

The board believes a strong relationship exists between the quality of education afforded students and the competency of professional personnel employed by the school district. The board attaches a high priority to securing the most competent personnel available and, once they are employed, in assisting them in their professional growth and development throughout their careers. The primary purpose goal of professional and of staff development programs and opportunities for licensed professional employees and support staff, is to improve the instructional program and create a safe learning environment for all students by improving and expanding the skills of the professional staff and support personnel-

A. PROFESSIONAL AND STAFF DEVELOPMENT

The superintendent will provide ongoing development opportunities for licensed and support staff and shall require participation by such personnel as appropriate. The superintendent shall seek input from employees when developing system-wide programs. The principal shall seek input from school personnel when planning professional and staff development programs for his or her school.

Professional and staff development must be provided, at the system or school level, on the effective delivery of the required curriculum. In addition, as required by policy 3220, Technology in the Educational Program, the superintendent shall plan and provide a program of technology-related professional development to prepare the instructional staff to integrate technology in the student learning process and to address other relevant issues related to the use of digital tools and resources in the instructional program.

B. SELF-IMPROVEMENT

Licensed employees are expected to engage in self-directed activities to improve their professional skills. These employees are encouraged to seek information and training through professional development programs as well as other opportunities in order to meet this responsibility.

C. PLANS FOR GROWTH AND IMPROVEMENT

Licensed employees are expected to engage in self-directed activities to improve their professional skills. These employees are encouraged to seek information and training through professional development programs as well as other opportunities in order to meet this responsibility.

During each five-year cycle for license renewal, all licensed personnel will focus a portion of their staff development training on technology competencies as follows:

License Expiration Date:

Number of Technology CEUs:

6-30-03 and beyond

1.5

A teacher who has retired from Montgomery County Schools and has been reemployed may request a waiver to reduce the required technology CEUs from the local 1.5 CEU requirement to one CEU. This waiver request must be in writing to the personnel office.

D. PLANS FOR GROWTH AND IMPROVEMENT

Supervisors and principals also may require licensed employees to enter into plans including mandatory improvement plans established by state law and individual, monitored and/or directed growth plans established by the State Board of Education, for professional growth and improving performance. (See policy 7811, Plans for Growth and Improvement of Licensed Employees.) A performance improvement plan could involve participation in a professional development program or encompass a variety of strategies that are related to professional growth or improving performance.

E. PAYMENT OF COSTS

The school system will consider paying reasonable costs, within budget limits, for any courses, workshops, seminars, conferences, in-service training sessions or other sessions which the local administration requires an employee to attend. The employee must seek prior approval for payments.

The district will not bear the responsibility of the cost of training solely for the purposes of licensure renewal.

F. TUITION REIMBURSEMENT

1. Eligibility

Lateral-entry and provisionally certified personnel who are seeking licensure in the area in which they are employed may be eligible, if funds

are available for tuition reimbursement for courses they have completed at an approved educational program in an accredited college or university.

2. Prior Approval

The superintendent's designee must approve all tuition reimbursements. Prior to registering for a course for which tuition reimbursement will be requested, the individual must present an approved plan detailing course work required by the certifying institution in order to make a recommendation for certification in the required area. The course for which reimbursement is requested must appear on the approved plan. If a course is substituted, a documentation of approval must be provided to amend the plan.

Once the plan is approved, reimbursement will be made according to Section 4 of this document.

3. Documentation

Following completion of the course, the individual must present a letter requesting reimbursement with the following attachments:

- a receipt for the paid tuition
- a copy of the college transcript or grade report verifying the completion of the course
- a copy of the prior approval form.

4. Rate of Reimbursement

Tuition reimbursement will be determined based on the availability of funds

5. Contract Agreement

Restitution for the amount of tuition reimbursement will be forgiven at a rate of 20% per year from the time of payment of the request. Should an individual voluntarily leave the employment of Montgomery County Schools in less than five (5) years following the date of reimbursement or should the individual request a transfer into another area of licensure within the restitution period, the balance of the restitution will be assessed and paid by the individual in a manner deemed appropriate by the finance officer of the board.

6. Other Considerations

- General Statute 115C-325 will not be superceded by this contract.
- Contingent upon availability of funds
- Effective date: October 1, 1998.

7. Acknowledgement of Conditions Set Forth Above

- Teacher Signature/Date
- Superintendent Signature/Date

It is the policy of the board, in keeping with the ultimate goal of serving the educational welfare of children, to develop and practice reasonable and effective methods of resolving difficulties which may arise among employees. The intent is to reduce potential areas of grievances and to establish and maintain recognized channels of communications between staff and administration. The purpose of this procedure is to secure, at the lowest possible level, equitable solutions to the problems which arise from time to time and affect employees.

A. RESOLUTION

It is desirable for an employee and his or her immediate supervisor to resolve problems through free and informal communication. When informal procedures fail or are inappropriate or when the employee requests formal procedures, a grievance shall be processed pursuant to the steps set forth in this policy.

B. DEFINITIONS

1. Days

Days are the working days, exclusive of Saturdays, Sundays, vacation days or holidays, as set forth in the aggrieved employee's employment calendar. In counting days, the first day will be the first full working day following receipt of the grievance. When a grievance is submitted on or after May 1, time limits will consist of all weekdays (Monday-Friday) so that the matter may be resolved before the close of the school term or as soon as thereafter as possible.

2. Final Administrative Decision

A final administrative decision is a decision of a school employee from which no further appeal to a school administrator is available.

3. Grievance

A grievance is a formal written claim by an employee regarding specific decision(s) made by another employee and alleging that such decision(s) have adversely affected the person making the claim. A grievance may include, but is not limited to, the following allegations

- a. that there has been a violation, misapplication or misinterpretation of state or federal law or regulations, school board policy or

administrative procedure;

- b. that an employee's employment status or the terms or conditions of his or her employment have been adversely affected; or
- c. that there exists a physical condition that jeopardizes an employee's health or safety or that interferes with an employee's ability to discharge his or her responsibilities properly and effectively.

The term "grievance" does not apply to any matter for which the method of review is prescribed by law, for which there is a more specific board policy providing a process for addressing the concern, or upon which the board of education is without authority to act. Claims of discrimination, harassment or bullying must be processed under policy 1720/4015/7225, Discrimination, Harassment and Bullying Complaint Procedure.

2. Grievant

The grievant is the employee(s) making the claim.

3. Official

The official is the person hearing and responding to the grievant.

4. Parties in Interest

Parties in interest refer to the grievant and the person against whom the grievance is filed.

C. TIMELINESS OF PROCESS

Failure by the official at any step to communicate a decision within the specified time limit will permit the grievant to appeal the grievance to the next step unless the official has notified the grievant of the delay and the reason for the delay, such as the complexity of the investigation or report. The official shall make reasonable efforts to keep the grievant apprised of progress being made during any period of delay. Delays may not impermissibly interfere with the exercise of the grievant's legal rights.

Failure by the grievant at any step to appeal a grievance to the next step within the specified time limit will be considered acceptance of the decision at

that step, unless the grievant has notified the official of a delay and the reason for the delay and the official has consented in writing to the delay.

D. GENERAL REQUIREMENTS

1. All parties in interest and their representatives in any grievance filed pursuant to this policy shall conduct themselves in a professional manner at all times during the investigation and hearing of the grievance.
2. The board or an employee of the school system will take no reprisals of any kind against any party in interest or other employee on account of his or her participation in a grievance files and decided pursuant to this policy.
3. Each decision will be in writing, setting forth the decision and reasons therefore, and will be transmitted promptly to all parties in interest.
4. All meetings and hearings conducted pursuant to this policy will be private.
5. The board and school system will consider requests to hear grievances from a group of grievants, but the board and officials have the discretion to respond to grievants individually.
6. The board and administration will cooperate with the employee and representative in the investigation of any grievance.
7. The employee may have a representative, including an attorney, at any stage of the grievance. However, if the grievant intends to be represented by legal counsel he or she must notify the appropriate school official in advance so that school personnel also will have the opportunity to be represented by legal counsel.
8. Should, in the judgment of the superintendent or designee, the investigation or processing of any grievance require the absence of the grievant and/or representative from regular work assignments, such as absences will be excused without loss of pay or benefits.

E. PROCESS FOR GRIEVANCE

1. Filing a Grievance
 - a. A grievance must be filed as soon as possible but no longer than 30 days after disclosure or discovery of the facts giving rise to the

grievance. For a grievance submitted after 30 days that claims a violation, misapplication or misrepresentation of state or federal law the superintendent or designee shall determine whether the grievance will be investigated after considering factors such as the reason for the delay; the extent of the delay; the effect of the delay on the ability of the school system to investigate and respond to the complaint; and whether the investigation of the complaint is necessary to meet any legal obligations. However, employees should recognize that delays in filing a grievance may significantly impair the ability of the school system to investigate and respond effectively to such complaints.

- b. All grievances must be in writing, and the written statement of grievance must remain the same throughout all steps of the grievance procedure. The written grievance must include the following information: (1) the name of the school system employee or other individual whose decision or action is at issue; (2) the specific decision(s), action(s) or physical condition at issue; (3) any local board policy, state or federal law, state or federal regulation or State Board of Education policy or procedures that the grievant believes has been misapplied, misinterpreted or violated; and

(4) the specific resolution desired. If there is not a specific decision, action or physical condition at issue or no concern that federal or state law, federal or state regulation, State Board of Education policy or procedure, or board policy or procedure has been misapplied, misinterpreted or violated, then the procedure established in policy 1742/5060, Responding to Complaints, is appropriate and the principal or immediate supervisor shall address the concern following that board policy.
- c. The employee(s) shall present the grievance in writing to his or her immediate supervisor or the supervisor's designee unless the grievance alleges that a state or federal law has been misapplied, misinterpreted or violated in which case the grievance may be presented instead to the executive director of human resources (or to the superintendent if the grievant's supervisor is the executive director of human resources). The person receiving the grievance hereinafter will be referred to as "official."

2. Response by Official

- a. The official shall arrange for a grievance file number to be assigned by the ~~personnel~~ human resources office.
- b. In the event the official determines at the outset that review by the official is inappropriate; the official shall forward the formal grievance to the superintendent who will investigate and respond as provided below in subsection E.3.
- c. A meeting will take place at a mutually agreed-upon time within five days after receipt of the grievance.
- d. The official shall conduct any investigation of the facts necessary before rendering a decision.
- e. The official shall provide the aggrieved employee(s) with a written response to the grievance within 10 days after the meeting.

3. Response by Superintendent

- a. If the grievant is dissatisfied with the official's response, the grievant may appeal in writing the decision to the superintendent for review by the superintendent or designee within five days or receipt of the official's response.
- b. The superintendent or designee shall arrange for a meeting with the employee(s) to take place within five days of the receipt of the appeal.
- c. The superintendent or designee shall conduct any investigation necessary before arriving at a decision. The superintendent or designee shall provide the aggrieved employee(s) with a written decision within 10 days after the meeting.

4. Appeal to the Board

If the grievant has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or board policy or procedure or has alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her employment, the grievant shall have a

right to appeal a final administrative decision to the board of education (see subsection a, Mandatory Appeals, below). If the grievant has not alleged such specific violations, he or she may request a board hearing, which the board may grant at its discretion (see subsection b, Discretionary Appeals below).

a. Mandatory Appeals

1. If the grievant is not satisfied with the superintendent's response and has alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board policy or procedure or has alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her employment, the grievant may appeal in writing the decision to the board within 10 days of receiving the superintendent's response.
2. A hearing will be conducted pursuant to policy 2500, Hearings Before the Board.
3. The board will provide a final written decision within 30 days of receiving the appeal unless further investigation is necessary or the hearing necessitates that more time is taken to respond.

b. Discretionary Appeals

1. If the grievant is not satisfied with the superintendent's response but has not alleged a violation of a specified federal or state law, federal or state regulation, State Board of Education policy or procedure, or local board policy or procedure or has not alleged that a specific decision of a school official adversely affects the grievant's employment status or the terms or conditions of his or her employment, the grievant may submit the superintendent a written request for a hearing before the board of education within 10 days of receiving the superintendent's response.
2. If the full board will be meeting within two weeks of the request for a hearing, the board will decide at that time

whether to grant a hearing, Otherwise, the board chairperson shall appoint a three-person panel to review the request and determine whether to (1) deny the appeal; (2) review the superintendent's decision on the written record only; or (3) grant a hearing. The panel will report the decision to the board, the board may modify the decision of the panel upon majority vote at a board meeting.

3. If the board denies the appeal, the decision of the superintendent will be final and the grievant will be notified within five days of the board's decision.
4. If the board decides to grant a hearing, the hearing will be conducted pursuant to policy 2500.
5. The board will provide a final written decision within 30 days of the decision to grant an appeal unless further investigation is necessary or the hearing necessitates that more time is taken to respond.

F. RECORDS

Appropriate records shall be maintained in accordance with state and federal law.

A. QUALIFICATIONS

Any person possessing the qualifications for election to public office as provided for in Article VI, Section 6 of the Constitution of North Carolina and who is a qualified voter and resident of the **election** district from which he or she seeks to be elected is eligible to serve as a member of the board of education.

Any person elected or appointed to the board and also employed by the board will resign his/her employment before taking office as a member of the board.

B. MEMBERSHIP AND TERMS OF OFFICE

The board of education will consist of seven members. All terms will be for four years with the terms staggered so that as nearly equal to one-half as possible will expire every two years. All elections are nonpartisan and are to be held at the time of the November general election in even-numbered years.

C. OATH OF OFFICE

Before taking office, newly elected board members will take and sign the following oath or affirmation **on or before the first Monday of** **at the board meeting held in** December following their election:

"I, , do solemnly swear (or affirm) that I will support and **defend maintain** the Constitution and laws of the United States and the Constitution and laws of the State of North Carolina **not inconsistent therewith.** and that I will faithfully discharge my duties as a member of the Montgomery County Board of Education, **so help me God (omit phrase if affirming.** **to the best of my ability."**

If a board member enters on the duties of his or office before taking, subscribing and filing the oath of office, he or she will be ejected from office.

D. ELECTION PROCEDURES

Section 1. The members of the Montgomery County Board of Education will be nominated in a nonpartisan primary which will be held at the same time as the regular primary for county officers. Candidates will file at the same time as other county officers, but no party affiliation will appear on the notice of candidacy or on

the ballot in the primary or general election. The names of the nominees will be printed on the general election ballot, and biennially thereafter and the persons elected will take the place of the members whose terms expire and they will serve for a term of four years. All members will be nominated and elected by the voters of the designated districts.

If three or more candidates file for any seat, a primary will be held at the time of the county primary. The two persons receiving the highest number of votes in the primary will be placed on the ballot in the general election.

If two or less candidates file for any seat, there will be no primary, and the names of any candidates who file for the seat will be placed on the ballot for the general election.

The results of the general election will be determined by the same method as G.S. 163.292.

Section 2. Members will be elected from the seven districts shown on the map marked Seven-Member District Plan. A narrative description of the boundaries of each district is provided in this policy.

A person must reside in a district to be eligible to be a candidate for election from that district. Only the voters residing in a district will be eligible to vote on the board member for that district, except that voters in both District 3 and 4 may vote on the members for those districts as provided below.

In 1994 and every four years thereafter, board members will be elected from Districts 1, 3, 6 and 7. In 1996 and every four years thereafter, board members will be elected from Districts 2, 4 and 5.

Districts 3 and 4 will be combined for voting purposes. In 1992 and subsequent elections for District 4, voters in both Districts 3 and 4 may vote on that position. In 1994 and subsequent elections for District 3, voters in both Districts 3 and 4 may vote on that position. To be eligible to be a candidate for Districts 3 and 4, however, a person must reside in that particular district.

The board will review the boundaries of the seven districts after each federal census and will alter the lines as necessary to comply with the requirement of equal representation.

E. DISTRICT DESCRIPTIONS

Descriptions of the seven election districts last approved by the Board of Education are on file with the Montgomery County Board of Elections and are not reproduced herein. Reference is made to the records on file with the Montgomery County Board of Elections as to District descriptions which are incorporated by reference as set forth in their entirety as will descriptions altered by this board after review as required after each federal census.

The board will enter into contracts for legal service to the school district including both legal advice and representation in litigation, as needed. Any attorney retained by the board or the superintendent through school district funds represents the legal entity of the school district and not any individual board member or administrator.

The superintendent may consult with the board attorney as needed to carry out administrative operations and to protect the board and school district from liability. Other staff may consult with the board attorney following procedures established by the superintendent. **The board attorney shall be responsible for and authorized to address and resolve criminal bail bond and vehicle forfeiture matters in district and superior court.**

The chairperson of the board normally will decide for board members when to seek legal advice or assistance on school matters. In instances where an individual member of the board desires to consult directly with the attorney, the board member will notify the chairperson of the legal information to be sought. If it is determined that legal assistance is necessary and has not been sought previously for this matter, the board member will be directed to consult individually with the attorney. Questions raised by members of the board and the attorney's replies will be reported to all board members. The chairperson of a board committee may consult with the board's attorney on issues that arise out of and in connection with the committee's work. The inquiry and response will be reported to all board members.

The board recognizes that curriculum development must be an ongoing process in order to address continually the changing needs and diversity of all students and to fulfill the educational goals of the board. The board further recognizes that while educators must be responsible for developing the curriculum, parents, other governmental agencies, businesses and members of the public have valuable insights in the type of curriculum needed.

A. CURRICULUM DEVELOPMENT

The curriculum will be developed to meet state and board requirements, using the current statewide instructional standards as a foundation. The superintendent shall establish a curriculum committee to coordinate curriculum planning and ensure that the curriculum is aligned with the current statewide instructional standards and includes subject-area competencies for each grade level. The committee must include central office administrators, teachers and school administrators representing the various schools and grade levels. Teachers should receive appropriate training so that they may participate in curriculum development. The committee also must seek input from parents, the community and experts in order to make fully informed decisions.

The superintendent shall direct the committee to review periodically the curriculum content used in courses addressing the founding principles of our nation to ensure compliance with G.S. 115C-81(g)

The committee may recommend that the board expand subject areas and objectives of the curriculum to meet the educational goals of the board and state and federal laws. The committee also may recommend eliminating subject areas or objectives that are not state required or related to the educational goals of the board.

B. CURRICULUM MODIFICATION BY INDIVIDUAL SCHOOLS

The principal is the instructional leader of the school and is responsible for determining whether the curriculum meets the needs of the students of the school. Accordingly, the principal or his or her designee may consider modifying the curriculum.

If a school official wishes to modify the curriculum, he or she may submit its proposal to the central curriculum committee. Unless the curriculum committee has significant concerns about the proposal, the committee will approve the changes so long as the curriculum maintains continuity. After being approved by

the curriculum committee, the proposal must be submitted to the board for approval as a part of the school improvement plan process, if the modifications include: (1) expanding or reducing the subject areas or objectives, (2) eliminating subject areas or objectives not required by the state, or (3) waiving local board policies. The curriculum committee shall ensure that the curriculum continues to be aligned with the current statewide instructional standards.

C. EVALUATION

The superintendent shall ensure that the methods for meeting curriculum objectives are regularly evaluated for their effectiveness. The board also encourages external curriculum audits by professional curriculum assessors.

TECHNOLOGY IN THE EDUCATIONAL PROGRAM

Policy Code: **DRAFT**

3220

In alliance with state school technology goals, the board is committed to establishing and supporting 21st century information and communications technology systems to foster globally competitive, healthy and responsible students. The board recognizes the benefits of digital and technology-enabled teaching and learning resources that provide the ability to easily customize curriculum, provide access to current information and enable access to quality materials at a lower cost than traditional materials. To that end, the board intends to move to classroom digital and technology-enabled teaching and learning resources that are aligned with the Common Core State and North Carolina essential Standards as they become available. In addition, to the extent funding permits, the board will endeavor to ensure that all students have access to personal digital and technology-enabled teaching and learning devices to foster the 21st century skill necessary for future-ready learners.

The board expects that information and communications technologies will be integrated across the curriculum and used to support student achievement. Such technologies will also be used to support programs and activities that promote safe schools and healthy and responsible students. The curriculum committee should provide suggestions in the curriculum guides referenced in policy 3115, Curriculum and Instructional Guides, for integrating technological resources (as defined in Section A below) into the educational program. School administrators and teachers are encouraged to develop additional strategies for integrating technological resources across the curriculum and utilizing the power of technology to improve learning outcomes while making more efficient use of resources. The strategies should be included in the school improvement plan if it requires the transfer of funds or otherwise relates to any mandatory or optional components of the school improvement plan.

~~The superintendent shall develop and submit to the board for approval a local school system technology plan that is aligned with state guidelines and applicable federal rules.~~

The superintendent shall incorporate **integrate digital planning to support teaching and learning needs** this plan into the school system strategic planning efforts and include various stakeholders such as curriculum leaders, teachers, administrators and representatives from technology services, instructional technology, finance and other departments as required. ~~Once the board has approved the plan, the superintendent shall ensure expenditures on school information and communications technologies are made in accordance with the technology plan.~~

The superintendent shall establish relationships with businesses and seek grants and other funding sources in an effort to acquire technological resources for the educational program

A. SELECTION OF TECHNOLOGICAL RESOURCES

Technological resources, include, but are not limited to, the following; (1) hardware, including both fixed and mobile technologies and devices such as desktop computers, laptops, netbooks, tablets, e-readers, PDAs, smartphones and gaming devices; (2) software; (3) network and telecommunications systems and services; (4) internet access; (5) multimedia equipped classrooms; (6) computer classrooms and laboratories; and (7) other existing or emerging mobile communications systems. All technological resources must be purchased and used in a manner consistent with applicable law and board policy, including laws and policies related to copyright, public records, bidding and other purchase requirements, accessibility for students with disabilities, staff duties, and standards for student behavior.

Technological resources must meet or exceed the following standards before they may be considered for implementation:

1. Technological resources must support the Common Core State and North Carolina Essential Standards or the programs of the school system.
2. Technological resources must support the current use of learning and instructional management technologies in the school.
3. Technological resources must be compatible with current the condition of the network and other infrastructure resources. The technology director shall set minimum standards for technological resources that are purchased or donated. Upgrading, hardware conditions and similar requirements must be maintained to the highest standards.
4. There must be sufficient staff to operate and maintain the technological equipment, programs and systems.
5. There must be adequate funds budgeted to implement and support the technological resources and to train instructional staff to use the resources to improve educational outcomes.

B. DEPLOYMENT OF TECHNOLOGY TO SCHOOLS

The superintendent shall oversee the development of the school district's technology deployment plan. The plan will be designed to ensure organized, effective and efficient means of deploying new information and communications technologies. The superintendent/designee shall develop procedures and practices that outline the strategy of the technology deployment plan.

C. BRING YOUR OWN TECHNOLOGY (BYOT) INITIATIVE

The superintendent is authorized to investigate and develop a plan to allow staff and students the option to use their personal electronic devices in place of or along with their school system assigned devices. The plan should address, at a minimum, the instructional use of personal devices, compatibility requirements, access limitations or requirements, content filtering, security and other issues as recommended by the technology director. The plan should assign personal responsibility to the user for repair and replacement of damaged or stolen devices and for any data or other charges arising from use of a personal device. The plan should require a written agreement for the use of personal technology devices from each student and staff member who wishes to participate in the BYOT initiative. The plan should ensure that students who are unable to bring in outside technology will be able to access and utilize school equipment so that no student is excluded from instruction due to lack of access to technology.

D. ELECTRONIC COMMUNICATION AND OTHER COLLABORATIVE TOOLS

The superintendent is authorized to permit instructional personnel to incorporate social networking sites, blogs, wikis, video sharing sites, podcasts, video conferencing, inline collaborations, PDAs, IMing, texting, virtual learning environments and/or other forms of direct electronic communications or Web 2.0 applications for educational purposes to the extent the superintendent deems appropriate and in accordance with policy 7335, Employee Use of Social Media. The superintendent shall establish parameters and rules for use of these tools and shall require instruction for students in how to use such tools in a safe, effective and appropriate way. Instructional personnel shall make all reasonable attempts to monitor student online activity and shall otherwise comply with the requirements of policy 3225/4312/7320, Technology Responsible Use, when using these tools.

E. TECHNOLOGY-RELATED PROFESSIONAL DEVELOPMENT

The superintendent shall plan a program of technology-enabled professional development that prepares the instruction staff for utilizing digital tools and resources. Professional development shall emphasize technology integration and continuous improvement, including the use of ongoing technology-integrated, online-learning activities throughout the course of study. Professional development shall also address the ethical, legal and practical issues related to social networking and mobile devices in the classroom.

and other topics deemed necessary by the superintendent or technology director. School improvement teams should identify any staff development appropriations for technology related professional development in their school improvement plans. The superintendent and technology director should assist schools in coordinating staff development needs as provided in policy 1610/7800, Professional and Staff Development.

The board believes that time is a variable in the educational process and that children may need different amounts of instructional time in order to fulfill the educational goals and objectives of the board. The board also recognizes that the school day and school year should be planned in a manner to facilitate student learning and to permit an accurate assessment of student achievement in scheduled testing periods.

A INSTRUCTIONAL TIME

Interruptions of instructional time and time off task must be kept to a minimum. The principal is responsible for ensuring that instructional time is maintained and protected in the school schedule. Each teacher is responsible for ensuring optimal use of instructional time in his or her classes. School personnel are encouraged to seek creative means of reducing transitional time and scheduling non-instructional activities. A proposal for alternative scheduling of classes or other such strategies may be a part of a school improvement plan.

B SCHOOL DAY

The length of the school day may vary from school to school if approved by the board of education. The “instructional” day includes only those hours a student is assigned to a teacher for the primary purpose of instruction. Breaks in the instructional day for changing classes, homeroom, lunch, pep rallies and similar non-instructional activities are not part of the instructional day and may not be counted towards the minimum instructional hour’s requirement established in Section D, below.

C OPENING AND CLOSING DATES

Except for year-round schools or schools operating under a modified calendar, the opening date for students will be no earlier than the Monday closest to August 26, and the closing date for students will be no later than the Friday closest to June 11.

The school board may offer supplemental or additional educational programs or activities outside the adopted school calendar.

Upon a showing of good cause, as defined, by G.S. 115C-84.2(d), the board will seek a waiver of the opening closing dates from the State Board of Education.

D. SCHOOL CALENDAR

The school calendar in all schools will be for 215 days and will provide for a minimum of 185 days or 1025 hours of instruction covering at least nine months. A school “month” is defined as 20 days of instruction. If school is closed early or opened late due to inclement weather, the day and the number of instructional hours originally scheduled may count towards the required minimum number of instructional days or hours. As funding permits, the board may pursue increasing the number of instructional hours or days, at least for those students who need more time to learn the curriculum.

The board may initiate or review recommendations from the superintendent or a school improvement team for modifying the traditional school calendar to a year-round calendar. The superintendent and individual school are encouraged to obtain input from teachers and other personnel as well as from the community in developing proposals for modifying the school calendar. A year-round school may be included as a part of a school improvement plan.

Any calendar adopted by the board will be consistent with the following requirements.

1. The calendar will consist of 215 days and shall meet state requirements for the minimum instructional days and/or the minimum instructional hours.
2. At least ~~ten~~ **10** of the days on the calendar will be designated as annual vacation leave days.
3. The calendar will include the same or an equivalent number of legal holidays as those designated by the State Personnel Commission for State employees, including Veteran’s Day if it falls on a weekday.
4. School will not be scheduled on Sundays.
5. The total number of workdays for teacher employed for a 10-month term will not exceed 195 days.
6. The calendar will designate “instructional” days, when students must be present.
7. The remaining days will be scheduled by the board, in consultation with school principals, as “flexible” days for use as teacher workdays,

additional instructional days or other lawful purposes. Before scheduling these “flexible” days, each principal shall work with the school improvement team to determine the days to be scheduled and the purposes for which they should be scheduled.

8. Of the “flexible” teacher days described in subsections D., the board will designate at least two days as protected days on which teachers may take accumulated vacation leave. All other “flexible” days may be designated as days on which teachers may take accumulated leave, but the board will give teachers at least 14 calendar days’ notice before requiring a teacher to work instead of taking vacation leave on any of these days. A teacher may elect to waive this notice requirement for one or more of these days.
9. The board may, due to school closings because of inclement weather or other reasons, use any of the “flexible” days designated in subsection D.7 above as make-up days for those instructional days that were missed. If necessary, these make-up days may be scheduled after the last day of student attendance. If either of the two protected days described in subsection D.8 above are scheduled as a make-up day, teachers may take accumulated vacation leave on the make-up day and will not be required to work.
10. If the school calendar requires students to attend on Memorial Day, each principal shall ensure that the significance of Memorial Day is recognized in the school on that day. If students are not scheduled to attend school on Memorial Day, recognition of the significance of Memorial Day will be provided at another time as part of the citizenship curriculum (see policy 3530, Citizenship and Character Education).
11. If the school calendar requires students to attend school on September 17, which is Constitution and Citizenship Day, each principal shall ensure that the signing of the United States Constitution is commemorated in the school on that day. If students are not required to attend school on September 17, the principal shall ensure that Constitution and Citizenship Day is commemorated during the preceding or following week (see policy 3530, Citizenship and Character Education).

CONFLICT RESOLUTION

Policy Code: **DRAFT** 3431

To create and maintain a safe, orderly and inviting learning environment, students must have the skills to resolve conflicts in non-violent ways.

All schools are encouraged ~~and any alternative school is required~~ to include a conflict resolution plan in the school improvement plan as provided in policy 3430, School Improvement Plans.

The central curriculum committee shall explore opportunities to integrate conflict resolution skills into the standard course of study and other curriculum.

CLASS RANKINGS

Policy Code: **DRAFT**3450

Class ranking is one method of measuring academic performance. The board also recognizes other means of evaluating student achievement, including grade point average, courses completed, rigorousness of curriculum, results of tests and assessments and recommendation letters.

High school principals ~~may~~ **shall provide for the compilation of** ~~compile~~ class rankings **to be listed on student transcripts** ~~periodically~~ and ~~may~~ make **class rank** ~~the~~ information available **periodically** to ~~a student~~ **s and their**, ~~his or her~~ parents or guardians, and to other institutions, at the request of the student or **the student's** ~~his or her~~ parents or guardians. While high school principals may designate a valedictorian and salutatorian, the board encourages principals, with input from teachers, parents and students, to develop alternative or additional means of recognizing academic achievements.

Principals shall ensure that class ranking is computed in a fair and consistent manner as provided in State Board of Education Policy GCS-L-004. The superintendent and principal shall ensure that students and parents receive adequate notice as to how class rank is calculated and shall provide written procedures on how students with equal grades, or grades that may be perceived as equal, will be treated. Nothing in this policy provides a student with any legal entitlement to a particular class rank or title. Although the student grievance procedure provided in policy 1740/4010, Student and Parent Grievance Procedure, may be utilized to resolve disputes formally, the board encourages parents, students and principals to reach a resolution informally on any matters related to class rank.

Updated:

The board recognizes the importance of setting rigorous graduation requirements to help ensure that students are receiving an education that will prepare them to be productive members of society.

In order to graduate from high school, students must meet the following requirements:

1. successful completion of all course unit requirements mandated by the State Board of Education (see Section A);
2. beginning in the 2014-2015 school year, successful completion of cardiopulmonary resuscitation instruction; and
3. successful completion of all other requirements mandated by the board as provided in this policy.

The principal shall ensure that students and parents are aware of all graduation requirements. Guidance program staff shall assist students in selecting their high school courses to ensure that students are taking all of the required units and selecting electives consistent with their post-graduation plans. For students who have transferred to the school system during high school, or who for other reasons have completed course work outside of the school system, the principal shall determine what course work will be applied as credit for graduation. The principal shall consider the requirements of the Interstate Compact on Educational Opportunities for Military Children (G.S. 115C-407.5) and the requirements of subsection D.3 of this policy in determining the graduation requirements for children of military families.

A. COURSE UNITS REQUIRED

~~Each students must meet the course unit requirements for one of the following courses of study. Students entering the ninth grade for the first time before the 2009-2010 school year must fulfill the requirements of the Career Prep, College Tech Prep, College/University Prep or Future-Ready Occupational Course of Study.~~ Beginning with the students entering the ninth grade for the first time in the 2009-2010 school year, all students must fulfill the course unit requirement of the Future-Ready Core Course of Study, unless they are approved for the Future-Ready Occupational Course of Study. Course unit requirements for the Future-Ready Core Course of Study differ depending on the year a student enters the ninth grade for the first time as set out in the tables below. In accordance with policy 3101, Dual Enrollment, and State Board of Education requirements, students may earn high school credit for college courses completed. In addition, students may earn credit for certain high school courses in the Future Ready Core Course of Study completed while in middle school, as authorized by the State Board of Education. Students

GRADUATION REQUIREMENTS

Policy Code: **DRAFT3460**

also have the opportunity to meet course unit requirements without completing the regular period of classroom instruction by demonstrating mastery of the course material in accordance with policy 3420, Student Promotion and Accountability, and State Board of Education requirements.

All awards of high school course credit must be consistent with State Board of Education requirements. Any inconsistency between board policy and State Board graduation requirements will be resolved by following the State Board requirements.

4. Future Ready Core Course of Study Credits Required for Students Entering Ninth Grade for the First Time in 2012-2013 and After.
Graduates must also complete this course of study as part of the 28 credits required for graduation, unless a differentiated diploma has been approved under policy 3460-R.

B. HIGH SCHOOL FINAL EXAMS AND END OF COURSE TESTING

High school students must take all required end-of-course (EOC) tests, NC Final Exams, and Career and Technical Education State Assessments (CTE Post-Assessments) required by the State Board of Education and pursuant to policy 3410, Testing and Assessment Program.

C. SPECIAL CIRCUMSTANCES

The board adopts the following policies with regard to graduation:

1. Honor Graduates

Honor graduates may be designated by principals on the basis of criteria established by the superintendent. Recognition of honor graduates may

be included in graduation programs.

2. Students with Disabilities

Graduation requirements must be applied to students with disabilities to the extent required by state and federal law and State Board policy.

3 Children of Military Families

In order to facilitate the on-time graduation of children of military families, the board adopts the following policy provisions for students covered by the Interstate Compact on Educational Opportunity for Military Children.

a. Waiver Requirements

Specific course work required for graduation will be waived if similar course work has been satisfactorily completed in another school system. If a waiver is not granted, school administrators shall provide the student with reasonable justification for the denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the superintendent or designee shall provide the student with an alternative means of acquiring the required coursework so that graduation may occur on time.

b. Testing Requirements for Graduation

The superintendent shall accept the following in lieu of any local testing requirements for graduation: (1) the end-of-course exams required for graduation from the sending state; (2) national norm-referenced achievement tests or (3) alternative testing. If these alternatives are not feasible for a student who has transferred in his or her senior year, subsection c below will apply.

c. Transfers During Senior Year

If a child of a military family who has transferred at the beginning or during his or her senior year is ineligible to graduate from the school system after all the alternatives listed above have been considered and the student meets the graduation requirements at his or her sending school, then school officials from the school system shall collaborate with the sending school system to ensure that the student will receive a diploma from the sending board of education.

4. Early Graduation

Graduation prior to that of one's class may be permitted on the basis of criteria approved by the board upon recommendation by the superintendent.

5. Graduation Certificate

Graduation certificates will be awarded to students in compliance with the policies of the State Board of Education.

6. Diploma Endorsements

Students have the opportunity to earn one or more of the following diploma endorsements identifying a particular area of focused study; (1) Career Endorsement, (2) College Endorsement (two options), and/or (3) North Carolina Academic Scholars Endorsement **and/or (4) a Global Languages Endorsement**. No endorsement is required to receive a diploma.

ALTERNATIVE LEARNING PROGRAMS/SCHOOLS

Policy Code: **DRAFT**3470/4305

A. PURPOSES

The board is committed to the goal of providing a safe and orderly learning environment in each school. The educational program and the student behavior management plan developed at each school, in addition to numerous other strategies identified in board policy are intended to create such an environment and to help each student be a successful and contributing member of the school community.

Alternative learning programs or schools are provided as an option for those instances in which a student's behavior management or academic performance needs cannot be met in a regular education setting. The purposes of an alternative program are (1) to intervene and address problems that prevent a student from achieving success in the regular educational setting; (2) to reduce the risk that a student will drop out of school by providing resources to help the student resolve issues affecting his or her performance at school; (3) to return a student, if and when it is practicable to the regular educational setting with the skills necessary to succeed in that environment; and (4) to preserve a safe and, orderly learning environment in the regular educational setting.

B. ALTERNATIVE LEARNING PROGRAMS/SCHOOLS

Alternative learning program and schools should serve the purposes described above. Such alternative education programs are expected to meet all board policy and state requirements. In addition, alternative education programs and support services should be designed to the students' transition back to the regular educational setting when appropriate.

All school personnel at alternative learning programs should receive training so that students enrolled in such programs or schools receive appropriate educational services.

The superintendent or designee shall direct school officials at each alternative learning program or school is required to develop a behavior management plan, a school improvement plan and a parental involvement plan in accordance with board policy. In addition, a conflict resolution plan, as provided in board policy 3431, Conflict Resolution, must ~~may~~ be included in the school improvement plan. The board encourages the principal and other school personnel, in developing these plans, to review successful alternative education programs and make effective use of the resources provided by the superintendent.

The superintendent and board will review these plans in accordance with board policy. While providing flexibility at the school level to develop the plans, the superintendent and board will not approve any plan that is not reasonably likely to meet the purposes of an alternative school.

Prior to implementing a new alternative learning program or school, the board will develop a program proposal that is consistent with the State Board of Education standards for alternative learning programs. The board then will then submit the proposal to the State Board for its review. After the proposal has been reviewed by the State Board, the board will consider any recommendations from the State Board to modify the proposal before implementing the alternative learning program or school.

The board **also** will review on a regular basis whether the school system's alternative learning programs and schools comply with State Board standards.

C. TRANSFER TO ALTERNATIVE LEARNING PROGRAMS OR SCHOOLS

Students generally are assigned to a school based on attendance area. However, as provided by law, the board may assign any student to a school outside of his or her attendance area in order for the student to attend a specialized school or for any other reason the board, in its sole discretion, deems sufficient. **The assignment or transfer of a student with a disability will comply with applicable federal and/or state requirements for students with disabilities.**

During the time a student is assigned to Montgomery Learning Academy they are not allowed on the premises of their "home school" without prior approval of the principal. Students assigned to Montgomery Learning Academy may not participate in any extracurricular activities, including athletics, clubs, etc.

However, if a student who attends Montgomery Learning Academy wishes to attend a special event at their "home school" they must have **prior approval** from the principal of their "home school" and Montgomery Learning Academy at least three (3) days before the event.

Students may be transferred to an alternative school on a voluntary or involuntary basis **or pursuant to a disciplinary suspension.** The transfer processes is provided below.

1. Responsibilities of Personnel at Referring School

In addition to any other procedures required by this policy, prior to referring a student to an alternative learning program or school, the principal of the referring school must:

- a. document the procedures that were used to identify the student as being at risk of academic failure or as being disruptive or disorderly;
 - b. provide the reasons for referring the student to an alternative learning program or school; and
 - c. provide to the alternative learning program or school all relevant student records, including anecdotal information.
2. Responsibilities of School Personnel at the Alternative Learning Program or School

In addition to any other procedures required by this policy, once a student is placed in an alternative learning program or school, the appropriate school personnel of the program or school must meet to review the student's records and any other documentation forwarded by the referring school. Based on these records and any input provided by the parent concerning the student's needs, the personnel at the alternative program or school shall determine the support services and intervention strategies that are recommended for the student.

If a student who is subject to G.S. 14-208-18 is assigned to an alternative school, the student must be supervised by school personnel at all times.

3. Voluntary Referral

The board encourages parental involvement in decisions regarding the child's education and in identifying effective options for addressing concerns regarding the child's behavior or academic performance.

Voluntary transfers are encouraged whenever possible. A voluntary transfer is an agreement by the parent, the principal and the disciplinary review committee that transfer is an appropriate option for the particular student. After agreement has been reached, the principal of the regular educational setting and the principal of the alternative learning program or school shall arrange the process and time for the transfer. The principal of the regular educational setting shall notify the superintendent of the

transfer.

4. Involuntary Referral

A student may be required to be transferred from the regular educational setting to an alternative program or school under any of the following circumstances:

- a. the student presents a clear threat to the safety of other students or personnel;
- b. the student presents a significant disruption to the educational environment at the regular educational setting;
- c. the student is at risk of dropping out or not meeting standards for promotion, and resources in addition to or different from those available at the regular educational setting are needed to address the issue;
- d. the student has been charged with a felony or a crime that allegedly endangered the safety of others, and it is reasonably foreseeable that the educational environment at the regular educational setting will be significantly disrupted if the student remains; or
- e. if the Code of Student Conduct provides for a transfer as a consequence of the student's behavior

Prior to an involuntary transfer in circumstances where a student is experiencing academic or developmental difficulties or chronic social/behavioral problems, the principal or disciplinary committee of the referring school shall document the student's behavior and academic performance and efforts to assist the student in the regular educational environment **as provided in Section C.1.** School administrators are encouraged to meet with the student's parents to try to reach a consensus on how to address the student's difficulties at school.

The preceding steps are encouraged, but not required in the case of an involuntary transfer arising from a disciplinary reassignment or when the student's behavior immediately endangers other students or personnel.

If an agreement for voluntary transfer is not reached and a basis for involuntary transfer exists, the principal may recommend to the

superintendent that the student be transferred to an alternative school. The principal must provide in writing (1) an explanation of the student's behavior or academic performance that is at issue, (2) documentation or a summary of the documentation of the efforts to assist the student in the student's regular educational setting if applicable; and (3) documentation of the circumstances that support an involuntary transfer.

A copy of the recommendation and other documentation must be provided to the parents by certified mail or in person.

If the superintendent approves the transfer, the principals of the regular educational setting and the principal of the alternative school shall make all necessary arrangements.

The parent may appeal the superintendent's decision to the board. The board will hear the appeal in closed session and will follow its procedures as provided in policy 2500, Hearings Before the Board. During the period of the appeal, the student may be transferred to the alternative school.

5. Assignment During a Long-Term or 365-Day Suspension

A student who receives a long-term or 365-day suspension may be offered services in the alternative learning program or school for a portion or the full duration of the suspension. See policy 4353, Long-Term Suspension, 365-Day Suspension, Expulsion. Any student who receives a long-term or 365-day suspension must be offered alternative education services unless the superintendent provides a significant or important reason for declining to offer such services. Alternative education services include, but are not limited to, the alternative programs or schools established in this policy in accordance with G.S. 115C-105.47A.

6. Assignment of Student Sex Offenders

The board may decide, pursuant to G.S. 115C-390.11(a)(2), to assign a student who is subject to G.S. 14-208.18 to an alternative learning program or school.

D. TRANSITION FROM ALTERNATIVE LEARNING PROGRAMS OR SCHOOLS

In most instances, the goal of the alternative school program is to return the student to the regular educational setting with the skills necessary to succeed in that environment as soon as practicable. The personnel of the alternative

learning program or school and those of the regular educational setting shall work together to help create a successful transition for the student.

If the student is not or will not be returned to the regular educational setting, the alternative learning program or school will assist in the student's transition to other educational settings, including other programs offered by the school system or a community colleges or vocational school.

E. ASSIGNMENT OF PROFESSIONAL PERSONNEL TO ALTERNATIVE LEARNING PROGRAMS OR SCHOOLS

When assigning professional personnel to an alternative learning program or school, the superintendent shall consider the experience and evaluation ratings of the professional employee who may be assigned to the program or school. As school system resources allow, the superintendent will strive to avoid assigning to an alternative school or program less experienced professional personnel or professional personnel who have received an evaluation rating of "less than "accomplished" within the last three years.

F. EVALUATION OF ALTERNATIVE LEARNING PROGRAMS OR SCHOOLS

1. State Accountability

The board will determine annually how each alternative school will participate in the State Alternative Schools' Accountability Model. The superintendent shall provide for this information to be reported to the North Carolina Department of Public Instruction by August 1 of each year.

4.2. Information to be Reported to the Board of Education

Each year, the board will evaluate each alternative learning program or school based upon reports provided by the superintendent and any other information the board wishes to consider. In addition to data required by policy 3430, School Improvement Plans, each alternative learning program or school must report the following information annually to the board:

- a. referral patterns from the regular educational setting, including age, race, gender and method of transfer (voluntary, **as an alternative to suspension or expulsion, or** involuntary, **or pursuant to suspension**);

- b. drop-out rates;
- c. how long students stay at the alternative learning program or school and where they go (including the regular educational setting, community college/technical schools or dropping out) when they leave the alternative program or school;
- d. the training and development of professional employees assigned to the alternative school;
- d. a list of services or programs that the alternative learning program or school coordinates with other governmental agencies; **and**
- f. the school's results under the state's alternative school's accountability model, as applicable, and**
- g. any other information the superintendent requires.

To assist the board in evaluating an alternative learning program or school, each alternative school or program's system safe schools plan must include measures of the effectiveness of the alternative program or school.

2.3 Items to be Considered

In addition to any other outcomes the board deems important, the board will determine whether:

- a. a diverse group of students is referred to the alternative learning program or school;
- b. the alternative learning program or school complies with the State Board standards,
- c. the alternative learning program or school incorporates best practices for improving student academic performance and reducing disruptive behavior;
- d. school personnel at the alternative learning program or school are well trained and are provided with appropriate professional development;

- e. the alternative learning program or school is organized to provide coordinated services;
- f. students at the alternative learning program or school receive high quality and rigorous academic instruction; and
- g. the alternative learning program or school assists students in transitioning back to the regular educational setting or to other educational settings.

EXTRACURRICULAR ACTIVITIES AND STUDENT ORGANIZATIONS

Policy Code: **DRAFT** 3620

The board recognizes the value of interscholastic athletics and extracurricular activities in promoting leadership and team skills, practicing democratic principles, and encouraging the lifelong learning process. Students are encouraged to participate in opportunities available at the school, including interscholastic athletics and student organizations. All activities are open to students enrolled in Montgomery County Schools and attending that school unless a restriction is justified and has been approved by the principal. The principal will ensure that students and parents are notified of the various opportunities for participation in extracurricular activities. The principal will establish any rules necessary for school and student initiated extracurricular activities.

A EXTRACURRICULAR ACTIVITY REQUIREMENTS

Participation in extracurricular activities, including student organizations and interscholastic athletics, is a privilege, not a right, and are reserved for students enrolled in Montgomery County Schools who are in good academic standing, who meet behavior standards established by the board and the school. Participation in extracurricular activities may be restricted if a student (1) is not performing at grade level as provided in board policy 3400, Evaluation of Student Progress; (2) has exceeded the number of absences allowed by board policy 4400, Attendance; (3) has violated the student conduct standards found in the 4300 series; or (4) has violated school rules for conduct. **In addition, in order to be eligible for interscholastic athletics participation, students must have been in daily attendance 85 percent of the previous semester and must meet all eligibility standards of the North Carolina High School Athletic Association, the North Carolina Department of Public Instruction, and any locally established requirements for interscholastic athletics participation.**

School administrators choosing to exercise its authority to restrict participation based upon any of the reasons provided in this paragraph shall provide this policy and any additional rules developed by the superintendent or the principal to all parents or guardians and students. The grievance procedure, provided in policy 1740/4010 Student and Parent Grievance Procedure, may be utilized by parents or students who believe a student has been aggrieved by a decision made pursuant to this policy.

B. SPECIAL CIRCUMSTANCES

1. Extracurricular activities may be used as a component of an at-risk student's intervention plan. The intervention plan may include providing for or restricting the student's participation in extracurricular activities. If the plan restricts the student's participation, the plan must include other intervention strategies

designed to improve student performance.

2. Students with disabilities must be accorded the legal rights required by federal and state law.
3. School administrators shall facilitate the inclusion and participation of transitioning military children in extracurricular activities, to the extent they are otherwise qualified, by;
 - a. Providing information about extracurricular activities to transitioning military children; and
 - b. Waiving application deadlines.

The board is committed to providing an environment at each school that is safe, orderly and inviting. The board believes that in most cases, a student should attend the school that serves his or her domicile. Under certain circumstances or conditions, however, the board provides parents the opportunity to request that their child attend a school outside of his or her attendance area (see policy 4150, School Assignment).

Pursuant to federal and State Board of Education requirements, the board will allow a student who attends a school designated as a persistently dangerous school or a student who becomes the victim of a violent criminal offense at his or her school to attend another school that the superintendent has identified as an eligible transfer school.

A. DEFINITIONS

For purposes of this policy, the following definitions apply:

1. Violent Criminal Offenses

Violent criminal offenses are the following crimes, as reported to the State Board of Education in accordance with State Board of Education Policy HRS-A-000:

- a. Homicide as defined in G.S. 14-17 and 14-18;
- b. assault resulting in serious bodily injury as defined in G.S. 14-32.4;
- c. assault involving use of a weapon as defined in G.S. 14-32 through 14-34.10;
- d. rape as defined in G.S. 14-27.2, 14-27.3, and 14-27.7A;
- e. sexual offense as defined in G.S. 14.27.4, 14.27.5, and 14.27.7A;
- f. sexual assault as defined in G.S. 14.27.5A and 14-33©(2);
- g. kidnapping as defined in G.S. 14-39;
- h. robbery with a dangerous weapon as defined in G.S. 14-87; and
- i. taking indecent liberties with a minor as defined in G.S. 14-202.1, 14-202.2, and 14-202.4.

A persistently dangerous school is a school in which:

- a. at least two violent criminal offenses were committed and a rate total of five or more such offenses were committed per 1000 students during each of the two most recent school years; and
- b. the conditions that contributed to the commission of such offenses are determined by the State Board of Education as being likely to continue into another school year.

3. Eligible Transfer School

An eligible transfer school is a school that is not designated as a persistently dangerous school, that offers instruction at the student's grade level and that the superintendent has identified as eligible for unsafe school choice transfer.

B. SCHOOL REVIEW OF VIOLENT CRIMINAL OFFENSES

Upon the commission of any violent criminal offense at the school on school property or off school property on a school-sponsored field trip, the principal and the school improvement team shall review the incident to determine whether any conditions or procedures at the school or in the school improvement plan need to be modified as a result of the incident. The principal shall provide a report of the review to the superintendent or designee.

C. IDENTIFICATION OF SCHOOLS AS PERSISTENTLY DANGEROUS

1. Conditions Contributing to the Commission of Violent Criminal Offenses

For any school in which at least two violent criminal offenses and at least five or more such offenses per 1000 students were committed on school property per 1000 students during each of the two most recent school years, the board will determine whether any changes need to be made in the school- or system-level school safety procedures. The superintendent shall report to the State Board of Education any conditions in the school that may have contributed to the commission of the violent criminal offenses and any plans that the board has to eliminate such conditions.

2. Probationary Schools

If the State Board of Education determines that a school should be placed on probation, during the probationary year the principal and school improvement team shall implement strategies to protect students from violent criminal offenses and to deter future offenses from occurring. Such

strategies must be incorporated into the school improvement plan. As necessary, the superintendent may request assistance from the Department of Public Instruction to help identify strategies for implementation.

3. Persistently Dangerous Schools

If the State Board of Education determines that a school is a persistently dangerous school, the superintendent shall assign personnel from the central office to review safety procedures at the school. The central office team also shall assist the school with creating and implementing a corrective action plan for the school. The corrective action plan should be based on an analysis of the problems at the school, should include strategies to improve safety at the school, and should identify any system-level policies and procedures that need to be modified. Any strategies identified for the corrective action plan should be incorporated into the school improvement plan.

Pursuant to the unsafe school choice transfer procedures provided below, a student who attends a persistently dangerous school will be allowed to transfer to another school that the superintendent has designated as an eligible transfer school.

As deemed appropriate, the board will pursue any appeals process available for review of a school's designation as probationary or persistently dangerous.

D. VICTIM OF A VIOLENT CRIMINAL OFFENSE

A student shall be considered the victim of a violent criminal offense when the following criteria are met:

1. the principal determines, based upon reasonable evidence, that the student has been the victim of any of the applicable offenses identified in this policy; and
2. the offense occurred while the student was on the grounds of the public school that he or she attends.

Pursuant to the unsafe school choice transfer procedures provided below, a student who is a victim of a violent criminal offense shall be allowed to transfer to another school that the superintendent has designated as eligible for transfer.

E. UNSAFE SCHOOL CHOICE TRANSFER PROCEDURES

The superintendent shall establish procedures to facilitate the transfer of

students when a school has been identified as persistently dangerous or when a student has been identified as a victim of a violent criminal offense. Such procedures must include the following elements:

1. notice to parents within 10 days of the determination that their child attends a school that has been identified as persistently dangerous or that their child has been identified as a victim of a violent criminal offense;
2. notice to parents that their student has the opportunity to transfer to another school that has not been identified as persistently dangerous, that serves the student's instructional level, and that the superintendent has designated as an eligible transfer school; this notice must be provided no later than 14 days before the start of the school year for students attending persistently dangerous schools and no later than 14 days after determining that a student has become a victim of a violent criminal offense.
3. identification of those schools, including any virtual schools, within the system that are eligible to receive unsafe school choice transfers;
4. identification of other options for unsafe school choice transfers if no schools in the school system are eligible;
5. a process for parents to request transfer upon receiving notification of the unsafe school choice transfer option;
6. a process to ensure that transfers are completed by the start of the school year for students attending a school designated as persistently dangerous or as expeditiously as possible but not later than the start of the school year for a student victim, except in extraordinary circumstances; and
7. a report to the State Board of Education and to the local board of education each student transfer made pursuant to this policy.

Transfers made because a student's school was designated as persistently dangerous will remain in effect as long as the school is so identified. Transfers made because a student was a victim of a violent criminal offense will remain in effect at least through the remainder of the school year in which the incident occurred.

F. TRANSPORTATION

Parents who decide to transfer their child pursuant to this policy are responsible for transportation of their child to the receiving school.

The board is committed to the safety of students and other persons on school property. In order to maintain a safe school environment, the superintendent and all school personnel shall enforce the provisions of this policy at all times.

A. REGISTERED SEX OFFENDERS BANNED FROM ALL SCHOOL PROPERTY

In accordance with G.S. 14-208.18, all persons who (1) are required to register under the Sex Offender and Public Protection Program AND (2) have been convicted of any offense in Article 7A of Chapter 14 of the General Statutes or any offense in which the victim was under the age of 16 years at the time of the offense are expressly forbidden to knowingly be present on any property owned or operated by the school system, including school buildings, athletic fields, playgrounds, parking lots, school buses, activity buses or other property of any kind for any reason, including attendance at sporting events or other school-related functions, whether before, during or after school hours. In addition, sex offenders subject to G.S. 14-208.18 may not attend or be present at any student function or field trip on or off school property that is (1) school-sponsored or (2) otherwise under the official supervision or control of school personnel. This policy applies to all covered sex offenders regardless of their relationship to or affiliation with a student in the school system. [\(Refer to the North Carolina Attorney General's publication *The North Carolina Sex Offender & Public Protection Registration Program*, p.13, for a description of which offenders are subject to G.S. 14-208.18 and thus, this policy.\)](#)

~~B. PERSONS PROHIBITED FROM SCHOOL PROPERTY~~

~~The superintendent or designee shall consult with the board attorney and create and maintain a list of the criminal offenses that subject a person to the requirements of Section A above.~~

~~C.~~ B. ENFORCEMENT

All school personnel must immediately report to a school administrator the presence or suspected presence of a known or suspected registered sex offender on school property. School administrators and other supervisory personnel shall report to the superintendent and law enforcement when they reasonably believe that a registered sex offender is or has been on school property or at a school event.

School administrators also shall notify the superintendent or designee of any known student or parent or guardian of a student at their school who is suspected to be a registered sex offender.

D. C. EXCEPTIONS

A person who is banned from school property under G.S. 14-208.18 may be on school property only under the following circumstances.

1. Students

Students who are subject to G.S. 14-208.18 may be on school property only in accordance with policy 4260, Student Sex Offenders.

2. Voters

Voters who are subject to G.S. 14-208.18 and are eligible to vote may be present on school property for the sole purpose of voting if the school property is being used as a voting place. The voter must notify the principal of the school that he or she is registered under the Registry Program and the voter must remain at all times in the portion of the school being used as the polling place. The voter must leave school grounds immediately after voting.

3. Parents or Guardians

a. An individual who is subject to this policy and is the parent or guardian of a student enrolled in school may be on school property only for the following reasons:

- 1) to attend a scheduled conference with school personnel to discuss the child's academic or social progress; or
- 2) at the request of the principal or designee, for any reason relating to the welfare or transportation of his or her child.

b. For each visit authorized by the principal in accordance with subsection (a) above, the parent or guardian must provide the principal with prior written notice of his or her registration on the Sex Offender Registry and notice of his or her presence at school. Notice of his or her presence at school includes the nature and specific times of the visit.

c. For each visit authorized by subsection (a) above, the parent or guardian must arrange to meet a staff member at the edge of school property, check in at the principal's office upon arrival and departure, and remain under the direct supervision of school personnel at all times. If school personnel are not available to supervise the parent or guardian during any visit, then the parent or guardian will not be permitted to enter or remain on school

property.

- d. For each visit authorized by subsection (a) above, the parent or guardian must comply with all reasonable rules and restrictions placed upon him or her by the principal, including restrictions on the date, time, location and length of meeting.

E. D. CONTRACTUAL PERSONNEL

In order to ensure compliance with this policy, each contract executed by the board must include a provision that requires the other party to the contract to conduct an annual check of the State Sex Offender and Public Protection Program and the State Sexually Violent Predator Registration Program on all employees who may be sent to perform tasks on or deliver products to school property. Persons who are subject to Section A of this policy may not be sent onto school property for any reason.

In addition, each time the board enters into any contract or agreement for contracted services that involve direct interaction with children, the contract must include a provision that requires the other party to the contract to conduct an annual check of the National Sex Offender Registry on all contracted employees who may have direct contact with children.

No contractor or employee of a contractor registered with the State Sex Offender and Public Protection Program, the State Sexually Violent Predator Program or the National Sex Offender Registry may have direct interaction with children. This provision applies to contracts with a single individual.

EMERGENCY EPINEPHRINE AUTO-INJECTOR DEVICES

Policy Code: **DRAFT 5024/6127/7266**

Anaphylaxis is a severe systemic allergic reaction from exposure to allergens that is rapid in onset and can cause death. Many severe allergies are undiagnosed, and students or others may experience their first severe allergic reaction while at school. Epinephrine auto-injector devices can be used to administer epinephrine to provide rapid, convenient first aid for persons suffering a potentially fatal anaphylactic reaction to anaphylaxis. This policy addresses the use of emergency epinephrine auto-injector devices administered under a non-patient specific standing order prescription. Student-specific orders for epinephrine auto-injector devices are addressed in policy 6125, Administering Medicines to Students.

Designated trained school personnel are authorized to use emergency epinephrine auto-injector devices to deliver emergency medical aid to any person suffering from an anaphylactic reaction during the school day or at a school-sponsored event on school property. The superintendent shall ensure that at least two emergency epinephrine auto-injector devices are located at each school for this purpose and are stored in secure, but unlocked and easily accessible, locations.

Each school principal shall designate one or more school personnel, as part of the medical care program under G.S. 115C-375.1, to receive initial training and annual retraining from a school nurse or qualified representative of the local health department regarding the storage and emergency use of epinephrine auto-injector devices. Only such trained personnel are authorized to administer epinephrine to persons believed to be having an anaphylactic reaction. The principal shall make reasonable efforts to notify other school staff members as to which employee(s) has received this training in order to facilitate a prompt emergency response.

The principal, in collaboration with appropriate school personnel, shall create an emergency action plan for the use of epinephrine auto-injector devices that complies with all state law requirements. Principals are encouraged to include in the plan school-wide employee training in recognizing symptoms of anaphylaxis.

Epinephrine auto-injector devices provided by the school are not intended for unforeseen emergencies, and cannot be used, as the sole supply for s Students known to have medical conditions requiring the availability of an epinephrine auto-injector device are expected to provide such devices for their use at school. Parents of students with known life threatening allergies and/or anaphylaxis should provide the school with written instructions from the students' health care provider for handling anaphylaxis and all necessary medications for implementing the student specific order in accordance with policy 6125, Administering Medicines to Students. Students who meet the conditions established in policy 6125 may possess and self-administer their own medication.

This policy does not require emergency epinephrine auto-injector devices to be available at activities held off school grounds during or after the school day, including field trips or off-site athletic events, or during transportation to or from school, except as may be required pursuant to an individual student's IEP, Section 504 Plan, or health or emergency plan.

All employees or other individuals who select food or beverages to be sold to students on a school campus during the school day shall select and procure such foods and beverages in a manner consistent with the goals established by the board in policy 6200, Goals of School Nutrition Services, and policy 6140, Student Wellness, and with all state and federal laws and regulations. Additionally, in furtherance of the board's goals, the board establishes the following standards for school meals and other foods sold or available on school campuses.

A. SCHOOL MEAL REQUIREMENTS

Meals and snacks provided through the National School Lunch, School Breakfast, and After School Snack Programs must comply with all federal nutrition standards applicable to the respective program, including meal component requirements and dietary standards.

B. FOODS OTHER THAN THE SCHOOL LUNCH PROGRAM

1. Definitions

a. School day

As used in this policy "school day" means the period from midnight through 30 minutes after the dismissal bell rings.

b. Competitive foods

Competitive foods are **A** a all foods and beverages, other than meals reimbursed through the federally-funded school nutrition programs, available for sale to students on campus during the school day.

2. **Foods Sold From Midnight Until the End of the Last Lunch Period**

The sale of food and beverages between 12:01 a.m. midnight and the end of the end of the school day is the responsibility of the Child Nutrition Program (CNP) and the (CNP) will retain the proceeds. No foods or beverages may be sold to students on any school campus during that time period except through the Child Nutrition Program. The school principal and CNP personnel shall ensure that all competitive foods, including vended a la carte and all other a la carte or

supplemental food and beverages, sold during that time period, ~~including vended a la carte items,~~ meet the federal Smart Snacks nutrition standards.

3. ~~Foods Sold Between the Last Lunch Period and the End of the School Day~~

~~Each year, through its School Nutrition Program Annual Agreement, the board will establish accountability for the sale of competitive foods during the period between the end of the last lunch period and the end of the school day. All foods sold during that period must comply with the federal Smart snacks nutrition standards. This includes foods sold in vending machines (see subsection B.4, below), in school stores, and in other sales venues on the school campus.~~

3. Foods Sold After the School Day

Foods sold after the school day are not subject to the federal Smart Snacks standards but are subject to any school rules established pursuant to policy 6140, Student Wellness.

4. Vending Sales During the School Day

In elementary schools, no beverage or snack vending to students is permitted outside of the School Nutrition Program.

In middle and high schools, all vended snack foods and beverages sold during the school day are the responsibility of the Child Nutrition Program (CNP) and the CNP will retain the proceeds. All vended snack foods and beverages must meet the federal Smart Snacks standards and any more restrictive state requirements.

Bottled water must be available in every school that has beverage vending.

5. Fund-Raising Activities Involving Food or Beverages

All fund raising activities that involve the sale of food or beverages to students ~~during the school day must comply with the federal Smart~~

~~Snacks standards can not take place until. However, no such fund-raising activities or tokens of exchange of foods or beverages are permitted from midnight until 30 minutes after the school day ends. the end of the last lunch period. Tokens of exchange for foods or beverages to be delivered later in the day are also prohibited until 30 minutes after the school day ends..~~

Fund-raising activities that are conducted after the school day are not required to comply with the federal Smart Snacks nutrition standards, but are subject to policy 6140, Student Wellness, and any school rules established pursuant to that policy.

Fund raising activities that do not involve the sale of food or beverages to students are allowed during the school day.

6. Foods Brought from Home for School Events

Each school principal may establish standards for food and beverages brought from home to be shared for classroom events or parties during the school day or for extracurricular activities after school. The board encourages principals to establish rules that are consistent with the Smart Snacks nutrition standards.

7. Responsibility for Compliance with the Limits on the Sale of Competitive Foods

The limitations on the sale of competitive foods during the school day established by law and this policy are intended to encourage students to develop healthy eating habits and to ensure the ability of the schools to provide nutritious meals at the lowest possible cost.

All employees, student groups, volunteers, school support organizations, and other parties within the school environment must comply with the restrictions and conditions on the sale of competitive foods to the students during the school day imposed by federal and state law, this policy, and the terms of the board's School Nutrition Program Annual Agreement.

The superintendent shall hold each principal responsible for consistent enforcement of this policy.

8. Consequences for Non-Compliance with the Limits on the Sale of competitive Foods.

Employees will be subject to disciplinary sanctions for violating the requirements pertaining to the sale of competitive foods as described in this or other relevant board policy, the board's School Nutrition Program Annual Agreement, or federal or state law or regulation. Discipline may include suspension or dismissal for repeated willful violations. The superintendent may take all reasonable steps necessary to prevent violation of the competitive foods rules by any student or student group, volunteer, school support organization, or other party.

If a school is found by the North Carolina Department of Public Instruction to be in violation of the rules pertaining to the sale of competitive foods as established in federal or state law or State Board of Education policy TEC-S-000 and the violations results in a monetary sanction against the Child Nutrition Program, the superintendent may require the school's principal to reimburse the Child Nutrition Program from the operating account of the school.

Nothing in this policy is intended to regulate or limit foods that students bring from home as part of a bag lunch.

The board recognizes that an effective staff is critical to the smooth operation of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers, and other licensed professionals, excel in their performance. It is the intent of the board to employ only those licensed employees who continuously exhibit a pattern of behavior that exemplifies excellent performance.

The board places a high priority on securing the most competent personnel available and, once they are employed, in assisting them in their professional growth and development throughout their careers. An effective evaluation program that clearly describes an employee's performance is a critical aspect of professional growth and assistance. Further, performance evaluation data is an important factor for consideration in decisions regarding continued employment. The superintendent must be able to substantiate any recommendation for continued employment with evaluation data, among other factors.

The superintendent is directed to develop and implement an effective evaluation system for licensed personnel that is consistent with State Board of Education policies. School administrators who are responsible for conducting evaluations shall comply with all state requirements with regard to the type and frequency of evaluation. The school principal shall evaluate teachers and may incorporate any guidelines or strategies developed by the State Board to assist in the evaluations. The superintendent or designee shall evaluate principals and assistant principals.

All licensed personnel must be evaluated at least annually using state-approved evaluation instruments in conformance with **any the** processes established by the State Board **in the North Carolina Educator Evaluation System** for that class of personnel. **Teachers with fewer than three consecutive years of experience shall be evaluated annually in accordance with the comprehensive evaluation cycle established in State Board Policy TCP-C-004.** For **teachers with three or more years experience** a career teacher, the abbreviated evaluation process established in State Board Policy TCP-C-004 **is sufficient to satisfy** annual evaluation requirement; however, a teacher receiving an abbreviated evaluation may request that the evaluator conduct a formal **evaluation observation**. In addition, in any given year, the principal may elect to use the **comprehensive or standard** formal evaluation process **es** set forth in **the** State Board of Education Policy TCP-C-004 **or require additional formal or informal observations** to evaluate a **teacher with three or more years of experience** career teacher. **The principal also may supplement the State Board evaluation processes for other categories of licensed personnel by requiring additional observations or**

other evaluation measures. The annual evaluation of principals and assistant principals must include a mid-year review.

The evaluation system must incorporate the following directives.

1. Evaluators must clearly identify exemplary performance as well as deficiencies in performance.
2. Evaluators are encouraged to use supplementary means of assessing and documenting performance in addition to the state performance standards, assessment rubrics and evaluation instruments, including but not limited to, additional formal observations, informal observations, conferences, review of lesson plans and grade books, interactions with the employee, plans of growth or improvement and any other accurate indicators of performance.
3. Student performance and other student outcome data will be considered as a part of the evaluation of licensed personnel, as provided in the assessment rubric for the class of employees under evaluation. For teachers, such data shall include analysis of student work for performance-based courses and student performance as measured by the statewide growth model for educator effectiveness or as otherwise authorized by the State Board of Education and approved by the local board. Multiple means of assessing student performance must be used whenever possible. If only one method is used to measure student performance, it must be a clearly valid tool for evaluating an employee's impact on student performance.
4. Peer observations of **probationary** teachers **with fewer than three consecutive years of experience** must be conducted as required by law using the evaluation instrument and process established by the State Board and must be considered by the school administrator in evaluating teacher performance.
5. Supervisors and principals should facilitate open communication with employees about performance expectations.
6. An employee who is unclear about how performance is being assessed or who desires additional evaluation opportunities should address these issues with his or her immediate supervisor.
7. Evaluators will be held accountable for following the evaluation system and all applicable state guidelines on the evaluation of employees.

8. Evaluation data will be submitted to the central office personnel file in accordance with state law and policy 7820, Personnel Files.
9. Evaluation data will be used in making employment decisions, including decisions related to professional and staff development (see policy 1610/7800, Professional and Staff Development), ~~career status (see policy 7410, Career Status)~~ and suspension, demotion and dismissal of employees (policy 7930, Professional Employees; Demotion and Dismissal, and policy 7940, Classified Personnel; Suspension and Dismissal). Employment decisions may be made by the board and administration regardless of whether evaluators have followed the evaluation system, so long as there is a legally sufficient basis for the decisions.
10. The superintendent and all evaluators are encouraged to develop ways to recognize distinguished performance and to capitalize on the abilities of such exemplary employees in helping other employees. The superintendent and evaluators are encouraged to involve employees in developing these processes.

The superintendent shall develop any other necessary procedures and shall provide training, as necessary, to carry out the board directives and to meet state requirements.

PROFESSIONAL PERSONNEL REDUCTION IN FORCE

*PolicyCode:***DRAFT 7920**

The purpose of this policy is to establish an orderly procedure for reducing the number of licensed, professional employees of the school system.

A. GROUNDS FOR REDUCTION IN FORCE

A reduction in force may be implemented when the board determines that any of the following circumstances have resulted in the need to decrease the number of licensed professional positions:

1. System Reorganization

System reorganization is defined as (a) the closing, consolidation or reorganization of schools, school buildings or facilities (b) the elimination, curtailment or reorganization of a curriculum offering, program or school operation; or (c) the merger of two or more school systems.

2. Declining Enrollment

Declining enrollment exists (a) when the enrollment or projected enrollment for the next succeeding school year causes a decrease in the number of teaching or administrative positions allocated by the State or any other funding source; or (b) when the enrollment or projected enrollment of a curriculum offering or program for the next succeeding school year is inadequate to justify continuation of the course or program.

3. Financial Exigency

Financial exigency means (a) any significant decline in the board financial resources that compels a reduction in the school system's current operational budget; (b) any significant decrease or elimination in funding for a particular program; (c) or any insufficiency in funding that would render the board unable to continue existing programs at current levels.

B. PRELIMINARY DETERMINATION

1. The superintendent shall determine whether or not a reduction in force for licensed employees is necessary, appropriate or in the best interests of the school system.
2. If the superintendent decides to recommend to the board a reduction in force, he or she shall first determine which licensed positions shall be subject to the reduction. In making that determination, the superintendent shall account for both:
 - a. structural considerations, such as identifying positions, departments, courses, programs, operations and other areas where there are (1) less essential, duplicative or excess personnel; (2) job responsibility and/or position inefficiencies; (3) opportunities for combined work functions; and/or (4) decreased student or other demands for curriculum, programs, operations or other services; and
 - b. organizational considerations, such as anticipated organizational needs of the school system and program/school enrollment.
3. The superintendent shall then present a recommendation to the board. The recommendation must include:
 - a. the grounds for reduction in force;
 - b. the licensed positions to be reduced, categorized by area(s) of licensure and/or program responsibility; and
 - c. the background information, data and rationale for the recommendation.
4. The board will review the superintendent's recommendation and will determine whether to reduce the number of licensed employees or to reduce their terms of employment.
5. If the board, after exploring, considering and discussing a variety of ways to avoid a reduction in force, determines that a reduction in force of licensed employees is necessary, the superintendent shall recommend to

the board which individuals are to be dismissed, demoted or reduced to part-time employment, based on the criteria set forth below.

C. CRITERIA

The primary consideration in any reduction in force will be the maintenance of a sound and balanced educational program that is consistent with the functions and responsibilities of the school system. The superintendent shall consider a variety of factors in determining which employees will be included in the reduction in force, including the following ~~in determining which employees will be included in the reduction in force~~:

1. performance ratings;
2. areas of licensure;
3. highly qualified status;
4. program enrollment;
5. service in extra duty positions and ability to fill such positions;
6. length of service, with higher priority given to service in this school system; and
7. degree level.

The superintendent shall develop a system for using the above-mentioned factors to determine which employees will be recommended to the board for inclusion the reduction in force.

D. PROCEDURE FOR TERMINATION

The board will consider the superintendent's recommendation and may, by resolution, order dismissal or demotion of an individual or reduce an individual to part-time employment. All requirements of G.S. 115C-325 (for teachers with career status) and 115C-325.6 (for non-career status teachers) will be met, including time limits and procedures for notice and opportunity for a hearing, when any teacher with career status (as defined in G.S. 115C-325) or teacher or administrator (as defined in G.S. 115C-325.1) is terminated, demoted or reduced to part-time employment due to reduction in force.

E. TERMINATION/REEMPLOYMENT OF A CAREER EMPLOYEE

When a teacher with career status is dismissed in accordance with this policy, his or her name will be placed on a list of available employees to be maintained by the board.

F. NONRENEWAL OF AN EMPLOYEE

The board, upon recommendation of the superintendent, may refuse to renew the contract of a non-career status teacher ; to offer a new, renewed or extended contract to a school administrator; or to reemploy any non-career status teacher who is not under contract for any cause it deems sufficient (see policy 7950, Non-Career Status Teachers; Nonrenewal). A decision (1) not to renew a non-career status teacher's contract, (2) not to renew, extend or offer a new contract to a school administrator or (3) to not reemploy any non-career status teacher who is not under contract is not considered a "termination" under this policy. In such circumstances the procedures set forth in this policy are not required to be followed before the board's decision.

SELECTION AND EVALUATION

The superintendent will select and the board will approve a school finance officer. The finance officer will serve at the pleasure of the superintendent. The superintendent will evaluate the finance officer to help ensure that all duties as required by law, board policy or the superintendent are met.

DUTIES

The school finance officer provides critical services for the effective planning and use of fiscal resources. The school finance officer will be responsible to the superintendent for:

1. keeping the accounts of the school district in accordance with generally accepted principles of governmental accounting, board policy, the rules and regulations of the State Board of Education, and the rules and regulations of the Local Government Commission;
2. giving the preaudit certificate required by G.S. 115C-441 and establishing procedures to assure compliance;
3. signing and issuing all checks, drafts, and state warrants by the school district;
4. investing the cash balance of any funds, subject to board policy 8110, Budget Resolution;
5. receiving and depositing all moneys accruing to the school district;
6. preparing and filing a statement of the financial condition of the school district as often as requested by the superintendent;
7. preparing and filing a statement of the financial condition of the school district when requested by the board of education or the board of county commissioners, but only if such requests are in writing and copied to the superintendent;
8. performing such other duties as may be assigned by law, by the superintendent, or by rules and regulations of the State Board of Education and the Local Government Commission;
9. submitting reports to the Secretary of the Local Government Commission as required

required by law;

10. receiving and accounting for all clear proceeds of fines, penalties and forfeitures and notifying the superintendent and board of such funds;
11. reviewing school improvement plans which provide for the transfer of funds between funding allotments or lease purchase contracts;
12. evaluating all continuing contracts, including the principal and interest to be paid and making recommendations to the superintendent and reports to the superintendent and board as provided in board policy 6425, Continuing Contracts;
13. assisting the superintendent in the development of the budget;
14. prescribing the form and detail of records maintained by the school treasurer;
15. making salary deductions as provided in policy 7620, Payroll Deductions;
16. maintaining custody of the facsimile signature device as provided in policy 8330, Facsimile Signatures; **and**
17. maintaining custody of insurance policy and programs as provided in policy 8340, Insurance.

FIDELITY BOND

The finance officer will carry a true accounting and faithful performance bond as provided in board policy 8530, Fidelity Bonds.
