment. Repayment will not include state funds.

D. STUDENTS PARTICIPATING IN THE NORTH CAROLINA ADDRESS CONFIDENTIALITY PROGRAM

In determining whether a student meets the domicile or residence requirements of this policy, school personnel shall consider the actual address of a participant in the North Carolina Address Confidentiality Program established by G.S. Chapter 15C, but such address will remain confidential in accordance with law and policy 4250/5075/7316, North Carolina Address Confidentiality Program.

DOMICILE OR RESIDENCY REQUIREMENTS

Policy Code: 4120

Updated: March 2, 2010

Updated: June 3, 2014

Updated: November 7, 2016

As required by the North Carolina Constitution and North Carolina law, the board of education is committed to providing a free public school education to all children who are legally entitled to enroll in the school system. In accordance with the McKinney-Vento Homeless Assistance Act and the North Carolina State Plan for Educating Homeless Children, the board will make reasonable efforts to identify homeless children and youth of school age located within the area served by the school system, encourage their enrollment, and eliminate barriers to their receiving an education that may exist in school system policies or practices. Based on individual need, homeless students will be provided services available to all students, such as preschool, free or reduced price school meals, services for English learners, special education, vocational/technical education, gifted and talented services, and before- and after-school care.

The provisions of this policy will supersede any and all conflicting provisions in board policies that address the areas discussed in this policy.

A. DEFINITION OF HOMELESS STUDENTS

Homeless students are children and youth who lack a fixed, regular, and adequate nighttime residence. The term “homeless student” will also be deemed to include the term “unaccompanied youth,” which includes a youth who is not in the physical custody of a parent or guardian. Homeless children and youth include those students who are as follows:

1. sharing the house of other persons due to loss of housing, economic hardship, or a similar reason;
2. living in motels, hotels, transient trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
3. living in emergency or transitional shelters;
4. abandoned in hospitals;
5. living in a primary nighttime residence that is a public or private place not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; or
7. living in a migratory situation that qualifies as homeless because the child lacks a fixed, regular, and adequate nighttime residence.

B. HOMELESS LIAISON

The superintendent or designee shall appoint and train a school employee to serve as the homeless liaison. The homeless liaison's duties include, but are not limited to, the following:

1. ensuring that school personnel identify homeless children and youth;
2. ensuring school/preschool enrollment of and opportunities for academic success for homeless children and youth;
3. ensuring that homeless families and children have access to and receive educational services for which they are eligible;
4. ensuring that homeless families and children receive referrals to healthcare, dental, mental health and substance abuse, housing, and other appropriate services;
5. informing parents or guardians and any unaccompanied youth of available transportation services and helping to coordinate such services;
6. ensuring that public notice of the educational rights of homeless students is disseminated in locations frequented by parents or guardians and unaccompanied youth;
7. informing parents or guardians of educational and related opportunities available to their children and ensuring that parents or guardians have a meaningful opportunities to participate in their children's educations;
8. helping to mediate enrollment disputes, including ensuring that a homeless child or youth is enrolled immediately pending final resolution of the dispute;
9. informing unaccompanied youth of their status as independent students and assisting in verifying such status for the purposes of the Free Application for Federal Student Aid;
10. ensuring that school personnel providing services to homeless students receive professional development and other support;
11. working with school personnel, the student, parents or guardians, and/or other agencies to obtain critical enrollment records, including immunization and medical records, in a timely manner; and
12. working with the superintendent or designee to identify board policies or procedures that might serve as a barrier to enrollment of homeless students, including those related to immunization records, medical records, uniforms or dress codes, school fees, and school admission.

C. ACCESS TO STUDENTS' RECORDS

Homeless students transferring into the school system may provide cumulative and other records directly to school system personnel. The superintendent or designee shall not require that such records be forwarded from another school system before the student may enroll. However, school personnel shall immediately request the official records from the previous school.

School personnel shall immediately enroll homeless students, even if they do not have proof of residency, school and immunization records, birth certificates, or other documents; have missed application or enrollment deadlines during a period of homelessness; have outstanding fees; or are not accompanied by an adult. The homeless liaison shall assist the students and parents or guardians in securing appropriate records or otherwise meeting enrollment requirements.

Information regarding a child or youth's homeless situation must be treated as a student record and protected accordingly. See policy 4700, Student Records.

D. ENROLLMENT

A homeless student (or the student's parent or guardian) may request to attend his or her school of origin or any public school that other students living in the same attendance area are eligible to attend. The school of origin is defined as the school the student attended before losing permanent housing or the school in which the student was last enrolled, including a preschool. When a student completes the final grade level served by the school of origin, the school of origin includes the designated receiving school at the next grade level for all feeder schools. Unless, not in the student's best interest a homeless student who continues attending the school of origin will remain enrolled in the school of origin for the entire time the student is homeless and until the end of any academic year in which the student moves into permanent housing.

The superintendent shall designate the director of student assignment or other appropriate personnel to decide, in consultation with the homeless liaison, which school a homeless student will attend. The decision will be based upon the student's best interest. The superintendent's designee must presume that keeping the student in the school of origin is in the student's best interest unless contradicted by the student's parent or guardian or the unaccompanied youth. The superintendent's designee must consider student-centered factors related to the student's best interest, including factors concerning the impact of mobility on achievement, education, health, and safety of homeless students, giving priority to the request of the student's parent or guardian or the unaccompanied youth.

If the superintendent's designee determines that it is not in the student's best interest to attend the school of origin or the school requested by the parent or guardian or unaccompanied youth, he or she must provide a written explanation of the reasons for the determination to the parent or guardian or unaccompanied youth, along with information regarding the right to appeal the placement decision.

E. ENROLLMENT DISPUTE RESOLUTION

The school system will implement an enrollment dispute resolution process that is consistent with the process required by the State Board of Education in the North Carolina Administrative Code, 16 N.C.A.C. 6H .0112.

1. Initiation of the Dispute and Stay Put

If a dispute arises over school selection or enrollment in a school for a homeless student, the following must occur:

- a. The homeless student will be immediately admitted to the school in which enrollment is sought, will receive all services for which he or she is eligible, and will be allowed to participate fully in school activities, pending resolution of the dispute.
- b. The unaccompanied youth or parent or guardian of the student will be provided a written explanation of the school's decision regarding the enrollment, including the right to appeal the decision. Such information must be provided in a language that the parent or guardian or unaccompanied youth can understand. The information must contain:
 - 1) contact information, including telephone number and address of the homeless liaison and of the State coordinator for homeless education, with a brief description of their roles;
 - 2) the right to initiate the dispute resolution process either orally or in writing;
 - 3) a simple form that parents or guardians or unaccompanied youth can complete and submit to the homeless liaison to initiate the dispute resolution process;
 - 4) a step-by-step description of how to dispute the school's decision;
 - 5) notice of the right to enroll immediately in the school of choice or remain in the school of origin with transportation provided pending resolution of the dispute;
 - 6) notice that immediate enrollment includes full participation in all school activities; and
 - 7) notice of the right to obtain assistance of advocates or attorneys.

- c. The student or parent or guardian will be referred to the system's homeless liaison, who shall carry out the appeal process as expeditiously as possible after receiving notice of the dispute.

2. Homeless Liaison Review

- a. Any parent or guardian or student initiating an enrollment dispute (hereinafter "complainant") is encouraged to attempt to resolve the dispute informally through discussion with the homeless liaison. If the dispute cannot be resolved informally, the complainant may present a formal complaint orally or in writing to the homeless liaison either directly or through the principal of the school at which enrollment is sought.
- b. The complaint should include the date of the filing, a description of the disputed enrollment action, the name of the person(s) involved, and a description of the relief requested. The complainant must be informed of the right to provide supporting written or oral documentation and to seek the assistance of an advocate or attorney.
- c. Within five school days after receiving the complaint, the homeless liaison shall provide a written decision, including the reasons for the decision, to the complainant and the superintendent.

3. Appeal to the Superintendent of the Liaison's Decision

- a. Within five school days of receiving the liaison's decision, the complainant may appeal the decision to the superintendent in writing. The homeless liaison shall ensure that the superintendent receives copies of the written complaint and the response.
- b. The superintendent or designee shall schedule a conference with the complainant to discuss the complaint.
- c. Within five school days of receiving the appeal, the superintendent or designee shall provide a written decision to the complainant including a statement of the reasons for the decision.

4. Appeal to the Board of the Superintendent's Decision

If the complainant is dissatisfied with the superintendent's decision, he or she may file a written appeal with the board of education. The board will provide the complainant with a written decision within 30 days of receiving the appeal. The board's decision will constitute the final decision of the school system. The written statement of the board's opinion will include the name and contact information of the State coordinator for homeless education and will describe the appeal rights to the State coordinator.

5. Appeal to the State Coordinator of the Board's Decision

If the complainant is dissatisfied with the action taken by the board of education, he or she may file an appeal with the State coordinator for homeless education, who will issue a final decision on the complaint. Within five school days following a request from the State coordinator, the homeless liaison shall provide the record of complaint and a copy of the board's decision along with any other information requested regarding issues in the appeal.

F. TRANSPORTATION

The board of education will provide homeless students with transportation services comparable to those of other students. In addition, at the parent or guardian's request (or at the request of the homeless liaison for unaccompanied youth), the board will provide transportation services to/from the school of origin. The superintendent or designee and the homeless liaison shall coordinate homeless students' transportation needs, based on the child's best interest. In situations in which a student attends school in this system but his or her temporary housing is in another system (or vice versa), the superintendent or designee shall work with the other system to share the cost and/or responsibility for transportation. If an agreement cannot be reached between the systems, the cost of such transportation will be divided evenly.

If a homeless student becomes permanently housed and chooses to remain in his or her school of origin, the board will provide transportation to the student for the remainder of the school year.

G. TITLE I

Homeless students are automatically eligible for Title I services. The homeless liaison and the Title I director shall collaborate to identify the needs of homeless students.

The assignment areas shall be developed in accordance with state requirements and court rulings; the need to serve all school-age children who live in the school district; and the effective use of each school facility. Assignments must be made in a non-discriminatory manner.

Such a request must be submitted in writing to the superintendent by June 1. The superintendent shall consider and make a determination based upon the best interest of the child, the orderly and efficient administration of the public schools, the proper administration of the school to which assignment is requested and the instruction, health and safety of the pupils there enrolled. A decision will be made and the parent notified by June 30. If the parent is dissatisfied with the superintendent's response, the parent may request the board to reassign the student as provided below.

2. Procedure for Requesting Reassignment After Notice of Assignment

Within 10 days of notice of the assignment or the last publication thereof, the parent may request the reassignment of the child to a different public school. The request must specify the reason why reassignment is sought. If the application for reassignment is disapproved, the board will give notice to the applicant by registered or certified mail.

Within five days of receiving the notice of the disapproval, the parent may request a hearing on the reassignment request. The board or a panel of the board will hear the appeal. If a panel hears the appeal, the panel's recommendation will be submitted to the full board for a final determination. At the hearing the board will consider and make a determination based upon the best interest of the child, the orderly and efficient administration of the public schools, the proper administration of the school to which reassignment is requested and the instruction, health and safety of the pupils there enrolled. The board will promptly render a decision, and notice of the decision will be given to the applicant by mail, telephone, telefax, email, or any other method reasonably designed to achieve notice.

D. TRANSFER OF STUDENTS DURING THE SCHOOL YEAR

1. Change of Residence

Students whose legal residence may change from one school assignment area to another within the school system during the same school year may choose to finish out that school year in the same school, or attend school in the area to which they have moved. If they elect to remain in the first school in order to complete that year, they will be assigned to the school according to the area in which they live at the beginning of the next school year. Students whose legal residence has changed but who choose to complete the school year at their first school will be responsible for their own transportation. 4. Transfer of Students in Foster Care

Students who are assigned to foster care between academic years or during an academic year will remain in their school of origin unless remaining in the school of origin is not in the best interest of the student. The best interest of the student will be decided based on all relevant factors, including consideration of the appropriateness of the educational setting and proximity to the school in which the child is enrolled at the time of placement in foster care.

5. Other Transfers

The superintendent shall consider student requests for transfer to another school during the school year based upon space availability, the needs of the child, the effect on the school to which transfer is requested, principal recommendations, and other criteria established by the superintendent.

All student records must be current and maintained with appropriate measures of security and confidentiality. The principal is responsible for complying with all legal requirements pertaining to the maintenance, review, and release of records retained at the school.

A. ANNUAL NOTIFICATION OF RIGHTS

The superintendent or designee shall provide eligible students and parents with annual notification of their rights under the Family Educational Rights and Privacy Act (FERPA). The notice must contain all information required by federal law and regulations, including the following:

1. the right to inspect and review the student's educational records and the procedure for exercising this right;
2. the right to request amendment of the student's educational records that the parent or eligible student believes to be inaccurate, misleading, or in violation of the student's privacy rights; and the procedure for exercising this right;
3. the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent;
4. the type of information designated as directory information and the right to opt out of release of directory information;
5. that the school system releases records to other institutions that have requested the information and in which the student seeks or intends to enroll;
6. the right to opt out of releasing the student's name, address, and phone number to military recruiters or institutions of higher education that request such information;
7. a specification of the criteria for determining who constitutes a school official and what constitutes a legitimate educational interest if a school official discloses or intends to disclose personally identifiable information to school officials without consent;
8. notification if the school system uses contractors, consultants, volunteers, or similar persons as school officials to perform certain school system services and functions that it would otherwise perform itself; and
9. the right to file complaints with the Family Policy Compliance Office in the U.S. Department of Education.

School officials are not required to individually notify parents or eligible students of their rights but must provide the notice in a manner reasonably likely to inform the parents and eligible students of their rights. Effective notice must be provided to parents or eligible students with disabilities or those whose primary or home language is not English.

B. DEFINITION OF PARENT AND ELIGIBLE STUDENT**1. Parent**

For purposes of this policy, the term “parent” includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or guardian. If the parents of a student are separated or divorced, both parents have the right to access the student’s records as provided in this policy, unless the school system has been provided with evidence that there is a court order, state statute, or other legally binding document that specifically revokes these rights.

2. Eligible Student

For purposes of this policy, an eligible student is a student who has reached 18 years of age or is attending an institution of postsecondary education. The rights afforded to parents under this policy transfer to an eligible student. However, parents may still have access to the records as long as the student is claimed as a dependent by the parent for federal income tax purposes. An eligible student who desires to prevent access to records by his or her parents must furnish to the principal information verifying that the student is not a dependent of his or her parents. If a parent of a student who is at least 18 and no longer attending a school within the system wishes to inspect and review the student’s records, he or she must provide information verifying that the student is a dependent for federal income tax purposes.

A student under age 18 may have access to student records only upon the consent of his or her parents.

C. CLASSIFICATION AND MAINTENANCE OF RECORDS

Information about students that is collected and stored by school personnel may be separated into several categories, including, but not limited to, the following records.

1. Cumulative Records

The cumulative record is the official record for each student. The cumulative record includes student identification information, such as the student’s name, address, (or a homeless student’s living situation) sex, race, birthplace, and birth date; family data including the parents’ names, addresses, work and home telephone numbers, and places of employment; academic work completed; grades; standardized test scores; health screenings and immunization documentation; attendance records; withdrawal and reentry records; discipline records; honors and activities; class rank; date of graduation; and follow-up records.

2. Discipline Records

Student discipline records are part of the student’s official record and must be maintained and reviewed pursuant to policy 4345, Student Discipline Records. Discipline records must be expunged and forwarded pursuant to the requirements of law and the procedures of policy 4345.

3. Records of Students with Disabilities

Students with recognized disabilities must be accorded all rights in regard to their records as provided by state and federal law, including the Individuals with Disabilities Education Act and policy 3520, Special Education Programs/Rights of Students with Disabilities. Records for a student identified as a student with a disability are considered part of the student's official records and must be maintained in accordance with all appropriate federal and state regulations. Access to these records will be restricted to personnel having specific responsibility in this area. A list of all approved personnel having access to these restricted files will be updated as needed, and a current, dated list will be posted in the student records location.

4. Records Received from the Department of Social Services

The Department of Social Services may disclose confidential information to the school system in order to protect a juvenile from abuse or neglect. Any confidential information disclosed under these circumstances must remain confidential and may only be redisclosed for purposes directly connected with carrying out the school system's mandated educational responsibilities.

5. Juvenile Records

Juvenile records include documentation or information regarding students who are under the jurisdiction of the juvenile court. These records may be received from local law enforcement and/or other local agencies authorized to share information concerning juveniles in accordance with G.S. 7B-3100. These records also may include notice from the sheriff to the board that a student has been required to register with the sheriff because the student has been found to be a danger to the community under G.S. Chapter 14, Part 4. Such documents must not be a part of a student's official records but must be maintained by the principal in a safe, locked storage area that is separate from the student's other records. The principal shall not make a copy of such documents under any circumstances.

Juvenile records will be used only to protect the safety of or to improve the educational opportunities for the student or others. The principal may share juvenile records with individuals who have (a) direct guidance, teaching, or supervisory responsibility for the student and (b) a specific need to know in order to protect the safety of the student and others. Persons provided access to juvenile records must indicate in writing that they have read the document(s) and agree to maintain confidentiality of the records.

The principal or designee must destroy juvenile documents if he or she receives notification that a court no longer has jurisdiction over the student or if the court grants the student's petition for expunction of the records. The principal or designee shall destroy all other information received from an examination of juvenile records when he or she finds that the information is no longer needed to protect the safety of or to improve the educational opportunities for the student or others. If the student graduates, withdraws from school, transfers to another school, is suspended for the remainder of the school year, or is expelled, the principal shall return all documents not destroyed to the juvenile court counselor. If the student is transferring, the principal shall provide the juvenile court counselor with the name and address of the school to which the student is transferring.

6. Other Student Records

School system personnel may also keep other student records but must review such records annually and destroy them when their usefulness is no longer apparent or when the student leaves the school system.

7. Sole Possession, Employment, and Law Enforcement Records

Student records do not include, and release of information under this policy does not apply to:

- a. records made by teachers, counselors, and administrators that are in the sole possession of the maker thereof and that are not accessible or revealed to any other person except a substitute;
- b. employment records of student employees if those records relate exclusively to the student in his or her capacity as an employee and are not made available for any other use; and
- c. records created by a law enforcement unit of the school system if created for a law enforcement purpose and maintained solely by the law enforcement unit of the school system. This does not include information obtained from the student's confidential file or other educational records that is contained in a law enforcement record.

D. RECORDS OF STUDENTS PARTICIPATING IN THE NORTH CAROLINA ADDRESS CONFIDENTIALITY PROGRAM

Records of students participating in the North Carolina Address Confidentiality Program must show only the substitute address provided by the Address Confidentiality Program and must not be released to any third party other than a school to which the student is transferring, or as otherwise provided by law.

When transferring the record of a student participating in the North Carolina Address Confidentiality Program to a school outside of the system, the transferring school may send the files to the Address Confidentiality Program participant (parent or guardian) via the substitute address provided by the Address Confidentiality Program.

E. RECORDS OF MISSING CHILDREN

Upon notification by a law enforcement agency or the North Carolina Center for Missing Persons of the disappearance of a child who is currently or was previously enrolled in the school, school officials shall flag the record of that child. If the missing child's record is requested by another school system, the principal shall provide notice of the request to the superintendent and the agency that notified the school that the child was missing. The principal shall provide the agency with a copy of any written request for information concerning the missing child's record.

Any information received indicating that a student transferring into the system is a missing child must be reported promptly to the superintendent and the North Carolina Center for Missing Persons.

F. RECORDS OF MILITARY CHILDREN

School administrators shall comply with any regulations pertaining to the records of military children developed by the Interstate Commission on Educational Opportunity for Military Children.

In addition, children of military families, as defined by policy 4050, Children of Military Families, are entitled to the following.

1. For Students Leaving the School System

In the event that official education records cannot be released to the parents of military children who are transferring away from the school system, the custodian of records shall prepare and furnish to the parent a complete set of unofficial education records containing uniform information as determined by the Interstate Commission.

When a request for a student's official record is received from the student's new school, school officials shall process and furnish the official records to the student's new school within 10 days or within such time as is reasonably determined by the Interstate Commission.

2. For Students Enrolling in the School System

Upon receiving an unofficial education record from the student's previous school, school administrators shall enroll the student and place him or her in classes as quickly as possible based on the information in the unofficial records, pending validation by the official records.

Simultaneous with the enrollment and conditional placement of the student, school administrators shall request the student's official record from his or her previous school.

G. REVIEW, RELEASE OF RECORDS TO PARENT OR ELIGIBLE STUDENT

A parent or eligible student may access the student's records upon proper request. The principal or guidance office personnel of the student's school shall schedule an appointment as soon as possible but no later than 45 days after the request by the parent or eligible student. The parent or eligible student may formally review the student's complete records only in the presence of the principal or a designee competent to explain the records. School personnel shall not destroy any educational records if there is an outstanding request to inspect or review the records.

A parent or eligible student has the right to challenge an item in the student record believed to be inaccurate, misleading, or otherwise in violation of the student's privacy rights. The principal shall examine a request to amend a student record item and respond in writing to the person who challenges the item. Subsequent steps, if necessary, will follow the student grievance procedures as provided in policy 1740/4010, Student and Parent Grievance Procedure. If the final decision is that the information in the record is not inaccurate, misleading, or otherwise in violation of the privacy rights of the student, the principal shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he or she disagrees with the decision of the school system.

H. RELEASE OR DISCLOSURE OF RECORDS TO OTHERS

Before releasing or disclosing records as permitted by law, school officials shall use reasonable methods to identify and authenticate the identity of the party to whom the records are disclosed.

1. Release/Disclosure with Parental Consent

School officials shall obtain written permission from a parent or eligible student before releasing or disclosing student records that contain personally identifiable information, except in circumstances where the school system is authorized by law to release the records without such permission. The written permission must specify the records to be released, the purpose of the release, and the party(ies) to whom they are to be released.

2. Release/Disclosure without Parental Consent

School system officials shall promptly release student records when a student transfers to another school. The records custodian may release or disclose records with personally identifiable information without parental permission to the extent permitted by law, including to other school officials who have a legitimate educational interest in the records.

When personally identifiable information from a student's record is released or disclosed without prior written consent of the parent or eligible student, the party to whom the information is released must agree not to disclose the information to any other party without the prior consent of the parent or eligible student. This restriction does not apply to the release of directory information, release of information to parents of non-eligible students, release of information to parents of dependent students, or release of information in accordance with a court order or subpoena.

The superintendent shall employ reasonable methods to ensure that teachers and other school officials obtain access only to those educational records in which they have legitimate educational interests.

3. Release of Directory Information

Permission of the parent or eligible student is not required for the release of information that is designated as directory information by the board, provided that the parent or eligible student has been given proper notice and an opportunity to opt out. (See policy 1310/4002, Parental Involvement.)

a. The board designates the following student record information as directory information:

- (1) name;
- (2) address;
- (3) telephone listing;
- (4) electronic mail address;

-
-
- (5) photograph;
 - (6) date and place of birth;
 - (7) participation in officially recognized activities and sports;
 - (8) weight and height of members of athletic teams;
 - (9) dates of attendance;
 - (10) grade level;
 - (11) diplomas (including endorsements earned), industry credentials/certifications, and awards received; and
 - (12) most recent previous school or education institution attended by the student.
- b. The telephone number and actual address of a student who is or whose parent is a participant in the North Carolina Address Confidentiality Program is not considered directory information and will not be released.
 - c. Information about a homeless student's living situation is not considered directory information and will not be released.
 - d. As required by law, the names, addresses, and telephone numbers of secondary school students shall be released, upon request, to military recruiters or institutions of higher learning, whether or not such information is designated directory information by the school system. Students or their parents, however, may request that the student's name, address, and telephone number not be released without prior written parental consent. School officials shall notify parents of the option to make a request and shall comply with any requests made.
 - e. All requests for directory information must be submitted to the superintendent or designee for approval. The superintendent is directed to establish regulations regarding the release of directory information. At a minimum, the regulations must:
 - (1) specify the types of organizations that are eligible to receive directory information and for what purposes;
 - (2) provide for equal disclosure to organizations that are similar in purpose; and
 - (3) authorize access to directory information to recruiters of military forces of the state or United States for the purpose of informing students of educational and career opportunities available in the military to the same extent that such information is made available to persons or organizations that inform students of occupational or educational options.

4. Records of Students with Disabilities

Students with recognized disabilities must be accorded all rights in regard to their records as provided by state and federal law, including the Individuals with Disabilities Education Act.

5. Disclosure of De-Identified Information

Education records may be released without consent of the parent or eligible student if all personally identifiable information has been removed. Personally identifiable information includes both direct and indirect identifiers that, alone or in combination, would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty.

Unless specifically permitted by law, records that have been de-identified must not be released without the consent of the parent or eligible student if school officials reasonably believe that the person requesting the information knows the identity of the student to whom the education record relates.

I. WITHHOLDING RECORDS

School system administrators shall not withhold records upon a valid request by a parent, eligible student, or school to which the student is transferring for any reason, including in order to collect fines assessed to the parent or student.

J. RECORD OF ACCESS AND DISCLOSURE

The principal or designee shall maintain a record in each student's file indicating all persons who have requested or received personally identifiable information from a student's record and the legitimate reason(s) for requesting or obtaining the information. This requirement does not apply to requests by or disclosure to parents, eligible students, school officials, parties seeking directory information, a party seeking or receiving the records under a court order or subpoena that prohibits disclosure, or those individuals with written parental consent.

K. DESTRUCTION OF STUDENT RECORDS

School officials shall only destroy student records in accordance with state and federal law and the *Records Retention and Disposition Schedule for Local Education Agencies*. After notifying parents, school officials may destroy student records when the records are no longer needed to provide educational services to the student or to protect the safety of the student or others. School officials must destroy student records if the parent or eligible student requests their destruction and if such records are no longer needed to provide educational services to the student or to protect the safety of the student or others. School officials shall not destroy student records if there is an outstanding request to inspect the particular records.

L. LONGITUDINAL DATA SYSTEM

School system administrators will comply with the data requirements and implementation schedule for the North Carolina Longitudinal Data System (NCLDS) and will transfer designated student record data to the system in accordance with the NCLDS data security and safeguarding plan and

all other requirements of state law, provided that doing so does not conflict with the requirements of FERPA.

In addition, sex offenders subject to G.S. 14-208.18 may not attend or be present at any student function or field trip on or off school property that is (1) school-sponsored or (2) otherwise under the official supervision or control of school personnel. This policy applies to all covered sex offenders regardless of their relationship to or affiliation with a student in the school system. (Refer to the North Carolina Attorney General's publication *The North Carolina Sex Offender & Public Protection Registration Program*, p.13, for a description of which offenders are subject to G.S. 14-208.18 and thus, this policy.)

B. ENFORCEMENT

All school personnel must immediately report to a school administrator the presence or suspected presence of a known or suspected registered sex offender on school property. School administrators and other supervisory personnel shall report to the superintendent and law enforcement when they reasonably believe that a registered sex offender is or has been on school property or at a school event.

School administrators also shall notify the superintendent or designee of any known student or parent or guardian of a student at their school who is suspected to be a registered sex offender.

C. EXCEPTIONS

A person who is banned from school property under G.S. 14-208.18 may be on school property only under the following circumstances.

3. The board encourages lateral entry into the teaching profession by skilled individuals from the private sector who meet state licensing requirements.

B. EXCEPTIONS TO LICENSURE REQUIREMENTS

1. Emergency Permit to Practice

In extenuating circumstances when no other appropriately licensed professionals or persons who are eligible for a lateral entry license are available to fill a position, the board may employ for up to one year an individual who holds an emergency permit to practice issued by the State Board of Education. An emergency permit is not renewable.

2. Adjunct CTE Instructors

An unlicensed individual who meets the adjunct hiring criteria established by the State Board of Education for a specific career and technical education (CTE) career cluster may be employed as an adjunct CTE instructor for up to 10 hours per week, provided the individual first completes preservice training and meets all other statutory requirements for serving as an adjunct instructor established by G.S. 115C-157.1.

C. BEGINNING TEACHER SUPPORT PROGRAM

The superintendent or designee shall develop a plan and a comprehensive program for beginning teacher support. The plan must be approved by the board and kept on file for

review. The superintendent or designee shall submit an annual report on the Beginning Teacher Support Program to the Department of Public Instruction (DPI) by October 1 of each year. The report must include evidence of demonstrated proficiency on the Beginning Teachers Support Program Standards and evidence of mentor success in meeting Mentor Standards. The school system will also participate in implementing a regionally-based annual peer review and support system.

Teachers with fewer than three years of teaching experience will be required to participate in the Beginning Teacher Support Program.

D. LICENSE CONVERSION

Teachers must teach three years and meet all other requirements of the State Board of Education in order to move from an initial to a continuing license. Licensing is a state decision and cannot be appealed at the local level. The superintendent or designee shall ensure that teachers not qualifying for continuing licensure are informed of the process for appealing the state decision.

E. LICENSE RENEWAL

Licensure renewal is the responsibility of the individual, not of the school system. Any employee who allows a license to expire must have it reinstated prior to the beginning of the next school year. A teacher whose license has expired is subject to dismissal.

The school system may offer courses, workshops, and independent study activities to help school personnel meet license renewal requirements. Any renewal activity offered must be consistent with State Board of Education policy. In addition, the superintendent or designee shall develop a procedure to determine the appropriateness of any credit offered in advance of renewal activities.

Decisions regarding the employment of teachers who fail to meet the required proficiency standard for renewal of a continuing license will be made in accordance with state law G.S. 115C-296(b)(1)b.4 and applicable State Board of Education requirements.

F. PARENTAL NOTIFICATION

At the beginning of each school year, the school system will notify the parents or guardians of each student attending a Title I school or participating in a Title I program of their right to request the following information about qualifications of their child's teacher: whether the teacher has met NC licensing requirements for the subject or grade level they are teaching; whether the teacher has had any licensure requirements waived; whether the teacher is teaching in the field of his or her certification; and whether the child is provided services by a paraprofessional, and if so, the paraprofessional's qualifications.

The school system will give notice within 10 school days to the parents of children who, after four consecutive weeks, have been taught a core academic subject by a teacher who

is not highly qualified.

G. EQUITABLE DISTRIBUTION OF TEACHERS

The superintendent shall assess whether low-income, minority, learning disabled, and/or English learners are being taught by inexperienced, ineffective, or out-of-field teachers at higher rates than students who do not fall into these categories and shall develop a plan to address any such disparities. If DPI does not require such a plan of the LEA, the superintendent is not required to develop a plan under this subsection unless he or she determines that one is needed to address inequities within the school system.

DRUG AND ALCOHOL TESTING OF COMMERCIAL MOTOR VEHICLE OPERATORS

Policy Code: 7241

The purposes of this policy are to help ensure the safe operation of school vehicles and to comply with federal law and regulations by establishing a comprehensive program ~~of~~ for drug and alcohol testing of school bus drivers and all other commercial motor vehicle operators employed by the board of education.

A. APPLICABILITY

This policy applies to any driver which, for purposes of this policy, is defined as any employee, volunteer or independent contractor who operates a commercial motor vehicle in the course of his or her duties for the board of education, including anyone who regularly or intermittently drives a school bus, an activity bus, or vehicle that meets the definition of commercial motor vehicle under federal law or regulation. Employees who operate vehicles for inspection, service, or maintenance purposes are included in this definition.

B. PROHIBITED ACTS

No driver may:

1. operate any school bus or school activity bus while consuming alcohol or while alcohol remains in the driver's body, in violation of G.S. 20-138.2B;
2. use alcohol while performing safety-sensitive functions;
3. perform safety-sensitive functions within four hours after using alcohol;
4. report for or remain on duty requiring the performance of safety-sensitive functions when the driver uses any Schedule I drug or substance; or
5. report for or remain on duty requiring the performance of safety-sensitive functions when the driver uses any non-Schedule I drug or substance, unless such use is pursuant to the instructions of a licensed medical practitioner who is familiar with the driver's medical history and has advised the driver that use of the substance will not adversely affect the driver's ability to safely operate a commercial motor vehicle.

Safety-sensitive functions include, but are not limited to, inspecting, servicing, or conditioning any commercial motor vehicle; operating any commercial motor vehicle; participating in or supervising the loading or unloading of a commercial motor vehicle; and repairing, obtaining assistance for, or remaining in attendance upon a disabled vehicle.

In addition, drivers and anyone who supervises drivers must not commit any act prohibited by federal law, including “Controlled Substances and Alcohol Use and Testing” (49 C.F.R. pt. 382) (hereinafter referred to as Part 382), or by policy 7240, Drug-Free and Alcohol-Free Workplace

C. TESTING

The transportation department will carry out pre-employment, post-accident, random, reasonable suspicion, return-to-duty and follow-up testing for drugs and alcohol as required by Part 382.

Federal regulations prohibit a driver who is tested under the provisions of this section and found to have an alcohol concentration of at least .02 from performing safety-sensitive functions for at least 24 hours following administration of the test. Drivers who are tested under the provisions of this section and found to have any alcohol in their system are subject to additional discipline under this policy, including dismissal.

D. PRE-EMPLOYMENT INQUIRY

All applicants who would be subject to this policy if employed by the board must consent in writing to the release of any information gathered pursuant to Part 382 by any of the applicant’s previous employers.

Before employing any applicant subject to this policy or Part 382, the administration shall obtain, pursuant to the applicant’s written consent, all records maintained by the applicant’s previous employer of prohibited acts committed by the applicant in the two years prior to the inquiry date.

E. TRAINING AND EDUCATION

Each driver and supervisory employee, including principals and assistant principals, must be provided with educational materials that inform the employees of drug testing procedures, prohibited acts, consequences and other aspects of Part 382, this policy and any accompanying administrative procedures. The information also will identify a school

district employee who is responsible for providing information on substance abuse. Each employee must sign a statement certifying his or her receipt of these materials.

Each supervisor who is responsible for overseeing the performance of drivers, including principals and assistant principals, must undergo at least one hour of training concerning alcohol misuse and one additional hour of training concerning drug abuse.

F. REFERRALS

Each driver who commits acts prohibited by Part 382 or G.S. 20-138.2B, other than provisions governing pre-employment testing, will be provided with information concerning resources available for evaluating and resolving drug or alcohol misuse. This information will include the names, addresses and telephone numbers of substance abuse professionals and counseling and treatment programs. Before any driver who has committed a prohibited act under Part 382 or G.S. 20-138.2B will be allowed to drive again, he or she must be evaluated by a substance abuse professional and must satisfactorily complete any appropriate treatment that the substance abuse professional designates.

G. PENALTIES

Employees who have committed a prohibited act, refused any test required by this policy or otherwise violated this policy, G.S. 20-138.2B or Part 382, will be subject to disciplinary action, up to and including dismissal.

H. PROCEDURES

All procedures for collection and testing provided in the Federal Highway Administration's "Procedures for Transportation Workplace Drug and Alcohol Testing Programs" (49 C.F.R. pt. 40) and all requirements in Part 382, including testing, reporting, record retention, training and confidentiality, will be followed. Copies of these federal regulations will be readily available. The superintendent shall develop any other procedures necessary to carry out these regulations.

A. GENERAL EMPLOYMENT OF SUBSTITUTES

The school system shall employ substitute teachers as deemed appropriate by the administration and in accordance with State Board policies. Effective August 1, 2009 substitutes, including those who are currently employed as substitutes, in Montgomery County Schools will be required to take Effective Teacher Training. Effective Teacher Training will be offered by Montgomery County Schools. All substitutes must be twenty-one years of age and have a high school diploma or equivalent degree.

The director of human resources may waive the requirement for retired and former teachers and teacher assistants by giving them credit for previous classroom experience.

A criminal history check will be conducted on applicants for substitute teaching positions in accordance with board policy 7100, Recruitment and Selection of Personnel, and administrative procedures.

B. TEACHER ASSISTANTS AS SUBSTITUTES

A teacher assistant may serve as a substitute teacher in the classroom(s) in which the assistant is regularly assigned and will be paid additional compensation according to state policies.

C. PARENTAL NOTIFICATION

In accordance with policy 1320/3560, Title I Parental and Family Engagement, school principals shall notify the parent of any child who receives instruction for four or more consecutive weeks from a substitute teacher who does not meet the certification and licensure standards for the grade level and subject area to which the substitute teacher has been assigned.

The board recognizes that an effective staff is critical to the smooth operation of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers, and other licensed professionals, excel in their performance. It is the intent of the board to employ only those licensed employees who continuously exhibit a pattern of behavior that exemplifies excellent performance.

The board places a high priority on securing the most competent personnel available and, once they are employed, in assisting them in their professional growth and development throughout their careers. An effective evaluation program that clearly describes an employee's performance is a critical aspect of professional growth and assistance. Further, performance evaluation data is an important factor for consideration in decisions regarding continued employment. The superintendent must be able to substantiate any recommendation for continued employment with evaluation data, among other factors.

The superintendent is directed to develop and implement an effective evaluation system for licensed personnel that is consistent with State Board of Education policies. School administrators who are responsible for conducting evaluations shall comply with all state requirements with regard to the type and frequency of evaluation, including as applicable, the processes for evaluating licensed employees in schools designated as low performing. The principal shall evaluate teachers and may incorporate any guidelines or strategies developed by the State Board to assist in the evaluations. The principal shall provide teachers' access to EVAAS data as required by law and shall notify teachers at least annually when the data is updated to reflect teacher performance from the previous school year. The superintendent or designee shall evaluate principals and assistant principals.

All licensed personnel must be evaluated at least annually using state-approved evaluation instruments in conformance with the processes established by the State Board in the North Carolina Educator Evaluation System for that class of personnel. Teachers with fewer than three consecutive years of experience will be evaluated annually in accordance with state law and the comprehensive evaluation cycle established in State Board Policy TCP-C-004. For teachers with three or more years of experience, the abbreviated evaluation process established in State Board Policy TCP-C-004 satisfies the annual evaluation requirement; however, a teacher receiving an abbreviated evaluation may request that the evaluator conduct a formal observation. In addition, in any given year, the principal may elect to use the comprehensive or standard evaluation processes set forth in State Board Policy TCP-C-004 or require additional formal or informal observations to evaluate a teacher with three or more years of experience. The principal also may supplement the State Board evaluation processes for other categories of licensed personnel by requiring additional observations or other evaluation measures. The annual evaluation of principals and assistant principals must include a mid-year review.

The evaluation system must incorporate the following directives.

1. Evaluators must clearly identify exemplary performance as well as deficiencies in performance.
2. Evaluators are encouraged to use supplementary means of assessing and documenting performance in addition to the state performance standards, assessment rubrics, and evaluation instruments, including, but not limited to, additional formal observations, informal observations, conferences, reviews of lesson plans and grade books, interactions with the employee, plans of growth or improvement, and any other accurate indicators of performance.
3. Student performance and growth data will be considered as a part of the evaluation of licensed personnel, as provided in the assessment rubric for the class of employees under evaluation. For teachers, such data shall include analysis of student work for performance-based courses and student performance as measured by the statewide growth model for educator effectiveness or as otherwise authorized by the State Board of Education and approved by the local board. Multiple means of assessing student performance must be used whenever possible. If only one method is used to measure student performance, it must be a clearly valid tool for evaluating an employee's impact on student performance.
4. Peer observations of teachers with fewer than three consecutive years of experience must be conducted as required by law using the evaluation instrument and process established by the State Board and must be considered by the school administrator in evaluating teacher performance.
5. Supervisors and principals should facilitate open communication with employees about performance expectations.
6. An employee who is unclear about how performance is being assessed or who desires additional evaluation opportunities should address these issues with his or her immediate supervisor.
7. Evaluators will be held accountable for following the evaluation system and all applicable state guidelines on the evaluation of employees.
8. Evaluation data will be submitted to the central office personnel file in accordance with state law and policy 7820, Personnel Files.
9. Evaluation data will be used in making employment decisions, including decisions related to professional and staff development (see policy 1610/7800, Professional and Staff Development) and suspension, demotion, and dismissal of employees (see policy 7930, Professional Employees: Demotion and Dismissal and policy 7940, Classified Personnel: Suspension and Dismissal). Employment decisions may be made by the board and administrators regardless of whether evaluators have followed the evaluation system, so long as there is a legally sufficient basis for the decisions.
10. The superintendent and all evaluators are encouraged to develop ways to recognize

distinguished performance and to capitalize on the abilities of such exemplary employees in helping other employees. The superintendent and evaluators are encouraged to involve employees in developing these processes.

The superintendent shall develop any other necessary procedures and shall provide training, as necessary, to carry out the board's directives and to meet state requirements.

PLANS FOR GROWTH AND IMPROVEMENT OF LICENSED EMPLOYEES

Policy Code: 7811

The board expects all professionally licensed employees to maintain high levels of performance. If an employee does not meet this standard, the superintendent and administrative staff shall address any identified performance or other deficiencies through appropriate means, including placing the employee on a monitored growth, directed growth, or mandatory improvement plan when required by state law, State Board policy, or this policy, or when otherwise deemed necessary.

Growth and mandatory improvement plans as defined by law and this policy are valuable tools to promote the professional development of licensed employees. The board recognizes, however, that not all conduct and performance issues require the development of a plan. Administrators and supervisory personnel are authorized to address inappropriate conduct and/or inadequate performance using such other lawful means as they may deem appropriate. This policy should not be interpreted to limit in any way the authority of administrators or other supervisory personnel to direct and reprimand licensed employees for inappropriate conduct or inadequate performance.

Further, the superintendent may move to recommend nonrenewal, dismissal, or demotion of a licensed employee whether or not the employee has been first placed on a growth or other improvement plan. (See policies 7930, Professional Employees: Demotion and Dismissal, and 7950, Non-Career Status Teachers: Nonrenewal.)

The superintendent shall require administrative staff to implement the requirements of this policy in accordance with state law and State Board guidelines.

A. DEFINITIONS

1. As used in this policy, “teacher” means an individual defined as a teacher in G.S. 115C-325(a)(6) (for career status teachers) or G.S. 115C-325.1(6) (for non-career status teachers).
2. As used in this policy, “licensed employee(s)” includes principals, assistant principals, and other school administrators as defined in G.S. 115C-325.1(5), and teachers.
3. “The North Carolina Educator Evaluation System” refers to the professional standards, processes, and rubrics approved by the State Board of Education for each educator role in North Carolina public schools.

B. INDIVIDUAL, MONITORED, AND DIRECTED GROWTH PLANS FOR TEACHERS

1. Use of Growth Plans for Teachers

Teachers who receive an overall rating of at least “proficient” on all standards on

the North Carolina Educator Evaluation System rubric as indicated on the Summary Rating Form will develop an individual growth plan designed to improve performance on specifically identified standards and elements.

A teacher who is performing below a proficient level on the Summary Rating Form will be placed on a monitored growth plan or a directed growth plan unless dismissal, demotion, nonrenewal, or placement on a mandatory improvement plan (see Section D, below) is warranted. A monitored growth plan developed in accordance with State Board policy is required for a teacher who is rated “developing” on one or more standards of the North Carolina Educator Evaluation System rubric. State Board policy also requires that a teacher who is rated “not demonstrated” on any standard or who is rated “developing” on any standard for two sequential years be placed on a directed growth plan. The board or superintendent may establish other criteria that will be deemed evidence that performance is below a proficient level or otherwise represents unsatisfactory or below standard performance and warrants placement on either a monitored growth plan or a directed growth plan.

Unless otherwise limited by state law or State Board policy, the principal is authorized to place a teacher on a monitored or directed growth plan or other plan of assistance at any point during the school year if the principal determines that the teacher is performing below the expected level.

2. Components of Growth Plans for Teachers

Individual growth plans may contain, but are not limited to, any of the components listed below. However, monitored or directed growth plans must include at least the following components.

a. Identification of Performance Deficiencies

All performance deficiencies, including conduct deficiencies and all specific standards and elements of the Teacher Evaluation Rubric identified for improvement during the teacher’s evaluation, must be identified and addressed in the growth plan.

b. Performance Expectations and Goals

For each performance deficiency identified, the growth plan must include a statement of the expected level of performance and/or other goals to be accomplished.

c. Strategies

The growth plan must set forth a strategy or strategies designed to correct each identified performance deficiency. The strategies should be specific

and clearly state the activities the teacher should undertake to achieve the expected level of performance. The strategies also should identify all individuals responsible for implementing the plan.

d. Dates for Monitoring and Completion

The growth plan must include dates upon which the teacher's progress under the plan will be reviewed and the date by which performance or conduct is to be improved to the expected level. Under a monitored growth plan, the teacher must achieve proficiency within one school year. A directed growth plan may provide for a shorter period to achieve proficiency, not to exceed one school year.

3. Review of Growth Plans

Individual growth plans should be reviewed at least annually with the teacher's principal or supervisor.

In the case of a teacher's monitored or directed growth plan, once the designated time period for completion of a plan has elapsed, the principal or supervisor shall review the teacher's performance, including the results of any subsequent evaluation and determine whether the teacher continues to perform below the expected level in any area or whether the teacher's performance has improved sufficiently. If the teacher's performance remains below proficient, the principal or supervisor shall recommend to the superintendent one of the following:

- a. the board non-renew, dismiss, or demote the teacher, or transfer the teacher to a position in which the teacher can be successful;
- b. the teacher be placed on a mandatory improvement plan in accordance with the provisions of Section D below; or
- c. the teacher be moved to a new monitored or directed growth plan or continue on a previous growth plan that has been revised as necessary, provided the principal or supervisor determines that:
 - 1) the teacher's continuing performance problems are not having an adverse impact on student learning or the school environment, or
 - 2) the teacher is making good progress toward improvement in deficient areas and is likely to improve to an acceptable level within a reasonable, additional time period.

C. PROFESSIONAL GROWTH PLANS FOR PRINCIPALS AND ASSISTANT PRINCIPALS

1. Professional Growth Plans

Professional growth plans will be developed for principals and assistant principals as provided in State Board policy. The professional growth plan will include mutually agreed upon performance goals and recommendations based upon the principal or assistant principal's self-assessment, the consolidated assessment, and the summary evaluation using the *North Carolina School Executive; Principal and Assistant Principal Evaluation Process*. Development of the professional growth plan will be discussed at a meeting between the principal or assistant principal and the superintendent or designee when completing the annual evaluation process. The superintendent or designee should review the professional growth plan with the employee at least annually.

2. Optional Action Plan Component to the Professional Growth Plan

- a. The superintendent may incorporate an action plan into the principal or assistant principal's professional growth plan to address performance or conduct deficiencies. The action plan must include the following:

i. Identification of Performance Deficiencies

All performance and conduct deficiencies identified in the employee's evaluation must be identified and addressed in the action plan.

ii. Performance Expectations and Goals

For each performance deficiency identified, the action plan must include a statement of the expected level of performance and/or other goals to be accomplished.

iii. Strategies

The action plan must set forth a strategy or strategies designed to correct each identified performance or conduct deficiency. The strategies should be specific and clearly stated and should identify all individuals responsible for implementing the plan.

iv. Dates for Monitoring and Completion

The action plan must include the dates upon which the employee's progress under the plan will be reviewed and the date by which performance is to be improved to the expected level, which will be no less than 60 calendar days and no longer than the end of the current school year.

- b. Upon completion of the action plan, the superintendent or designee shall

reevaluate the employee and determine whether the employee continues to perform below the expected level in any area or whether the employee's performance has improved sufficiently. If the employee is within the final year of his or her contract, the reevaluation must occur prior to the statutory deadline for notice of contract non-renewal. If the employee's performance remains below proficient, the superintendent shall either:

- i. recommend that the board non-renew, dismiss, demote, or transfer the employee to a position in which the employee can be successful; or
- ii. retain the employee in the current position if the superintendent determines that the employee is making good progress toward improvement in deficient areas and is likely to improve to an acceptable level within a reasonable period of time. A principal or assistant principal who is retained in his or her position after demonstrating performance below proficiency on the reevaluation must be given a new action plan and reevaluated as described in subsection C.2.b, above.

D. MANDATORY IMPROVEMENT PLANS

A mandatory improvement plan is an instrument designed to improve a licensed employee's performance by providing the employee with notice of specific performance areas that have substantial deficiencies and a set of strategies, including the specific support to be provided to the employee, so that he or she may satisfactorily resolve such deficiencies within a reasonable time frame.

The use of mandatory improvement plans as provided in this policy is discretionary and will be determined on a case-by-case basis. Nothing in this policy will be interpreted so as to require the use of mandatory improvement plans in addition to, or in lieu of, growth plans or other disciplinary action, including non-renewal or dismissal from employment as provided by law.

1. Initiating a Mandatory Improvement Plan
 - a. Licensed Employees in Low-Performing Schools

If a licensed employee in a low-performing school receives a rating on any standard on an evaluation that is below proficient or otherwise represents unsatisfactory or below standard performance in an area that the licensed employee was expected to demonstrate, the individual or team that conducted the evaluation shall recommend to the superintendent that (i) the employee receive a mandatory improvement plan designed to improve the employee's performance, (ii) the superintendent recommend to the board that the employee be dismissed, demoted (if a career teacher), or

nonrenewed (if the teacher is on a contract), or (iii) a proceeding for immediate dismissal or demotion be instituted against the employee for conduct or performance that causes substantial harm to the educational environment. If the individual or team that conducted the evaluation elects not to make any of the above recommendations, the individual or team evaluator shall notify the superintendent of this decision. The superintendent shall determine whether to develop a mandatory improvement plan, to recommend nonrenewal of the employee's contract, or to recommend a dismissal proceeding.

b. Teachers in Schools Not Identified as Low-Performing

If, in an observation report or year-end evaluation, a teacher in a school not identified as low-performing receives a rating that is below proficient or otherwise represents unsatisfactory or below standard performance on any standard that the teacher was expected to demonstrate, the principal may place the employee on a mandatory improvement plan. The mandatory improvement plan will be utilized only if the superintendent or designee determines that an individual, monitored or directed growth plan would not satisfactorily address the deficiencies.

c. Any Licensed Employees Engaging in Inappropriate Conduct or Performance

A principal may recommend to the superintendent or designee that a licensed employee be placed immediately on a mandatory improvement plan if the employee engages in inappropriate conduct or performs inadequately to such a degree that the conduct or performance causes substantial harm to the educational environment, but immediate dismissal or demotion of the employee is not appropriate. The principal must document the exigent reason for immediately instituting such a plan.

2. Components of the Plan

A mandatory improvement plan for any licensed employee must include the following components.

a. Identification of Performance Deficiencies

The performance or conduct areas in which the employee is deficient must be identified and addressed in the mandatory improvement plan.

b. Performance Expectations

For each performance or conduct deficiency identified, the plan must include a statement of the expected level of performance.

c. Strategies

The plan must establish a strategy or strategies designed to correct each identified performance or conduct deficiency. The strategies should be specific and clearly state the activities the employee should undertake to achieve the expected level of performance or conduct and the specific support to be provided to the employee. The strategies also should identify all individuals responsible for implementing the plan.

d. Dates for Monitoring and Completion

The plan must include dates upon which the employee's progress under the plan will be reviewed and the date by which performance is to be improved to the expected level.

3. Development and Implementation of the Plan

a. Licensed Employees in Low-Performing Schools

When directed by the superintendent, a mandatory improvement plan to improve the performance of a licensed employee will be developed by the person who evaluated the licensed employee or the employee's supervisor, unless the evaluation was conducted by an assistance team. If the evaluation was conducted by an assistance team, that team shall develop the mandatory improvement plan in collaboration with the employee's supervisor. Mandatory improvement plans will be designed to be completed within 90 instructional days or before the beginning of the next school year.

b. Teachers in Schools Not Identified As Low-Performing

When a principal decides to put a teacher on a mandatory improvement plan, the principal shall develop the plan in consultation with the teacher. The teacher shall have five instructional days after receiving the plan to request a modification to the plan before it is implemented. The principal must consider the requested modification before finalizing the plan. The teacher shall have at least 60 instructional days to complete the mandatory improvement plan.

A teacher has five workdays after finalization of the mandatory improvement plan within which to submit a request to the principal for a qualified observer, as defined in G.S. 115C-333.1(c)(1), to observe the teacher in the area or areas of concern identified in the plan. In accordance with G.S. 115C-333.1(c)(2), the board will create and maintain a list of qualified observers who are employed by the board and available to conduct observations. The board will strive to limit the list to administrators and

teachers who have excellent reputations for competence and fairness. Selection of the qualified observer and submission of the qualified observer's report to the principal will be in accordance with G.S. 115C-333.1(c)(3).

4. Reassessment

a. Licensed Employees in Low-Performing Schools

After the expiration of the time period for the mandatory improvement plan, the superintendent or designee or the assistance team shall assess the employee's performance. If the assessor determines that the employee has failed to become proficient in any of the performance or conduct standards articulated in the mandatory improvement plan or to demonstrate sufficient improvement toward such standards, the superintendent shall recommend that the employee be dismissed, demoted, or nonrenewed under applicable state law, or that the employee be immediately dismissed for conduct or performance that causes substantial harm to the educational environment.

b. Teachers in Schools Not Identified As Low-Performing

Upon completion of a mandatory improvement plan, the principal or supervisor shall assess the performance of the employee. The principal shall also review and consider any report provided by the qualified observer if one has been submitted before the end of the mandatory improvement plan period. If, after the assessment of the employee and consideration of any report from the qualified observer, the superintendent or designee determines that the teacher has failed to become proficient in any of the performance or conduct standards identified as deficient in the mandatory improvement plan or demonstrate sufficient improvement toward such standards, the superintendent may recommend that the employee be dismissed, demoted, or nonrenewed under applicable state law or that the employee be immediately dismissed for conduct or performance that causes substantial harm to the educational environment.

Personnel files, which may consist of paper or electronic records, will be maintained in the human resources office for all employees as provided by law. The superintendent and all supervisors are directed to ensure that all appropriate employment-related information is submitted to the file. Employees will be provided with all procedural protections as provided by law.

All written complaints that are signed and dated must be submitted regardless of whether the supervisor considers the complaint to be resolved.

The supervisor or principal should seek clarification from the director of human resources as necessary to comply with this policy.

TECHNOLOGY RESPONSIBLE USE POLICY

Policy Code: 3225/4312/7320

The board provides its student and staff access to a variety of technological resources, including laptop computers and tablets. These resources provide opportunities to enhance learning and improve communication within the school community and with the larger global community. Through the school system's technological resources, users can observe events as they occur around the world, interact with others on a variety of subjects, and acquire access to current and in-depth information.

The board intends that students and employees benefit from these resources while remaining within the bounds of safe, legal and responsible use. Accordingly, the board establishes this policy to govern student and employee use of school system technological resources. This policy applies regardless of whether such use occurs on or off school system property, and it applies to all school system technological resources, including but not limited to computer networks and connections, the resources, tools and learning environments made available by or on the networks, and all devices that connect to those networks.

A. EXPECTATIONS FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

The use of school system technological resources, including access to the Internet, is a privilege, not a right. Individual users of the school system's technological resources are responsible for their behavior and communications when using those resources. Responsible use of school system technological resources is use that is ethical, respectful, academically honest and supportive of student learning. Each user has the responsibility to respect others in the school community and on the Internet. Users are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable board policies, the Code of Student Conduct and other regulations and school rules, apply to use of the Internet and other school technological resources.

In addition, anyone who uses school system computers or electronic devices or who accesses the school network or the Internet using school system resources must comply with the additional rules for responsible use listed in Section B, below. These rules are intended to clarify expectations for conduct but should not be construed as all-inclusive.

Before using the Internet, all students must be trained about appropriate online behavior as provided in policy 3226/4205, Internet Safety.

All students and employees must be informed annually of the requirements of this policy and the methods by which they may obtain a copy of this policy. Before using school system technological resources, students and employees must sign a statement indicating

that they understand and will strictly comply with these requirements. The agreement is in effect until either the student changes schools or the employee moves to a different place of employment within the Montgomery County School System. Failure to adhere to these requirements will result in disciplinary action, including revocation of user privileges. Willful misuses may result in disciplinary action and/or criminal prosecution under applicable state and federal law.

B. RULES FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

1. School system technological resources are provided for school-related purposes only. Acceptable uses of such technological resources are limited to responsible, efficient and legal activities that support learning and teaching. Use of school system technological resources for commercial gain or profit is prohibited. Student personal use of school system technological resources for amusement or entertainment is also prohibited. Because some incidental and occasional personal use by employees is inevitable, the board permits infrequent and brief personal use by employees so long as it occurs on personal time, does not interfere with the school system business and is not otherwise prohibited by board policy or procedure.
2. School district technological resources are installed and maintained by members of the Technology Department. Students and employees shall not attempt to perform any installation or maintenance without the permission of the Technology Department.
3. Under no circumstances may software purchased by the school system be copied for personal use.
4. Students and employees must comply with all applicable laws, including those relating to copyrights and trademarks, confidential information, and public records. Any use that violates state or federal law is strictly prohibited. Plagiarism of Internet resources will be treated in the same manner as any other incidents of plagiarism, as stated in the Code of Student Conduct.
5. No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages or other material that is obscene, defamatory, profane, pornographic, harassing, abusive or considered to be harmful to minors. All users must comply with policy 1710/4021/7230, Prohibition Against Discrimination, Harassment and Bullying

when using school technology.

6. The use of anonymous proxies to circumvent content filtering is prohibited.
7. Users may not install or use any Internet-based file sharing program designed to facilitate sharing of copyrighted material.
8. Users of technological resources may not send electronic communications fraudulently (i.e., by misrepresenting the identity of the sender).
9. Users must respect the privacy of others. When using e-mail, chat rooms, blogs or other forms of electronic communication, students must not reveal personal identifying information, or information that is private or confidential, such as the home address or telephone number, credit or checking account information or social security number of themselves or fellow students. For further information regarding what constitutes personal identifying information, see policy 4705/7825, Confidentiality of Personal Identifying Information. In addition, school employees must not disclose on school system websites or web pages or elsewhere on the Internet any personally identifiable, private or confidential information concerning students (including names, addresses or pictures) without the written permission of a parent or guardian or an eligible student, except as otherwise permitted by the Family Educational Rights and Privacy Act (FERPA) or policy 4700, Student Records. Users also may not forward or post personal communications without the author's prior consent.
10. Users may not intentionally or negligently damage computers, computer systems, electronic devices, software, computer networks or data or any user connected to school system technological resources. Users may not knowingly or negligently transmit computer viruses or self-replicating messages or deliberately try to degrade or disrupt system performance. Users must scan any downloaded files for viruses.
11. Users may not create or introduce games, network communications programs or any foreign program or software onto any school system computer, electronic device or network without the express permission of the technology director or designee.
12. Users are prohibited from engaging in unauthorized or unlawful activities, such as "hacking" or using the computer network to gain or attempt to gain unauthorized or unlawful access to other computers, computer systems or accounts.

13. Users are prohibited from using another individual's ID or password for any technological resource without permission from the individual. Students must also have permission from the teacher or other school official.
14. Users may not read, alter, change, block, execute or delete files or communications belonging to another user without the owner's express prior permission.
15. Employees shall not use passwords or user IDs for any data system (e.g., Power School, CECAS, time-keeping software, etc.) for an unauthorized or improper use.
16. If a user identifies a security problem on a technological resource, he or she must immediately notify a system administrator. Users must not demonstrate the problem to other users. Any user identified as a security risk will be denied access.
17. Teachers shall make reasonable efforts to supervise ~~a~~ students' use of the Internet during instructional time, to ensure that such use is appropriate for the student's age and the circumstances and purpose of the use.
18. Views may be expressed on the Internet or other technological resources as representing the view of the school system or part of the school system only with prior approval by the superintendent or designee.
19. Without permission by the board, users may not connect any person technologies such as laptops, workstations and printers, wireless access points and routers, etc. to a district owned and maintained local, wide or metro area network. Connection of personal devices such as iPods, smartphones, PDAs and printers is permitted but not supported by Montgomery County Schools. The board is not responsible for the content accessed by users who connect to the Internet via their personal mobile telephone technology (e.g., 3G, 4G service).
20. Users must back up data and other important files regularly.
21. Those who use district owned and maintained laptops must also follow these guidelines:

C. RESTRICTED MATERIAL ON THE INTERNET

The Internet and electronic communications offer fluid environments in which students may access or be exposed to materials and information from diverse and rapidly changing sources, including some that may be harmful to students. The board recognizes that it is impossible to predict with certainty what information on the Internet students may access or obtain. Nevertheless, school system personnel shall take reasonable precautions to prevent students from accessing materials and information that is obscene, pornographic or otherwise harmful to minors, including violence, nudity, or graphic language that does not serve a legitimate pedagogical purpose. The superintendent shall ensure that technology protection measures are used as provided in policy 3226/4205, Internet Safety, and are disabled or minimized only when permitted by law and board policy. The board is not responsible for the content accessed by users who connect to the Internet via their personal mobile telephone technology (e.g., 3G, 4G service).

D. PARENTAL CONSENT

The board recognizes that parents of minors are responsible for setting and conveying the standards their children should follow when using media and information sources. Accordingly, before a student may independently access the Internet, the student's parent must be made aware of the possibility that the student could obtain access to inappropriate material while engaged in independent use of the Internet. The parent and student must consent to the

student's independent access to the Internet and to monitoring of the student's e-mail communication by school personnel.

In addition, in accordance with the board's goals and visions for technology, students may require accounts in third party systems for school related projects designed to assist students in mastering effective and proper online communications or to meet other educational goals. Parental permission will be obtained when necessary to create and manage such third party accounts.

E. PRIVACY

No right of privacy exists in the use of technological resources. Users should not assume that files or communications created or transmitted using school system technological resources or stored on services or hard drives of individual computers will be private. School system administrators or individuals designated by the superintendent may review files, monitor all communications, and intercept e-mail messages to maintain system integrity and to ensure compliance with board policy and applicable laws and regulations. School system personnel shall monitor on-line activities of individuals who access the Internet via a school-owned computer.

F. SECURITY/CARE OF PROPERTY

Security on any computer system is a high priority, especially when the system involves many users. Employees are responsible for reporting information security violations to appropriate personnel. Employees should not demonstrate the suspected security violation to other users. Unauthorized attempts to log onto any school system computer on the board's network as a system administrator may result in cancellation of user privileges and/or additional disciplinary action. Any user identified as a security risk or having a history of problems with other systems may be denied access.

Users of school district technology resources are expected to respect school district property and be responsible in using the equipment. Users are to follow all instructions regarding maintenance or care of the equipment.

Users may be held fiscally responsible for any loss or damage caused by intentional or negligent acts in caring for computers while under their control. The school district is responsible for any routine maintenance or standard repairs to school system computers.

The board is committed to transporting students on school buses in a manner that is safe and consistent with the board's goal of resource conservation. To this end, the board prohibits all unnecessary school bus idling on school grounds. In addition, the board prohibits the warming up of buses for longer than five minutes, except in extraordinary circumstances or circumstances beyond the bus driver's control.

This policy applies to school buses and activity buses when these buses are used to transport students to or from school, extracurricular activities, field trips, and other school-related activities.

The superintendent shall develop procedures consistent with this policy. The superintendent shall ensure that school bus drivers and appropriate school personnel receive training to implement this policy.

The school system computers, networks and other technological resources support the educational and administrative functions of the school system. Because employees and students depend on these systems to assist with teaching and learning and because sensitive and confidential information may be stored on these systems, system integrity and security is of utmost importance.

A. NETWORK AND INFORMATION SECURITY

The school system information technology systems are valuable assets that must be protected. To this end, school technology personnel shall evaluate each information technology asset and assign protective controls that are commensurate with the established value of such assets. Appropriate security measures must be in place to protect all information technology assets from accidental or unauthorized use, theft, modification or destruction and to prevent the unauthorized disclosure of restricted information. Network security measures must include an information technology system disaster recovery process. Audits of security measures must be conducted annually.

All personnel shall ensure the protection and security of information technology assets that are under their control.

B. SECURITY AWARENESS

The technology director or designee shall provide employees with information to enhance awareness regarding technology security threats and to educate them about appropriate safeguards, network security and information security.

C. MALWARE PROTECTION

Malware detection programs and practices must be implemented throughout the school system. The superintendent or designee is responsible for ensuring that the school system network includes current software to prevent the introduction or propagation of computer malware.

D. TRAINING FOR USE OF TECHNOLOGICAL RESOURCES

Users should be trained to use technological resources effectively and in a manner that maintains the security of the network infrastructure and ensures compliance with state and federal law and regulations. Such training should include information related to remote access, virus protection, the state student information and instructional improvement system applications network and information security, and other topics deemed necessary by the superintendent or technology director. Training may be conducted as part of the technology-related professional development program (see policy 3220, Technology in the Educational Program).

E. ACCESS TO INFORMATION TECHNOLOGY SYSTEMS

Access to the school system's information technology assets will be controlled and managed to ensure that only authorized devices/persons have access.

1. User ID and Password

All users of information technology systems must be properly identified and authenticated before being allowed to access such systems. The combination of a unique user identification and a valid password is the minimum requirement for granting access to information technology systems. Depending on the operating environment, information involved and exposure risks, additional or more stringent security practices may be required as determined by the superintendent or technology director. The technology director or designee shall establish password management capabilities and procedures to ensure the security of passwords.

2. Student Information System

The technology director or designee shall ensure that all school system computers with access to the state student information system application pursuant to State Board of Education Policy TCS-C-018 adhere to relevant standards and requirements established by the State Board of Education, including provisions related to user identification and password and workstation security standards. Employees must follow all such standards when using any computers used to access the student information system, including when using the employee's personal computer.

3. Remote Access

The superintendent and technology director may grant remote access to authorized users of the school system's computer systems. The technology director or designee shall ensure that such access is provided through secure, authenticated and carefully managed access methods.

The board recognizes that an effective staff is critical to the smooth operations of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers and other licensed professionals, excel in their performance. For the purposes of this policy, the term “school administrator” is defined as a principal, assistant principal, supervisor or director whose major function includes the supervision of teaching or any other part of the instructional program.

A. STANDARD FOR INITIAL, EXTENDED, OR RENEWED CONTRACTS

School administrator contracts will be granted, extended or renewed only for individuals of proven ability who strive for excellence. School administrators should be able to facilitate student learning, and effectively carry out the responsibilities of providing for school safety, and enforcing student discipline. The superintendent is expected to be able to substantiate any recommendation for granting a new contract, extending a current contract or renewing a contract with evaluation data, as described in-policy 7810, Evaluation of Licensed Employees, or with regard to applicants, with data from the selection process as provided in policy 7100, Recruitment and Selection of Personnel. If the board is not satisfied that an applicant or employee has met the standards established by the board, employment will be denied, following statutorily prescribed procedures and other applicable legal requirements.

B. TERM OF CONTRACT

1. Initial Contracts

Initial contracts between a school administrator and the board will be for a term of two to four years. Four-year contracts will be granted only to exemplary school administrators. Absent unusual circumstances, two-year initial contracts will be granted for individuals who do not have experience as school administrators. In addition, one-year contracts may be granted to individuals who hold a provisional assistant principal’s license.

2. Subsequent Contracts

Subsequent contracts between a principal or assistant principal and the board will be granted for a term of four years.

C. PERFORMANCE EXPECTATIONS

An employee who has a school administrator contract with the school system is expected to continue to strive for excellence, meet all performance standards established by the

board, and pursue professional development as provided in policy 1610/7800, Professional and Staff Development. Any employee who is unable or unwilling to meet reasonable standards of the board may be subject to demotion or dismissal, as provided in policy 7930, Professional Employees: Demotion and Dismissal, and in accordance with statutorily prescribed procedures.

D. PROCEDURE FOR NEW, RENEWED, OR EXTENDED CONTRACTS

1. Decisions of the superintendent and board with regard to recommendations and offers and decisions not to recommend or offer new, renewed, or extended contracts will be made in accordance with G.S. 115C-287.1.
2. If the superintendent decides not to recommend that the board offer a school administrator a new, renewed or extended contract, the employee has all procedural rights accorded by G.S. 115C-287.1.
3. In considering a recommendation of the superintendent to offer a school administrator a new, renewed, or extended contract, the board may review any information that was in the employee's personnel file at the time of the superintendent's recommendation. If the board determines that it needs additional information to reach a decision, it will notify the administrator of the board's concerns and of the additional information that it is considering and provide an opportunity for the employee to respond to the additional information.
