- 1. providing every student with the opportunity to receive a sound basic education as defined by the North Carolina Supreme Court in *Leandro v. State*;
- +.2. providing leadership and direction through the formulation of goals and objectives, especially in defining and setting high academic standards for student success;
- 2.3. creating policies that establish standards, accountability, and evaluation of essential operations of the school system;
- 3.4. taking steps necessary to help ensure legal compliance of board and school system functions;
- 4.5. performing judicial functions by conducting hearings as appropriate or as required by law regarding decisions of school system personnel or the board;
- 5.6. hiring a superintendent, supporting the superintendent in his or her administration, and evaluating and responding to recommendations made by the superintendent, including recommendations pertaining to the educational program and facility needs;
- 6.7. considering the budget recommended by the superintendent, presenting the budget to the county commissioners, and adopting a budget after evaluating whether the county commissioners' appropriation is sufficient to support a system of free public schools; and
- 7.8. being an advocate for the school system, for employees, and especially for students in all interactions with other governmental entities and the public.

Policies are the primary means by which the board expresses its vision for the school system. In formulating specific policies, the board is guided by <u>its duty to provide students with the opportunity to receive a sound basic education as defined by the North Carolina Supreme Court in Leandro v. State. It is further guided by governing principles it considers critical to <u>meet that obligation by providing a system of excellent schools where students can succeed. These governing principles are referenced frequently in the board policies and also are set out below.</u></u>

- 1. <u>Student success</u>. As its top priority, a system of excellent schools provides opportunities for individual students to succeed and overall student performance to improve.
- 2. <u>Parental involvement</u>. A system of excellent schools involves parents in decisions regarding their own children, the educational program, and the schools.
- 3. <u>Safe, orderly, and inviting environment</u>. A system of excellent schools creates and maintains a safe and orderly environment where staff and students are focused on and excited about learning.
- 4. <u>School initiatives</u>. In a system of excellent schools, each school initiates improvements to the educational program and services for students and involves staff, parents, and students in school-level decision-making processes.
- 5. <u>Professional development</u>. A system of excellent schools provides continuous professional development and training to help personnel gain the skills and knowledge needed to meet State Board and local board expectations, especially as they relate to improving student performance.
- 6. <u>Removal of barriers</u>. A system of excellent schools prohibits illegal discrimination and harassment of staff and students, encourages tolerance and respect, and seeks to eliminate or lessen other barriers that may impede a student's ability or opportunity to learn, including economic disadvantages, poor nutrition, ill-health, and lack of transportation.
- 7. <u>Stewardship of resources</u>. A system of excellent schools conserves financial and environmental resources and operates in an efficient manner.

Safe schools are critical to creating a learning environment in which students can succeed. Staff and students share the responsibility for taking reasonable precautions and following established safety measures to create and maintain safe schools. The following safety measures must be implemented at each school.

# A. SUPERVISION OF STUDENTS

Students must be reasonably supervised while in the care and custody of the school system. This supervision must occur throughout school hours, including during class, between classes, on the playground, and during recess or lunch periods; during authorized school field trips; and on school buses. Reasonable precautions should be taken to protect the safety of students on school grounds and on buses before, during, and after school.

Students who are subject to policy 4260, Student Sex Offenders, and are receiving educational services on school property must be supervised by school personnel at all times.

#### **B.** SUPERVISION OF VISITORS

School administrators shall strictly enforce policies 5015, School Volunteers, and 5020, Visitors to the Schools.

# C. SAFETY OF SCHOOL BUILDINGS AND GROUNDS

The superintendent and each building principal shall comply with all duties set out for their respective positions in G.S. 115C-288(d) and G.S. 115C-525 to minimize fire hazards. The principal is required to inspect school buildings, playgrounds, and equipment for health, fire, and safety hazards on a regular basis, as required by law, and to notify the superintendent immediately of unsanitary conditions or repairs needed to meet safety standards.

Any employee who observes any potential hazards must notify the principal or the employee's supervisor immediately.

All warning systems must meet building and equipment codes required by law and must be properly maintained. When necessary, proper signs indicating potential hazards or recommended safety precautions must be posted.

# D. ESTABLISHING PROCESSES TO ADDRESS POTENTIAL SAFETY CONCERNS AND EMERGENCIES

1. Responding to Student Altercations and Other Threats to Safety

All school system employees have a duty to be alert at all times to situations that may pose a threat to the safety of students, employees, or visitors on school property, at school events, or in other situations in which the students are under the authority of school employees. Even an employee who does not have responsibility for supervising students is expected to make an immediate report if the employee observes or has reason to suspect that a situation poses a threat to safety and no administrator, teacher, or other supervisory employee is present and aware of the potential threat.

Teachers, teacher assistants, coaches, and other employees with responsibility for supervising students will use appropriate student behavior management techniques to maintain order and discipline on school property, at school events, and anywhere that students are under the employees' authority. Such employees must enforce the Code of Student Conduct and address student behavior in accordance with the school plan for management of student behavior (see policy 4302, School Plan for Management of Student Behavior).

When employees with responsibility for supervising students have personal knowledge or actual notice of a student altercation or other situation that poses an immediate threat to safety, they shall use their professional judgement to determine how best to address the situation to protect the safety of everyone in the vicinity. Emergency procedures identified in a student's Behavior Intervention Plan shall be followed to the maximum extent possible under the circumstances. For minor threats or altercations or altercations involving young children, the employee shall intervene directly to end the fight or address the safety threat if the employee can do so safely. An employee who encounters a situation that cannot be managed safely and effectively by that employee immediately shall request assistance from other employees or administrative staff and shall take steps to remove bystanders from the area. Only the degree of force or physical control reasonably necessary shall be used to re-establish a safe environment.

Employees should take further action as appropriate in accordance with any response protocols established by the principal or superintendent. All employees are responsible for knowing and following such protocols to the fullest extent reasonable under the circumstances at the time.

#### 2. School Rules

The principal or designee shall develop rules to help prevent accidents in school buildings, on school buses, and on school grounds.

#### 3. Training for Staff and Students

Staff training must include detailed instruction on how to respond to a variety of emergency situations. In addition, staff should be able to recognize and respond

to behavior, information, and related indicators that warn of impending problems. School personnel must teach and review with students (1) safety procedures, including fire safety procedures; (2) precautions for handling chemicals or potentially dangerous equipment; and (3) appropriate responses to threats to school safety.

# 4. Safety Equipment

School employees shall provide students with safety equipment as required by law and shall enforce school rules pertaining to wearing safety equipment. School employees shall wear and use appropriate safety equipment as required for the safe performance of their specific job assignments.

5. Planning for Emergencies and Conducting Fire Drills and Other Emergency Drills

The board, in coordination with local law enforcement and emergency management agencies, will adopt a school risk management plan relating to incidents of school violence for each school in the school systemsuperintendent shall develop system wide plans and procedures to address emergency situations. The superintendent must provide the Department of Public Safety's Division of Emergency Management (Division) with emergency response information it requests for the Sschool Rrisk Mmanagement Pplan and updated emergency response information when such updates are made the School Emergency Response Plan. The superintendent must also provide the Division and local law enforcement with schematic diagrams, including digital schematic diagrams, of all school facilities and updates of the schematic diagrams when the school system makes substantial facility modifications, such as the addition of new facilities or modifications to doors or windows. Schematic diagrams must meet any standards established by the Department of Public Instruction for the preparation and content of the diagrams. In addition, the superintendent shall provide local law enforcement with (1) either keys to the main entrance of all school buildings or emergency access to key storage devices for all school buildings and (2) with updated access to school buildings when changes are made to the locks of the main entrances or to the key storage devices when changes are made to the devices.

As appropriate, the superintendent shall consult with local law enforcement agencies and emergency responders to plan for and conduct emergency drills. At least one school-wide tabletop exercise and drill that meets the requirements of state law and is based on the procedures documented in the school risk management plan will be held annually at each school. Principals, with the assistance of both law enforcement and emergency responders as appropriate, shall also conduct fire drills as required by law. and shall conduct other emergency drills in accordance with school system emergency plans and procedures.

# 6. Reporting Suspicious Behavior

Students should notify any staff member of any acts of violence, harassment, or bullying or any other unusual or suspicious behavior that may endanger safety. Ongoing student education efforts will aim at minimizing any fear, peer pressure, embarrassment, or other impediments to students reporting potential problems.

Maintaining a safe school environment that is conducive to learning requires staff to be proactive in dealing with violence, harassment, and bullying. Staff members must report immediately to the principal any information regarding unusual or suspicious behavior or acts of violence, harassment, or bullying.

Every principal is required to investigate and act upon any report of such behavior, including, when appropriate, reporting criminal activities to law enforcement, the State Board, and the superintendent or designee (see policies 1710/4021/7230, Prohibition Against Discrimination, Harassment, and Bullying, 1720/4015/7225, Discrimination, Harassment, and Bullying Complaint Procedure, and 4335, Criminal Behavior).

The board will provide a written response within 30 days after receiving the appeal, unless further investigation is necessary or the hearing necessitates that more time be taken to respond.

#### E. TIMELINESS OF PROCESS

The number of days indicated at each step of the process should be considered a maximum. Every effort should be made to expedite the process.

If any school official charged with investigating the complaint or reviewing the investigation fails at any step in the process to communicate a decision within the specified time limit, the complainant will be entitled to appeal the complaint to the next step unless the official has notified the complainant of the delay and the reason for the delay, such as the complexity of the investigation, review, or report. The school official shall make reasonable efforts to keep the complainant apprised of progress being made during any period of delay. Delays that interfere with the exercise of any legal rights are not permitted.

Failure by the complainant at any step in the process to appeal a complaint to the next step within the specified time limit will be considered acceptance of the decision at that step, unless the complainant has notified the investigator of a delay and the reason for the delay and the investigator has consented in writing to the delay.

Policy Code: 1720/4015/7225

#### A. PRINCIPLES

Principals, assistant principals, teachers, and other instructional staff at each school are responsible for designing and implementing strategies to reach the educational goals of the board. Input from the school community, including parents, students, and representatives from businesses and other agencies, is critical in developing an educational program that will meet the needs of the students and the community.

The board affirms the General Assembly's belief that all children can learn and that the mission of public schools is to challenge, with high expectations, each child to learn, achieve, and fulfill his or her potential.

Accordingly, the board has established in its policies its vision, standards, and means of accountability for the educational program. The superintendent shall provide guidance and establish any other standards necessary for effective implementation of the board's policies. Principals shall lead each school in implementing the policies. The school improvement plan is one tool that school administrators should use to draw upon the creativity and innovation of the staff and the community. This plan, in its two parts, should identify the school's efforts to improve student performance and reach the educational goals of the board.

# B. PART ONE OF THE SCHOOL IMPROVEMENT PLAN: STATE PROGRAM FOR SCHOOL-BASED MANAGEMENT AND ACCOUNTABILITY

The board endorses the principles set forth by the State Board of Education that all children need to master basic skills and knowledge and build upon this foundation for lifelong learning. Therefore, in developing their school improvement plans, all schools should ensure, to the extent possible, that sufficient resources and curricula are directed toward meeting the goal of having all students performing at grade level or higher in the basic subject and skill areas identified by the State Board.

## 1. School Improvement Team

Each school must have a school improvement team that develops the school improvement plan. The school improvement team will consist of the principal, representatives of the assistant principals, instructional personnel, instructional support personnel and teacher assistants assigned to the school building, and parents of students attending the school. Each group of school personnel shall elect representatives from their respective group by secret ballot. Parents are to be elected in accordance with G.S. 115C-105.27(a). The school improvement team is encouraged to involve and seek assistance from central office personnel. The school improvement team, especially at the middle and high schools, also is encouraged to seek input from students. The superintendent shall provide

guidance to principals to ensure that the principals establish and work together with school improvement teams to develop, review, and amend school improvement plans.

The school improvement team shall follow all legal requirements in developing and obtaining school approval of the school improvement plan. School improvement team meetings will be held at a convenient time to facilitate substantial parent participation. The principal shall ensure that the school improvement team, as a public body, complies with the Open Meetings Law in regard to its meetings. Deliberations on the school safety components of the plan must be in closed session in accordance with G.S. 143-318.11(a)(8).

# 2. Mandatory Components of the State Plan

A school improvement plan must include the following components.

- a. The plan must specify the effective instructional practices and methods to be used to improve the academic performance of students identified as at risk of academic failure or at risk of dropping out of school.
- b. The plan must take into consideration the minimum annual performance goal established by the State Board and the goals set out in the mission statement for public schools adopted by the State Board of Education.
- c. The plan must be, to the greatest extent possible, data driven. The team shall use the Education Value Added Assessment System (EVAAS) or a compatible and comparable system approved by the State Board of Education to analyze student data to identify root causes for problems and determine actions to address them and to appropriately place students in courses such as <a href="Algebra-Math">Algebra-Math</a> I. The plan must contain clear, unambiguous targets, explicit indicators and actual measures, and expeditious time frames for meeting measurement standards.
- d. The plan must identify how staff development funds allocated to the school will be used.
- e. The plan must provide a duty-free lunch period for every teacher on a daily basis or as otherwise approved by the school improvement team.
- f. The plan must provide duty-free instructional planning time for every full-time assigned classroom teacher, with the goal of providing an average of at least five hours of planning time per week.
- g. The plan must attempt to identify and eliminate unnecessary and redundant reporting requirements for teachers and, to the extent practicable, streamline the school's reporting system and procedures,

including requiring forms and reports to be in electronic form when possible and incorporating relevant documents into the student accessible components of the Instructional Improvement System.

- h. As part of the school system's efforts to maintain safe and orderly schools, the plan must address safety and discipline concerns. These concerns include any special conditions at the school. The plan should include the components of any positive behavior management or positive behavior support programs that have been adopted at the school and should comply with the requirements of policy 1510/4200/7270, School Safety, and all protocols established by the superintendent or designee under that policy.
- i. For schools identified by the Department of Public Instruction as Focus or Priority schools, the plan must identify the interventions the school will implement to address students' academic needs. Such interventions must include strategies to address the needs of all children, particularly the lowest-achieving, and how those needs will be met in a timely and effective manner. If the school is identified as a Focus school as a result of not meeting participation rates in the state assessment program, the plan must include interventions to improve participation.
- j. In accordance with policy 1310/4002, Parental Involvement, the plan must identify the goals and strategies for parents to be involved in their child's education and in the educational program of the school.
- k. The plan must include a process by which the school improvement team will review the school improvement plan at least once a year. The annual review process must include (1) a review of student scores on all state-and board-mandated tests and (2) a means for the school improvement team to modify the plan, if necessary, when the school has not met the expected growth score established by the state.
- 1. The plan must require the principal to notify the superintendent if the school improvement team modifies a board-accepted school improvement plan.

# 3. Optional Components of the State Plan

Part One of the school improvement plan may include any or all of the following components.

a. The plan may include a request for waivers of state laws, rules, or policies.

Any waiver request must (1) identify the school making the request; (2) identify the particular state law, rule, or policy that inhibits the school's ability to improve student performance; (3) set out with specificity the circumstances under which the waiver may be used; and (4) explain how

the requested waiver will permit the school to improve student performance.

- b.a. The plan may include a request to transfer state funds from one allotment category to another, as permitted by state law. The request must identify the funding allotment categories involved in the transfer and identify how the transfer will facilitate improving student performance.
- e.b. The plan may include a comprehensive conflict resolution plan, as provided in G.S. 115C-81(a4), in order to help create a safe school.
- d.c. The plan may provide for the use of textbooks that have not been adopted by the State Board.

## 4. Development and Review of the Plan

School improvement teams should review student performance data from the preceding school year in developing the school improvement plan. Based on the availability of data and when specific school standards are established by the State Board, the superintendent shall establish the date by which school improvement plans must be submitted.

The principal first shall present the proposed school improvement plan to all of the assistant principals, instructional personnel, instructional support personnel, and teacher assistants assigned to the school building for their review and vote by secret ballot. The principal then shall submit the school improvement plan to the superintendent only if the proposed school improvement plan has the approval of a majority of the staff who voted on the plan.

The superintendent or designee shall review the plans and seek legal review as necessary prior to presenting the plans with written recommendations to the board. If the superintendent intends to recommend that a plan be rejected, the superintendent shall notify the principal of the school and explain the reasons for the decision. The school improvement team may then submit a modified plan, approved by staff vote, to the superintendent. The superintendent should submit all school improvement plans to the board at the earliest possible date.

The board will review the school improvement plans. The review of the school safety components of the plans must be in closed session. The board shall make findings on the safety components of the plan. Neither the safety components of the plans nor the board's findings on the safety components of the plans may be set out in the minutes of the board.

After review of the school improvement plans, the board will accept or reject each school improvement plan. If a plan is rejected, the board will explain the specific reason(s) for the rejection.

Any plan modified by the school improvement team after being rejected by the board must be resubmitted to the school personnel for vote and, upon majority approval, resubmitted to the superintendent for review. The superintendent shall resubmit the modified plan to the board with his or her recommendations as soon as is practical. The board will review the modifications along with any recommendations from the superintendent and accept or reject the plan.

If the board and the school improvement team cannot reach agreement on the plan within 60 days after its initial submission, the board or school may request to use the dispute resolution process developed by the State Board under G.S. 115C-105.20(b)(5). Alternatively, if use of the dispute resolution process is not requested, the board may develop a school improvement plan for the school.

A school improvement plan may be in effect for no more than two years. The plan must be reviewed at least annually by the school improvement team in accordance with the review process established in the school's plan. If a school does not meet its expected growth standard as established by the State Board or if more than 25% of the students performed below grade level, the principal must submit to the superintendent and the board a report of the school improvement team. The report must explain the reasons for the standard(s) not being met and describe any modifications that will be made in the school improvement plan. After considering any recommendations of the superintendent, if the board is not satisfied with the response of the school improvement team, the board may suggest modifications to the plan or may vacate those portions of the plan that impede student performance and require the school improvement team to revise the plan.

# 5. Elimination of Redundant or Unnecessary Reporting Requirements

If, at any time before or after the board approves the school improvement plan, the school improvement team identifies a more expeditious manner of providing information to the board that will eliminate a redundant or unnecessary reporting requirement for teachers at its school, the team may make a written request to the superintendent to eliminate the redundant or unnecessary report. The superintendent shall recommend to the board whether the reporting requirement should be eliminated for that school. If the superintendent does not recommend elimination of the reporting requirement, the school improvement team may request a hearing by the board as provided in policy 2500, Hearings Before the Board.

## 6. Compliance with Requirements

Any employee, parent, or other interested party is encouraged to notify the principal of any concerns regarding compliance with this policy or G.S. 115C-105.27. In addition, any employee, parent, or other interested party may submit in writing to the superintendent concerns regarding compliance with this policy or

G.S. 115C-105.27. The superintendent shall make a good faith effort to investigate the concern and shall provide a written response upon request.

# C. PART TWO OF THE SCHOOL IMPROVEMENT PLAN: LOCAL EDUCATION REFORM INITIATIVES

In addition to the basics emphasized in the state testing program, the board expects schools to be guided by the educational goals of the board. The board encourages the schools to consider innovative means of educating students to meet these educational goals. The board has established a vision, standards, and means of accountability in its educational policies to provide guidance to the schools. Many of these policies provide an opportunity for schools to develop innovative plans as a part of their school improvement plan. Part Two of the school improvement plan should reflect the school's efforts to meet the educational goals of the board.

# 1. Mandatory Components of the Local Plan

Part Two of the school improvement plan must include the following:

- a. strategies for meeting the educational objectives of the board (policy 3000, Goals and Objectives of the Educational Program); and
- b. intervention strategies for students who are not at grade-level proficiency or who are not likely to meet standards of promotion measured by other means (policy 3420, Student Promotion and Accountability).

# 2. Optional Components of the Local Plan

The board strongly encourages school employees to be innovative in their efforts to meet local educational goals. Although not limited to these options, the board has encouraged innovation specifically through its policies on the following issues:

- a. modifying the school calendar (see policy 3300, School Calendar and Time for Learning);
- b. implementing alternative scheduling of classes or other strategies intended to reduce transitional time and limit interference from non-instructional activities (policy 3300);
- c. adding hours of instructional time (policy 3300);
- d. providing additional means for evaluating instructional programs (policy 3140, Evaluation of Instructional Programs);
- e. developing and implementing pilot programs (policy 3110, Innovation in

Curriculum and Instruction);

f. expanding the subject areas or objectives of the curriculum (policy 3100, Curriculum Development); and

g. eliminating curricula on subject areas or objectives that are not state-required (policy 3100).

A school also may submit a request to the board for a waiver of board policies. Any waiver request must identify the particular board policy that inhibits the school's ability to improve student performance, set out with specificity the circumstances under which the waiver may be used, and explain how the requested waiver will permit the school to improve student performance.

#### 3. Process

Part Two of the plan should be submitted at the same time as Part One of the plan. However, a school improvement team may submit a request to the superintendent for an additional month to complete Part Two of the plan. The superintendent may approve the request if the school is working in good faith to complete the plan.

The board will act on the plan at the first meeting in which it is presented, unless further time for review is necessary. The board may accept the plan, with or without modifications, or reject the plan and provide an explanation of deficiencies of the plan. If modifications are required for board approval, the board may either make the modifications or request that the school improvement team make the modifications and resubmit the plan.

If a school improvement team is not satisfied with any modifications made by the board, it may submit to the board alternative modifications for consideration. Until the board acts on the school improvement team's alternative modifications, the modifications made by the board will be in effect.

Part Two of the plan may be in effect for no more than two years. The board encourages the school to evaluate the plan continually. At any time during the two-year period, a school improvement team may submit an expanded or modified school improvement plan for board consideration. Furthermore, at any time during the two-year period, the superintendent and the board may review the plan and the board may take any actions provided in this subsection.

# D. POSTING THE SCHOOL IMPROVEMENT PLAN ONLINE

The school improvement plan, except for its school safety components which are not public record, must be posted on the school's website. The names and positions of the members of the school improvement team, along with the date of each member's election

to the team, must also be posted on the website.

## E. STAFF DEVELOPMENT

The superintendent shall develop a process by which schools can learn from other schools' improvement plans. The superintendent and the schools are encouraged to use staff development resources to provide training to staff on the development, implementation, and evaluation of school improvement plans.

School administrators must be evaluated by their supervisors on the school-based management process as required by board policy and state law and on the effectiveness of the school improvement plan.

The board is committed to a sound, comprehensive health education program that provides students with accurate information and encourages them to be responsible for their own health and behavior. The board recognizes the primary role of parents in providing for the health and well-being of their children and seeks to involve parents as provided in this policy. The comprehensive health education program provided by the school system will meet the requirements of the Basic Education Program (BEP), G.S. 115C-81(e1), and aligned state-adopted standards. The board may, in its discretion, expand on the subject areas to be included in the program and on the instructional objectives to be met.

#### A. COMPREHENSIVE HEALTH EDUCATION PROGRAM

A comprehensive health education program must be taught to students from kindergarten through ninth grade. As required by law, the health education program must include age-appropriate instruction on bicycle safety, nutrition, dental health, environmental health, family living, consumer health, disease control, growth and development, first aid and emergency care, mental and emotional health, drug and alcohol abuse prevention, prevention of sexually transmitted diseases (STDs), including HIV/AIDS and other communicable diseases, and reproductive health and safety education.

As required by law and beginning in seventh grade, reproductive health and safety education will include age-appropriate instruction on sexual abstinence until marriage, STDs, the human reproductive system, preventable risks for preterm birth in subsequent pregnancies, effective contraceptive methods for preventing pregnancy, and awareness of sexual assault and sexual abuse, and sex trafficking prevention and awareness.

# B. PARENTAL OPPORTUNITIES TO REVIEW MATERIALS AND WITHHOLD CONSENT FOR STUDENT PARTICIPATION

Each year before students participate in reproductive health and safety education or in other separate instruction on the prevention of STDs, including HIV/AIDS, or the avoidance of out-of-wedlock pregnancy, the principal or designee shall notify parents of the opportunity to review the materials and objectives that will be used in instruction. A copy of all objectives and materials will be available for review in the media center of each school where these subjects will be taught.

The principal or designee shall also notify parents of the right to withhold or withdraw consent for their child's participation in all reproductive health and safety education instruction or in specific topics such as STDs, the effectiveness and safety of contraceptive methods, and awareness of sexual assault and sexual abuse, and sex trafficking prevention and awareness. Parents may also withhold consent to student participation in other separate instruction on the prevention of STDs, including HIV/AIDS, or the avoidance of out-of-wedlock pregnancy. Any parent wishing to

withhold consent must do so in writing to the principal.

# C. STANDARDS FOR INSTRUCTION

For reproductive health and safety education, teachers shall follow the instructional objectives and only use the age-appropriate materials that have been made available to parents for review in accordance with this policy. Information conveyed during instruction will be objective and based upon scientific research that is peer reviewed and accepted by professionals and credentialed experts in the field of sexual health education or other field authorized by law.

A determination of what is an appropriate education for a student with disabilities must be made in accordance with the student's individualized education plan, following all procedures as provided in the North Carolina *Policies Governing Services for Children with Disabilities*.

The board recognizes that <u>providing</u> students <u>with the opportunity to receive a sound basic</u> <u>education</u> must be the primary focus of each school, the school system, and the board. To support students in their formal education, each school should strive for a learning environment in which:

- 1. school grounds, buildings, and classrooms are safe, orderly, clean, and inviting;
- 2. students learn and practice responsible behavior;
- 3. students are treated fairly; and
- 4. students have input in decisions affecting them when feasible.

Public record-keeping requirements and federal and state law require that the school system properly manage its electronically stored information ("ESI"). As set forth below, the school system will retain and destroy ESI in accordance with this policy and/or the approved Records Retention and Disposition Schedule ("Schedule") for local education agencies adopted by the North Carolina Department of Natural and Cultural Resources.

#### A. SYSTEM-WIDE E-MAIL RETENTION AND EMPLOYEE RESPONSIBILITY FOR ESI

All e-mails produced and received are the property of the school system and will automatically be retained by the school system for a minimum of three years. In some cases, business-related e-mails must be retained longer, according to the Schedule, and individual employees are required to review the Schedule and save such e-mails, in hard copy or electronic format, for the applicable time period. For ESI other than e-mail, each employee shall retain such records, in hard copy or electronic format, for the time period required by the Schedule.

#### B. LITIGATION HOLDS FOR ESI

The school system will have an ESI team. The ESI team is a designated group of individuals who implement and monitor litigation holds, which are directives not to destroy ESI that might be relevant to a pending or imminent legal proceeding. The ESI team must include a designated school administrator, the school board attorney, and a member from the technology department. In the case of a litigation hold, the ESI team shall direct employees and the technology department, as necessary, to suspend the normal disposition procedure for all related records.

## C. INSPECTION OF ESI

Any requests for ESI records should be made in writing and will be reviewed by the records officer (see policy 5070/7350, Public Records – Retention, Release, and Disposition), in consultation with the school board attorney if needed, and released in accordance with North Carolina public records laws.

## D. DELEGATED AUTHORITY

The board of education delegates to the superintendent or designees the right to implement and enforce additional procedures or directives relating to ESI retention consistent with this policy.

The board recognizes the importance of law enforcement authorities in providing safe schools. The board desires an effective working relationship with law enforcement. To this end, the superintendent and principals are expected to communicate the needs of the schools and work with law enforcement officials in developing joint programs and in establishing protocols for handling situations in which the assistance of law enforcement is helpful or necessary. The superintendent shall establish procedures for school contacts with law enforcement agencies.

The superintendent shall ensure that local law enforcement have schematic diagrams, including digital schematic diagrams, of all school facilities and provide them updates of the schematic diagrams when the school system makes substantial facility modifications, such as the addition of new facilities or modifications to doors or windows. The superintendent shall also provide local law enforcement with (1) either keys to the main entrance of all school buildings or emergency access to key storage devices for all school buildings and with (2) updated access to school buildings when changes are made to the locks of the main entrances or to the key storage devices when changes are made to the devices.

School resource officers will be assigned duties as specified in a written understanding between the law enforcement agency and the school system.

Law enforcement officials, including school resource officers, should not initiate administrative investigations, including investigations to determine whether student behavior policies have been violated, but may be used to assist school officials in such investigations for safety or other reasons as determined necessary by the principal or designee. Law enforcement officials may be contacted to report possible criminal conduct on school premises or at school-sponsored activities. (See policy 4335, Criminal Behavior, for more information regarding mandatory reporting of certain criminal behaviors.) However, school officials will independently investigate violations of school rules or board policies even if such violations may also involve criminal behavior.

School administrators and employees are expected to cooperate in criminal investigations but should attempt to do so in a way that minimizes disruptions to the educational environment. Visits by probation officers to students during the school day must be in accordance with policy 5020, Visitors to the Schools.

The board recognizes that an effective educational program must be supported by services that assist students in taking advantage of educational opportunities to receive a sound basic education. The board also recognizes the need for services that help the school system use resources necessary for an educational program in an effective and efficient manner.

The board and superintendent will strive to educate the board of county commissioners and other funding sources of the importance of support services.

The board will provide health services to students as required by law. School employees may administer drugs or medication prescribed by a doctor only upon the written request of the parents; give emergency health care when reasonably apparent circumstances indicate that any delay would seriously worsen the physical condition or endanger the life of the student; and perform any other first aid or lifesaving technique in which training has been provided to school employees. A registered nurse also will be available to provide assessment, care planning, and ongoing evaluation of students with special health care service needs in the school setting.

The superintendent may develop procedures or delegate the development of procedures to each school principal for providing these health services and meeting the board requirements listed below.

- 1. The principal shall determine at the beginning of each school year prior to the beginning of classes, and thereafter as circumstances require, which employees will be selected to participate in the health services program. The principal shall inform his or her staff about which health services duties are delegated to which employees.
- 2. Any employee designated to provide health care services must receive appropriate training.
- 3. Health manuals prepared by the governing state agencies must be followed in developing appropriate procedures and for determining which tasks must be performed by registered nurses.
- 4. Procedures must be consistent with all related board policies, including policy 4230, Communicable Diseases Students, and policy 6125, Administering Medicines to Students.
- 5. Procedures must be consistent with state and federal law for students with disabilities, including the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act. The *Policies Governing Services for Children with Disabilities* will be followed, as applicable.
- 6. Procedures must be consistent with guidelines adopted by the State Board of Education under G.S. 115C-12(31) to serve students with diabetes, including developing and implementing individual diabetes care plans for such students and providing information and training to school personnel to appropriately support and assist such students, in accordance with their individual diabetes care plans. The superintendent or designee shall report annually to the State Board on whether students with diabetes are enrolled in the school system and, if so, provide information demonstrating compliance with State Board guidelines as required by G.S. 115C-375.3.

7. Written information maintained by the school or school personnel regarding a student's medicinal and health needs is confidential. Parents and students must be accorded all rights provided by the Family Educational Rights and Privacy Act (FERPA) and state confidentiality laws. Any employee who violates the confidentiality of the records may be subject to disciplinary action.

- 8. School personnel must obtain parental consent for medical services as required by law. Parents will be notified of their rights in accordance with policy 1310/4002, Parental Involvement.
- 9. Health professionals will be consulted in the development of health services. Opportunities also will be provided for input from staff, parents, and students on the health services provided.

reporting by principals who enter into contracts.									

#### **B.** CONTRACT FORMS

The board attorney shall review any contract forms developed for use by a school or the school system.

## C. LEASE PURCHASE CONTRACTS

The finance officer must approve any request to enter lease purchase contracts as authorized by G.S. 115C-528, regardless of the dollar amount. After considering the principal and amount of interest, the superintendent must determine that the lease purchase is a fiscally prudent choice that is consistent with board policy.

The finance officer shall provide the board with periodic reports on lease purchase contracts, including the amount of the principal, interest paid, and the amount of the outstanding obligation.

## D. OTHER APPLICABLE POLICIES AND LAWS

Purchases may be made through the State Division of Purchase and Contract in accordance with the Division's rules and regulations, as authorized by G.S. 115C-522.

All contracts involving construction or repair work or purchase of apparatus, supplies, materials, or equipment must be undertaken in compliance with Chapter 143 of the North Carolina General Statutes, except as provided elsewhere by state law. All purchases of apparatus, supplies, materials, and equipment will be made in accordance with all applicable laws and regulations, including Chapter 143. Article 8, of the North Carolina General Statutes, board policy, and school system purchasing procedures. Purchasing contracts subject to the E-Verify requirement will contain a provision stating that the contractor and contractor's subcontractors must comply with the requirements of G.S. Chapter 64, Article 2. All employees involved in purchasing must be familiar with these applicable requirements.

The purchasing officer shall ensure that written specifications for desired products are descriptive and clear and incorporate the quality requirements and service needs of the school system. There is no minimum number of bids, proposals, or quotes required for the purchase of apparatus, supplies, materials, and equipment (whether formally or informally bid); however, the board encourages the purchasing officer to obtain at least two bids, proposals, or quotes when feasible.

Except as otherwise required by law or specified by the board, the board delegates to the superintendent the authority to award contracts for the purchase of apparatus, supplies, materials, and equipment involving amounts up to \$\_\_\_\_\_\_. Any purchases or contracts involving expenditures greater than this amount must be approved by the board. The purchasing officer and any additional staff deemed appropriate by the superintendent shall review submissions of bids, proposals, or quotes to determine if they are responsive to the system's specifications and make recommendations to the superintendent. The superintendent may award the contract based upon such recommendations or make a recommendation to the board for award of the contract by the board.

Apparatus, supplies, materials, and equipment must be purchased in accordance with the following requirements.

# A. FORMAL BIDS (EQUAL TO OR MORE THAN \$90,000)

The purchase of apparatus, supplies, materials, or equipment for expenditures equal to or more than \$90,000 must be secured through the competitive bid process governed by G.S. 143-129. The superintendent, in consultation with the purchasing officer, is authorized to determine the best method for formally bidding a product or, as appropriate, utilizing one of the exceptions to formal bidding as provided below in section E. The purchasing officer shall oversee the use of any purchasing method and ensure that all state requirements are met, including advertisement, sealed bids, maintaining records, and public opening of bids. The board authorizes the use of newspaper advertisement, electronic advertisement, or both for formal bids; however, the superintendent has the authority to determine which method will be used for a specific purchase or categories of purchases.

Awards will be made to the lowest responsible bidder(s) whose bid or proposal meets the

requirements and criteria set forth by the school system, taking into consideration quality, performance, and the time specified in the proposal for the performance of the contract. To be eligible for an award of a contract subject to G.S. 143-129, the contractor and its subcontractors, if any, must demonstrate compliance with all applicable provisions of G.S. Chapter 64, Article 2, including the responsibility to use E-Verify. All contracts awarded must be in writing.

The board permits the use of the following processes for contracts that require formal bidding.

## 1. Competitive Sealed Bids

A competitive sealed bid (or invitation to bid) may be used to request the cost of particular goods by providing detailed specifications in advance.

## 2. Reverse Auction

Pursuant to G.S. 143-129.9(a)(1), the school system may use reverse auctions as an alternative to sealed bid procedures. For purposes of this policy, "reverse auction" means a real-time purchasing process in which bidders compete to provide goods at the lowest selling price in an open and interactive environment. The superintendent, in consultation with the purchasing officer, shall determine whether reverse auctions are appropriate for a specific purchase or category of purchases. To conduct a reverse auction, the purchase officer may use a third party, may use the state's electronic procurement system, or, if appropriate equipment is available, may conduct the auction using school system equipment.

# 3. Exceptions to Formal Bids

Any of the processes outlined below in <u>sS</u>ection E may be used in lieu of formal bidding, so long as all requirements of state law are met.

## B. INFORMAL BIDS (\$30,000 TO \$90,000)

The purchase of apparatus, supplies, materials, or equipment for expenditures of at least \$30,000 but less than \$90,000 must be secured through the informal bidding process governed by G.S. 143-131. The superintendent, in consultation with the purchasing officer, is authorized to determine the best method for securing informal bids on a product. The purchasing officer shall oversee the use of any purchasing method and ensure that all state requirements are met, including maintaining records of all bids submitted. Awards will be made to the lowest responsible, responsive bidder(s) whose bid or proposal meets the requirements and criteria set forth by the school system, taking into consideration quality, performance, and the time specified in the proposal for the performance of the contract.

## 1. Competitive Sealed Bids

Informal bid requirements may be met by the use of sealed bids. The purchasing officer may utilize the methods for formal competitive bids provided in sSection A or may determine other appropriate methods for soliciting sealed bids. The bid specifications must include the time, date, and place for opening bids. No advertisement for bids is necessary (unless the formal bid process is used); however, the purchasing officer may advertise for bids as he or she deems appropriate.

## 2. Quotations

Informal bid requirements may be met by the solicitation of quotes from prospective vendors. Quotations may be solicited and submitted via telephone, fax, e-mail, or the North Carolina E-Procurement system. Telephone quotes must be placed in writing before a final contract will be awarded. Written quotations must be on the vendor's letterhead or an official quotation form.

## 3. Reverse Auction

A reverse auction may be used to solicit informal bids, consistent with the process provided in section A.2.

# 4. Exceptions to Informal Bids

Any of the processes outlined below in <u>sS</u>ection E may be used in lieu of informal bidding, so long as all requirements of state law are met.

# C. PURCHASES FOR LESS THAN \$30,000

Purchases for apparatus, supplies, materials, and equipment costing less than \$30,000 will be awarded pursuant to the standards provided in policy 6440, Local Purchasing Requirements for Equipment, Materials, and Supplies.

## D. ELECTRONIC BIDDING

Pursuant to G.S. 143-129.9(a)(2), the school system may receive bids electronically in addition to or instead of paper bids. If electronic bids are used for purchases that must be formally bid, procedures for receipt of electronic bids must be designed to ensure the security, authenticity, and confidentiality of the bids to at least the same extent as provided with paper bids. The superintendent, in consultation with the purchasing officer, shall determine whether electronic bidding is appropriate for a specific purchase or category of purchases.

## E. EXCEPTIONS TO THE FORMAL AND INFORMAL BIDDING REQUIREMENTS

The school system may utilize the following purchasing options instead of pursuing

competitive bidding. Formal or informal bidding is not required if any of these processes are used. The purchasing officer shall gather information to document the basis for the use of any exceptions to the competitive bidding requirements. The superintendent, in consultation with the purchasing officer, may determine that using one of the following exceptions is appropriate for a specific purchase or group of purchases.

# 1. Purchases from Other Governmental Agencies

Pursuant to G.S. 143-129(e)(1), the school system may contract for the purchase, lease, or other acquisition of apparatus, supplies, materials, or equipment from any other federal, state, or local governmental agency.

# 2. Special Emergencies

Pursuant to G.S. 143-129(e)(2), competitive bidding is not required in cases of special emergencies involving the health and safety of people or their property. For an emergency to exist under the statute, the following factors must exist: (1) the emergency is present, immediate, and existing; (2) the harm cannot be averted through temporary measures; and (3) the emergency was not self-created by the school system.

# 3. Competitive Group Purchasing

Pursuant to G.S. 143-129(e)(3), the school system may make purchases through a competitive bidding group purchasing program, through which another entity uses a competitive process to establish contracts on behalf of multiple entities at discount prices.

#### 4. State Term Contract

Pursuant to G.S. 143-129(e)(9), the school system may purchase products included in state term contracts with the state vendor for the price stipulated in the state contract, if the vendor is willing to extend to the school system the same or more favorable prices, terms, and conditions as established in the state contract.

## 5. Sole Source Items

Pursuant to G.S. 143-129(e)(6), upon approval of the board of education, the school system may purchase an item through a single or sole source contract under the following circumstances: (1) when performance or price competition is not available; (2) when a needed product is available from only one source of supply; or (3) when standardization or compatibility is the overriding consideration. When requesting a purchase under the sole source exception, the purchasing officer shall provide the board with documentation that justifies the use of the exception.

## 6. "Piggybacking" or Previously Bid Contracts

Pursuant to G.S. 143-129(g), upon approval of the board of education, the school system may purchase from any supplier that, within the previous 12 months, has contracted to furnish the needed item to the federal government, to any state government, or to any agency or political subdivision of the federal government or any state government. Before recommending a purchase using the piggybacking exception, the purchasing officer shall ensure that the following requirements are met: (1) the price and other terms and conditions of the contract are at least as favorable as the prior contract; (2) the contract was entered into following a public, formal bidding process substantially similar to that required by North Carolina General Statutes; (3) the same vendor is used; and (4) notice of intent to award the contract without bidding is publicly advertised at least 10 days prior to the regularly-scheduled board meeting at which the contract will be approved. Before approving the contract, the board must determine that using the contract is in the best interest of the school system.

# 7. Purchases of Information Technology Goods and Services

Pursuant to G.S. 143-129(e)(7) and 143B-1324(b), the school system may purchase or lease information technology through contracts established by the State Office of Department of Information Technology Services. The purchasing officer shall work with the information technology department to ensure that any such purchases meet the needs of the school system.

In addition, the school system also may purchase information technology goods and services by using a request for proposal (RFP) pursuant to G.S. 143-129.8, provided that the following requirements are met: (1) notice of the request is provided consistent with the formal bidding notice requirements and (2) contracts are awarded to the person or entity that submits the best overall proposal as determined by the purchasing officer and superintendent. The RFP should describe the scope of work, general terms and conditions, specifications of the product needed by the school system, and the application process. information technology supervisor shall assist the purchasing officer in reviewing the responsiveness of any RFP submitted pursuant to this subsection. RFPs will be evaluated using the "best value" method as defined in G.S. 143-135.9(a)(1) so that the system may select the most appropriate technological solution to meet the school system's objectives. However, if the purchasing officer considers the purchase to be highly complex or is unable to clearly determine what the optimal solution for the school system is, the "solution-based solicitation" or "government-vendor partnership" method may be used. The purchasing officer may negotiate with the proposer to obtain a final contract that meets the best needs of the school system, so long as the alterations based on such negotiations do not deprive proposers or potential proposers of the opportunity to compete for the contract and do not result in the award of the contract to a different person or entity than would have received it if the alterations had been included in the RFP.

# 8. Gasoline, Fuel, and Oil Purchases

Pursuant to G.S. 143-129(e)(5), the school system may purchase gasoline, fuel, and oil products without using formal competitive bidding. However, such purchases are subject to the informal bidding requirements provided above.

#### 9. Used Products

Pursuant to G.S. 143-129(e)(10), the school system may purchase previously used apparatus, supplies, materials, or equipment without using formal competitive bidding. Before purchasing used products, the purchasing officer shall ensure that the products are in good, usable condition and will be sufficient to meet the school system's needs for a reasonable period of time.

# F. LEASE PURCHASE CONTRACTS AND OTHER CONTRACTS FINANCED OVER TIME

Lease purchase contracts, contracts that include options to purchase, and leases for the life of equipment all must be bid consistent with the requirements of G.S. 143-129 and 143-131. The purchasing officer shall ensure that such contracts meet the legal requirements and the provisions of policy 6420, Contracts with the Board.

#### G. USE OF SCHOOL SYSTEM TERM CONTRACTS

The school system may create and use term contracts for items that are routinely purchased by the school system. If the estimated expenditure for a routine item under the term contract is equal to or exceeds \$90,000, the contract must be formally bid. If the estimated expenditure is at least \$30,000 but less than \$90,000, the contract must be informally bid. The purchasing officer may incorporate the use of a term contract in the bidding specifications. If term contracts are used, the board attorney, in consultation with the purchasing officer, shall review the contracts.

#### H. HISTORICALLY UNDERUTILIZED BUSINESSES

The board affirms the state's commitment to encouraging the participation of historically underutilized businesses in purchasing functions. The board will comply with all legal requirements and the standards in policy 6402, Participation by Historically Underutilized Businesses.

#### A. GENERAL PRINCIPLES

It is the policy of the board to provide all applicants for employment with equal employment opportunities and to provide current employees with training, compensation, promotion, and other benefits of employment without regard to race, color, religion, national origin, military affiliation, genetic information, sex, age, or disability, except when sex, age, or physical requirements are essential occupational qualifications. All candidates will be evaluated on their merits and qualifications for positions. All employment decisions will be consistent with the board's objective of providing students with the opportunity to receive a sound basic education, as required by state law.

The board also is committed to diversity throughout the programs and practices of the school system. To further this goal, the recruitment and employment program should be designed to encourage a diverse pool of qualified applicants.

## B. RECRUITMENT

Recruitment for a specific vacancy will be undertaken only after the need and qualifications for the position are established and proper authorization is obtained.

All vacancies must be adequately publicized within the school system so that employees will be informed of opportunities for promotion or transfer to new jobs. Vacancies also may be publicized externally to attract qualified applicants.

## C. CRIMINAL HISTORY

Applicants must notify the assistant superintendent of human resources immediately if they are arrested, charged with, or convicted of a criminal offense (including entering a plea of guilty or *nolo contendere*) other than a minor traffic violation (i.e., speeding, parking, or a lesser violation). Notice must be in writing, must include all pertinent facts, and must be delivered to the assistant superintendent of human resources no later than the next scheduled business day following the arrest, charge, or conviction, unless the applicant is hospitalized or incarcerated, in which case the applicant must report the alleged violation within 24 hours after his or her release. Upon judicial action in the matter, the applicant must report the disposition and pertinent facts in writing to the assistant superintendent of human resources no later than the next business day following adjudication.

A criminal history check and a check of sex offender registries must be conducted on all final candidates for employment with the school system. Criminal history checks must be conducted in accordance with state law and any procedures established by the superintendent. School officials shall not require candidates to disclose expunged arrests,

charges, or convictions and shall not ask candidates to voluntarily disclose such information without first advising that disclosure is not required. The superintendent or designee shall report to the State Board of Education any licensed individual who is found to have a criminal history, as required by State Board policy.

A final candidate for employment or for hiring as an independent contractor will be excluded from hiring on the basis of criminal conduct only when doing so is job-related and consistent with business necessity. If a final candidate is found to have been convicted of a criminal offense, other than a minor traffic violation, the superintendent shall determine whether the individual is qualified for employment despite the criminal history by considering, among other things, whether the individual poses a threat to the safety of students or personnel or has demonstrated that he or she does not have the integrity or honesty to fulfill the duties of the position. The following factors will be considered in making this determination: (1) the nature and gravity of the offense or conduct; (2) the time that has passed since the offense or conduct and/or completion of the sentence; and (3) the nature of the job sought. Before the superintendent may exclude a final candidate based on his or her past criminal convictions, the superintendent must give the candidate the opportunity to demonstrate that the exclusion does not properly apply to him or her.

The board has determined that every position with the school system, regardless of whether the position is located in a school or elsewhere, potentially entails contact with students, either on a regular, occasional, or emergency basis. For that reason, no individual who is a registered sex offender subject to the provisions of policy 5022, Registered Sex Offenders, will be hired for any position with the school system.

In addition, each contract executed by the board with an independent contractor or for services of independent contractors must require the contractor to check sex offender registries as specified in policy 5022, Registered Sex Offenders.

#### D. SELECTION

## 1. Qualifications

Candidates for employment must be selected based upon their likely ability to fulfill duties identified in the job description as well as performance standards established by the board. In making the determination, the following information must be considered:

- a. application;
- b. education and training;
- c. licensure and certification (when applicable);
- d. relevant experience;

- e. personal interviews; and
- f. references and/or background checks.

When several applicants for the same position are equally qualified and suitable for the position, employees within the school system will be given priority.

# 2. Nepotism

- a. For purposes of this subsection, the following definitions apply.
  - i. "Immediate family" means spouse, parent, child, brother, sister, grandparent, or grandchild. The term includes the step, half, and in-law relationships.
  - ii. "Central office staff administrator" includes directors, supervisors, specialists, staff officers, assistant superintendents, area superintendents, superintendents, and principals.
- b. Before any immediate family of any board of education member or central office staff administrator is employed by the board or engaged in any capacity as an employee, independent contractor, or otherwise, (1) the board member or central office staff administrator must disclose the familial relationship to the board and (2) the prospective employment or engagement must be approved by the board in a duly called open session meeting.
  - i. An employee who knowingly fails to disclose a familial relationship to the board as required will be subject to disciplinary action up to and including dismissal.
  - ii. Notification by the employee to the assistant superintendent of human resources will be deemed disclosure to the board. The assistant superintendent of human resources is responsible for conveying the disclosure to the board before the board takes action on the prospective employment or engagement.
- When making recommendations for the selection and assignment of personnel, the superintendent shall attempt to avoid situations in which one employee occupies a position in which he or she has influence over the employment status, including hiring, salary, and promotion, of another employee who is a member of the first employee's <u>immediate</u> family.
- d. No administrative or supervisory personnel may directly supervise a member of his or her immediate family defined as spouse, children,

siblings, or parents.

# 3. Employment Procedures

All applicants selected for employment must be recommended by the superintendent and approved by the board. In situations in which the employee must be hired between board meetings, the superintendent is authorized to approve hiring such personnel, contingent upon approval by the board at its next scheduled board meeting.

State guidelines must be followed in selection and employment procedures. The superintendent shall develop any other procedures necessary to implement this policy.

The superintendent shall develop procedures for verifying new employees' legal status or authorization to work in the United States as required by law.

Cross References: <u>Board Authority and Duties (policy 1010)</u>, Registered Sex Offenders (policy 5022)

The board acknowledges that instructing students is the primary mission of the school system. Generally, in order to carry out the responsibilities of the school system, teachers and other employees may also be required to perform certain non-instructional and extracurricular duties. Assigned additional duties are considered part of all employees' responsibilities. However, assignment of additional duties to teachers should be minimized to allow time for teachers to plan, collaborate with colleagues, conduct conferences with parents, tutor students, and perform any other activities that have a direct impact on student achievement. Beginning teachers also need adequate opportunities to develop their professional skills and need access to experienced teachers who will provide mentoring to them. In light of these goals, the principal of each school has the authority to assign extracurricular and non-instructional duties as necessary to conduct the business of the school, within the following guidelines.

## A. EXTRACURRICULAR DUTIES

Initially licensed teachers and teachers with 27 or more years' experience (exempt teachers) may not be assigned extracurricular duties unless they request the assignments in writing.

## 1. Extracurricular Duties Defined

Extracurricular duties include those duties performed by a teacher outside the regular school day that involve students and are not directly related to the instructional program. Examples of extracurricular activities for which consent is required include such things as coaching duties, taking tickets at sporting events, and acting as a faculty sponsor for a student club. Extracurricular duties do not include such things as time spent in parent-teacher conferences or activities related to courses taught by the teacher, such as band concerts that are performed as a part of band class.

# 2. Exceptions Permitted for Compelling Reasons

In cases of compelling need, exempt-initially licensed teachers may be required to perform extracurricular duties if the procedures set forth in this paragraph are followed.

## a. Compelling Need Defined

A compelling need arises when the principal of a school is not reasonably able to provide adequate supervision by qualified personnel at extracurricular activities without using <u>initially licensed exempt</u>-teachers and no <u>initially licensed exempt</u>-teachers have volunteered in writing to perform these activities. In determining whether a compelling need exists,

it will be assumed that teaching assistants and other non-licensed employees may not be assigned to extracurricular duties unless the assignment is approved in advance by the superintendent or designee. Examples of compelling need include circumstances when:

- 1) an employee who is scheduled to perform an extracurricular duty is unexpectedly unavailable and the position must be filled quickly;
- 2) the school principal cannot adequately fill extracurricular duty positions without additional reliance on <u>initially licensed exempt</u> teachers; or
- 3) an extracurricular duty must be supervised by individuals with certain experience, skills, or qualifications and <u>initially licensed</u> exempt teachers are the only qualified staff members who possess the required experience, skills, or qualifications.

# b. Process for Granting a Compelling Need Waiver

## 1) Board Waiver

In cases in which the need for a waiver is reasonably foreseeable and there is an opportunity to bring the matter before the board of education for approval prior to the extra duty, the superintendent shall bring the matter to the board for a decision on the waiver request. The recommendation for a waiver must be in writing and set forth the circumstances requiring the waiver. The board minutes or other documentation will reflect the reasons for granting the waiver.

## 2) Superintendent Waiver

If there is not a scheduled board meeting prior to the need to provide adequate supervision at the extracurricular activity, the superintendent may waive the requirement upon a finding of compelling need. The superintendent shall make a written record of all such waivers and the circumstances for requesting each waiver. At the next regular board meeting, the superintendent shall report to the board any past waivers made and the reasons therefore. If the waiver is for an ongoing activity, the superintendent must seek and obtain board approval to continue the <u>initially licensed exempt</u>-teacher in the extracurricular activity in accordance with the procedure in paragraph (1) above.

## 3) Principal Waiver

If there is an exigent need to waive the policy, such as the unexpected illness or absence of an employee, then the school principal is authorized to waive the policy temporarily for up to five days. However, the principal must report the waiver to the superintendent in writing, setting forth the circumstances requiring the waiver. The superintendent must approve all waivers over five days, as provided in paragraph (2) above. The board must approve all continuing waivers at its next regular meeting, as provided in paragraph (1) above.

#### 4) Teacher Access to Records

The teacher may request and is entitled to receive any documentation regarding waivers requested or granted under this policy.

#### B. Non-Instructional Duties

Principals shall minimize the assignment of non-instructional duties to all teachers, including initially licensed teachers and teachers with 27 or more years of experience. Specifically, teachers should not be required to use their daily planning periods on an ongoing and regular basis to supervise students. Planning periods generally should be reserved for course planning and meetings with other professional staff regarding the instructional program.

## 1. Non-Instructional Duties Defined

Non-instructional duties refer to those duties that are not directly involved with the instructional program or the implementation of the current statewide instructional standards, but that all teachers are expected to do. These duties include such things as bus duty, carpool duty, and regular and ongoing use of planning periods to monitor hallways and cafeterias. Nothing in this policy should be construed to relieve teachers of the responsibility to provide for the safety and supervision of students during regular school hours, as necessary to maintain order and discipline in the school.

#### 2. Distribution of Non-Instructional Duties

Non-instructional duties should be distributed equitably among employees to the extent that it is reasonably possible to do so. In assigning non-instructional duties, consideration should be given to the need for initially licensed teachers to have adequate professional development, planning time, and access to more experienced teachers who can share. Teachers with more than 27 years of experience are expected to be available to devote some time each week to sharing their experience and expertise with less experienced teachers. Principals are responsible for structuring these opportunities in a way that will be beneficial to

the students and employees at their schools.

# C. EVALUATION

The failure of an exempt-initially licensed teacher to volunteer to perform extracurricular duties is not appropriate grounds to lower the teacher's evaluation or just cause for a less than proficient evaluation rating of an initially licensed exempt teacher, provided that the teacher has conducted himself or herself in a professional manner when declining to accept extracurricular duties. However, a teacher's failure to perform an assigned non-instructional or extracurricular duty in a competent and professional manner may be considered as a part of the teacher's evaluation.

The board recognizes that an effective staff is critical to the smooth operation of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers, and other licensed professionals, excel in their performance. It is the intent of the board to employ only those licensed employees who continuously exhibit a pattern of behavior that exemplifies excellent performance.

The board places a high priority on securing the most competent personnel available and, once they are employed, in assisting them in their professional growth and development throughout their careers. An effective evaluation program that clearly describes an employee's performance is a critical aspect of professional growth and assistance. Further, performance evaluation data is an important factor for consideration in decisions regarding continued employment. The superintendent must be able to substantiate any recommendation for continued employment with evaluation data, among other factors.

The superintendent is directed to develop and implement an effective evaluation system for licensed personnel that is consistent with State Board of Education policies. School administrators who are responsible for conducting evaluations shall comply with all state requirements with regard to the type and frequency of evaluation. The school principal shall evaluate teachers and may incorporate any guidelines or strategies developed by the State Board to assist in the evaluations. The principal shall provide teachers' access to EVAAS data as required by law and shall notify teachers at least annually when the data is updated to reflect teacher performance from the previous school year. The superintendent or designee shall evaluate principals and assistant principals.

All licensed personnel must be evaluated at least annually using state-approved evaluation instruments in conformance with the processes established by the State Board in the North Carolina Educator Evaluation System for that class of personnel. Teachers with fewer than three consecutive years of experience shall be evaluated annually in accordance with the comprehensive evaluation cycle established in State Board Policy TCP-C-004. For teachers with three or more years of experience, the abbreviated evaluation process established in State Board Policy TCP-C-004 satisfies the annual evaluation requirement; however, a teacher receiving an abbreviated evaluation may request that the evaluator conduct a formal observation. In addition, in any given year, the principal may elect to use the comprehensive or standard evaluation processes set forth in State Board Policy TCP-C-004 or require additional formal or informal observations to evaluate a teacher with three or more years of experience. The principal also may supplement the State Board evaluation processes for other categories of licensed personnel by requiring additional observations or other evaluation measures. The annual evaluation of principals and assistant principals must include a mid-year review.

The evaluation system must incorporate the following directives.

1. Evaluators must clearly identify exemplary performance as well as deficiencies in

performance.

2. Evaluators are encouraged to use supplementary means of assessing and documenting performance in addition to the state performance standards, assessment rubrics, and evaluation instruments, including, but not limited to, additional formal observations, informal observations, conferences, reviews of lesson plans and grade books, interactions with the employee, plans of growth or improvement, and any other accurate indicators of performance.

- 3. Student performance and growth data will be considered as a part of the evaluation of licensed personnel, as provided in the assessment rubric for the class of employees under evaluation. For teachers, such data shall include analysis of student work for performance-based courses and student performance as measured by the statewide growth model for educator effectiveness or as otherwise authorized by the State Board of Education and approved by the local board. Multiple means of assessing student performance must be used whenever possible. If only one method is used to measure student performance, it must be a clearly valid tool for evaluating an employee's impact on student performance.
- 4. Peer observations of teachers with fewer than three consecutive years of experience must be conducted as required by law using the evaluation instrument and process established by the State Board and must be considered by the school administrator in evaluating teacher performance.
- 5. Supervisors and principals should facilitate open communication with employees about performance expectations.
- 6. An employee who is unclear about how performance is being assessed or who desires additional evaluation opportunities should address these issues with his or her immediate supervisor.
- 7. Evaluators will be held accountable for following the evaluation system and all applicable state guidelines on the evaluation of employees.
- 8. Evaluation data will be submitted to the central office personnel file in accordance with state law and policy 7820, Personnel Files.
- 9. Evaluation data will be used in making employment decisions, including decisions related to professional and staff development (see policy 1610/7800, Professional and Staff Development) and suspension, demotion, and dismissal of employees (see policy 7930, Professional Employees: Demotion and Dismissal and policy 7940, Classified Personnel: Suspension and Dismissal). Employment decisions may be made by the board and administrators regardless of whether evaluators have followed the evaluation system, so long as there is a legally sufficient basis for the decisions.
- 10. The superintendent and all evaluators are encouraged to develop ways to recognize

distinguished performance and to capitalize on the abilities of such exemplary employees in helping other employees. The superintendent and evaluators are encouraged to involve employees in developing these processes.

The superintendent shall develop any other necessary procedures and shall provide training, as necessary, to carry out the board's directives and to meet state requirements.

**7920** 

The purpose of this policy is to establish an orderly procedure for a reduction in force. reducing the number of licensed, professional employees of the school system. This policy applies to (1) employees with career status and (2) all other teachers and school administrators, as defined in the relevant statutes, during the terms of their contracts. A reduction in force among any other employees will be accomplished in accordance with policy 7921, Classified Personnel Reduction, or, as applicable, in accordance with any conflicting terms of an individual employee's contract.

#### A. GROUNDS FOR REDUCTION IN FORCE

A reduction in force may be implemented when the board determines that any of the following circumstances have resulted in the need to decrease the number of licensed, professional positions held by employees to whom this policy applies.

## 1. System Reorganization

System reorganization is defined as (a) the closing, consolidation, or reorganization of schools, school buildings, or facilities; (b) the elimination, curtailment, or reorganization of a curriculum offering, program, or school operation; or (c) the merger of two or more school systems.

## 2. Declining Enrollment

Declining enrollment exists (a) when the enrollment or projected enrollment for the next succeeding school year causes a decrease in the number of teaching or administrative positions allocated by the State or any other funding source; or (b) when the enrollment or projected enrollment of a curriculum offering or program for the next succeeding school year is inadequate to justify continuation of the course or program.

## 3. Financial Exigency

Financial exigency means (a) any significant decline in the board's financial resources that compels a reduction in the school system's current operational budget; (b) any significant decrease or elimination in funding for a particular program; or (c) any insufficiency in funding that would render the board unable to continue existing programs at current levels.

#### B. PRELIMINARY DETERMINATION

- 1. The superintendent shall determine whether or not a reduction in force for licensed employees <u>subject to this policy</u> is necessary, appropriate, or in the best interests of the school system.
- 2. If the superintendent decides to recommend to the board a reduction in force, he or she shall first determine which licensed positions shall be subject to the reduction. In making that determination, the superintendent shall account for both:
  - a. structural considerations, such as identifying positions, departments, courses, programs, operations, and other areas where there are (1) less essential, duplicative, or excess personnel; (2) job responsibility and/or position inefficiencies; (3) opportunities for combined work functions; and/or (4) decreased student or other demands for curriculum, programs, operations, or other services; and
  - b. organizational considerations, such as anticipated organizational needs of the school system and program/school enrollment.
- 3. The superintendent shall then present a recommendation to the board. The recommendation must include:
  - a. the grounds for a reduction in force;
  - b. the licensed positions to be reduced, categorized by area(s) of licensure and/or program responsibility; and
  - c. the background information, data, and rationale for the recommendation.
- 4. The board will review the superintendent's recommendation and will determine whether to reduce the number of licensed employees or to reduce their terms of employment.
- 5. If the board, after exploring, considering, and discussing a variety of ways to avoid a reduction in force, determines that a reduction in force of <a href="employees\_subject to this policy\_licensed\_employees\_">employees\_subject to this policy\_licensed\_employees\_</a> is necessary, the superintendent shall recommend to the board which individuals are to be dismissed, demoted, or reduced to part-time employment, based on the criteria set forth below.

#### C. CRITERIA

The primary consideration in any reduction in force will be the maintenance of a sound and balanced educational program that is consistent with the functions and responsibilities of the school system. The superintendent shall consider a variety of factors in determining which employees will be included in the reduction in force, including the following:

1. <u>work performance and evaluation ratings</u>;

- 2. areas of licensure;
- 3. highly qualified status;
- 4. program enrollment;
- 5. service in extra duty positions and ability to fill such positions;
- 6. length of service, with higher priority given to service in this school system; and
- 7. degree level.

The superintendent shall develop a system for using the above-mentioned factors to determine which employees will be recommended to the board for inclusion in the reduction in force.

#### D. PROCEDURE FOR TERMINATION

The board will consider the superintendent's recommendation and may, by resolution, order dismissal or demotion of an individual or reduce an individual to part-time employment. All requirements of G.S. 115C-325 (for teachers with career status) and 115C-325.6 (for non-career status teachers) will be met, including the time limits and procedures for notice and the opportunity for a hearing, when any teacher with career status (as defined in G.S. 115C-325) or teacher or administrator (as defined in G.S. 115C-325.1) is terminated, demoted, or reduced to part-time employment due to a reduction in force.

#### E. TERMINATION/REEMPLOYMENT OF A TEACHER WITH CAREER STATUS

When a teacher with career status is dismissed in accordance with this policy, his or her name will be placed on a list of available employees to be maintained by the board.

## F. NONRENEWAL OF AN EMPLOYEE

The board, upon recommendation of the superintendent, may refuse to renew the contract of a non-career status teacher; to offer a new, renewed, or extended contract to a school administrator; or to reemploy any non-career status teacher who is not under contract for any cause it deems sufficient (see policy 7950, Non-Career Status Teachers: Nonrenewal). A decision (1) not to renew a non-career status teacher's contract, (2) not to renew, extend, or offer a new contract to a school administrator, or (3) to not reemploy any non-career status teacher who is not under contract is not considered a "termination" under this policy. In such circumstances the procedures set forth in this policy are not required to be followed before the board's decision.

#### B. LONG-RANGE PLAN

The plan will address the issue of whether to renovate existing facilities or build new facilities. The plan also will incorporate, where appropriate, creative options for meeting the needs of the educational program, such as expansion or reduction through modular construction, future alternative uses of space, the availability of community facilities, the use of temporary facilities or leasing arrangements, opportunities for capital lease financing of facilities through public/private partnerships, and sharing facilities with other school systems.'

#### C. PROCESS

- 1. data that reflect the possibility of enrollment declines or increases as well as other demographic changes in the population of students that is or may be served;
- 2. a facilities inventory that includes the size of sites, building capacities, age of buildings, energy consumption, ability to utilize technology, the suitability of the space for its current or future purpose, and accessibility by the community; and
